Washington, Jan. 2 .- Port Arthur has decimated by disease and casualties. and hopelessly sealed in its rocky fortress, the gallant garrison has yielded to its gallant besiegers, and the end is now written of the most drastic war incident of modern times.

At nine o'clock last night General Nogi, commanding the Japanese army of investment, received from the Russian General Stoessel, a note saying that he found further resistance useless, and asking for a meeting to arrange terms of capitulation. The Japanese General immediately named the conditions of surrender. The na- role. ture of the terms agreed upon is not yet known, but dispatches from Tokio indicate that they will be most magnanimous in character. Dispatches from Japan have shown the gallant efence of Stoessel and his men has owhere been given finer appreciation than in the land of his foes. It is more than likely Japan will embrace the opportunity to show her magnanimity and admiration of the gallantry of Port Arthur's defenders by allowing

The news that the Russian forces at Port Arthur have been reduced to such a strait that at last the heroic commander has been forced to propose surrender follows upon a month of reverses. The siege began almost with the firing of the first gun in the war, now nearly 11 months old, and when perhaps the greatest stronghold in the world was garrisoned by 40,000 Russian soldiers, supported by a formidable squadron of modern battleships, cruisers and torpedo boats. These warhips have been destroyed or dispersed antil but a few torpedo boats remain n the harbor. The garrison at latest counts, had been reduced to about 5,000 men.
