The Weather

Forecasts for tonight and Tuesday. For Charlotte and vicinity: Fair tonight and Thursday; continued warm. For North and South Carolina: Fair tonight and Thursday. Light variable

Rain is falling in Texas this morning, and cloudiness has spread eastward over Louisiana and Mississippi. Unsettled conditions prevail in New England and in the North Pacific States. Fair weather is general in remaining sections of the country.

The temperature ranged above 70 degrees at 8 a. m. today from Texas and lowa eastward to the coast; it is somewhat cooler in the Northwest. The mercury rose above 90 throughout the South yesterday, and reached 102 degrees in western Texas.

Very heavy rain fell at Galveston during the past 24 hours, and showers occurred in other eastern portions of Texas. There were thunder storms in the upper valleys and in the middle and New England States.

Market Reports

(Reports Received by Private Wire by Howell & Dodsworth.) NEW YORK COTTON.

New York, July 1.-C. W. Lee & Co. say: The Journal of Commerce figures published yesterday and showing practically no change in condition during the month have had considerable in:luence on sentiment. While that authority expressly states it's belief in the fact that correspondents have allowed too much weight to the late season and the smallness of the plant, none the less it is now feared that the government report may be based on the same distorted view of correspondence. We say distorted because there is absolutely nothing in the present condition of cotton as reported by reliable

HIS LAST HOPE REALIZED. (From the Sentinel, Gebo, Mont.) In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterwards his camping upon his claim, he encountered much heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure, and he cannot help but feel grateful. The season for bowel disorders being at hand suggests this item. For sale by R. H. Jordan & Co.

Continues to make Miraculous Cures

READ THIS LETTER: ALMOST A MIRACLE.

Gentlemen:—In September, 1899, I took rheumatism in a very bad form. In a month after the disease started I had to give up my work and go to bed. It continued to grow worse until my arms and hands were badly drawn, so much so that I could not use them. My legs were drawn back until my feet touched my hips. I was as helpless as a baby for nearly twelve months. The muscles of my arms and legs were hard and shriveled up. I suffered death many times over. Was treated by six different physicians in McColl, Dillon and Marion, but none of them could do me any good, until Dr. J. P. Ewing, of Dillon, came to see me. He told me to try your "RHEUMACIDE." He got me one bottle of the medicine and I began to take it and before the first bottle was used up I began to get better. I used five and a half bottles and was completely cured. That was two years ago, and my health has been excellent ever since. Have had no symptoms of rheumatism. I regard "RHEUMACIDE" as by far the best remedy for rheumatism on the market. I cannot say too much for it. I have recommended it to others since and it has cured them.

Will say further, that I began to walk in sbout six days after I began to take DILLON, S. C., Aug. 18th, 1902.

Will say further, that I began to walk in about six days after I began to take "RHEUMACIDE," with the aid of crutches; in about three months after I began to take it, I could walk as good as anybody, and went back to work again. JAMES WILKES. Very truly,

It is entirely upon the outlook of the new crop that options in the market must be based. If the crop is not doing well and is no better than it was a month ago why there are many reasons for buying. But we caunot help feeling that no great advantage is to be derived from the purchase of cotton at moment. New crop months range between 9% and 10 cents. On a break below there purchases seem to involve little risk and return good profits. But we would not buy except on substantial declines and would then sell on advances.
