Are Necessary at Once. Washington, D. C., Jan, 9.- "Some sacrifice is necessary to help meet the present emergency," says Admiral Dewey in a letter which he sent to Secretary of the Navy Morton. As president of the General Naval Board he views the present situation with alarm and asks that provision be made

The Admiral would reduce until 1913 the course at Annapolis from four to three years, raise the age of admission from 15 to 17 years, and commission graduated midshipmen after one year at sea without further examination. He would also make many changes looking toward a reserve list, the members of which should rank as high as those on the active list, except that they should not be called on for sea visiting her grandmother, Mrs. Sarah duty.
