CATARRI THE PLAGUE MR. WEARN ELECTED OF WINTER WITHOUT OTRUCK

Every Catarrh sufferer dreads the return of cold weather, for at the first cold breath of the season this plague of Winter is fanned into life with all its miserable symptoms. The nostrils are stopped up, and a constant dropping of mucus back into the throat keeps up a continual hawking and spitting, the patient has dull headaches, ringing noises in the ears and a half sick, depressed feeling all the time. Every inner lining and tissue of the body becomes inflamed, and secretes an unhealthy matter which is absorbed into the blood and distributed to all parts of the body, and the disease becomes constitutional. The catarrhal poison brings on stomach troubles, affects the Kidneys and Bladder, attacks the soft bones of the throat and head and if not checked leads to Consumption. A disease so deep-seated and dangerous cannot be washed out, neither can it be smoked away. Sprays, washes, inhalations, etc., are useless, because they only reach the membranes and tissues, while the real cause of the disease is in the blood. S. S. S. cures Catarrh because it attacks it through the blood; it goes into the circulation and drives out all unhealthy accumulations and catarrhal matter, and when this is done every part of the system receives a supply of

rich, pure blood. Then the inflamed membranes and tissues heal, all discharge ceases, the depressed feeling of the body is relieved, and every symptom passes away. S. S. S. goes to the very root of the trouble, and by purifying PURELY VEGETABLE. and enriching the blood and building up the entire system, cures Catarrh permanently. If you have Catarrh do not waste time with local remedies, but begin S. S. S. | Wearn received 10 of the 12 votes cast

The election of a successor to Mr. J. P. Wilson on the Police, Fire and Health Commission was the next business before the board. Mr. M. F. Kirby placed in nomination Mr. J. H. Wearn. There being no other nominations, a vote was taken, resulting in Methodist churches are preparing for the election of Mr. Wearn, he having received 10 of the 12 votes cast. Mr. C. M. Patterson received one vote and Mr. S. J. Asbury one. On motion of Dr. Faison the election of Mr. Wearn was made unanimous

Dr. I. W. Faison then presented the draft of the ordinance authorizing the election of a milk and meat inspector. fair. Those in charge of it are the In presenting the ordinance, Dr. Faison following named ladies: Mrs. Charles admitted that several changes would be necessary but that he wished the Mrs. George Dooley. ordinance to come before the board on its first reading. He further stated that he had visited several large cities for the purpose of acquainting himself Street Cars Will Soon Be with the manner in which such departments are conducted. He suggested y's good farmers was stricken with that a young physician be named for this position and that instead of a milk | Company stated this morning that as and meat inspector the position be named city bactereologist. In this connection, Dr. Faison thought that every cew that furnishes milk for public use, be carefully inspected. It was also suggested that the bactereologist be directly under the control of the health department of the city.

Dr. Faison then read to the board the text of the ordinance.

The ordinance follows: Be it ordained by the Boad of Alder-men of the City of Charlotte: Section 1. That only pure, unadulterated and wholesome milk shall be sold or offered for sale in the City of Charlotte, and that such articles shall be understood to be, the natural milk proundertook to make dents in the bony duct of healthy cows, which has not substance enclosing the cardinal cavity of the moman. Hooker was in the police dragnet, with a serious charge lodged against him. less than three per cent of butter and Hooker appeared before the mayor fats. All milk sold, received, kept, ofbeing considered impure, adulterated vent the sale of skimmed milk and butcontain less than two and five-tenths | ier. per cent of fat by weight, and where the specific gravity at sixty degrees Fahrenheit, is not between one and thirty-two thousandths and one and thirty-seven thousandths, it shall be

deemed to be adulterated. Section 3. No dealer in milk and n servant or agent of such dealer, shall sell, exchange or deliver, milk from which the cream or any part thereof has been removed, unless in a conspicuous place above the centre upon the outside of every vessel, can, or packknown, It makes you well and keeps Take LAXATIVE BROMO Quinine sold the words "skimmed milk" are age, from or in which such milk is

Section 4. That it shall be the duty of police, fire and health commissioners

to carry out the provisions of this ordinance, and to make or cause to be made inspections of milk, kept or offered for sale in the city of Charlotte, and to obtain samples of milk whose WITHOUT STRUGGLE qualities are to be determined by chemical or microscopical examination. It shall also be the duty of said board to make such rules and regulations as make such rules and regulations as may be required under the ordinance for the better protection of the health of

Section 5. No person engaged in the said city, shall store, cool, strain or mix said milk in any room which is occupied by horses, cows or other animals, or in any room used in whole or in part for domestic or sleeping pur-All rooms in which milk is stored, cooled, strained or mixed, shall be provided with tight walls and floor and kept constantly clean. The walls floors of said rooms shall be of such construction as to allow easy and thorough cleansing. The room or rooms aforesaid shall contain proper appliances for washing or sterilizing all utensils actually employed in the storage, mixing or cooling, sale or distribution of milk, and all such apparatus and utensils shall be washed with boiling water or sterilized by steam regu-

Section 6. There shall be appointed by the board of police, fire and health commissioners, an inspectors of milk who shall hold office for one year, and whose duties and compensation shall be give fixed by the rules and regulations of said board.

Section 7. That whenever the inspector of milk has reason to believe that any milk found by him is adulterated, he shall take specimens thereof and test the same with such instrument or instruments as are used for such pur The board was called to order last pose, and if the result of such test ingicates that the milk is not of the stannight by Mayor Pro Tem J. High Grade vs. Low Grade Candies!

You ask why we bring up this question? Because it i wolves a most important matter and one that every one is interested in. It is a Question of Health,

To go right to the heart of the matter, why should you eat cheap, impure candies when you can get the best and purest there is to be had? We are quite sure that you do not eat impure bread, canned goods or the like if you know it. Then why should you eat that sort of candy when you can get much better.

The materials out of which cheap, low grade candies are made contain some of the vilest adulterations known. And now this being the case, are you, a sensible person, going directly and buy a pound of these cheap candies for twenty-five or thirty cents, rather than pay sixty for the best, most delicious and purest candy that it is possible to make?

We say it again, it is a matter of health, and leave you to say whether or not it is worth the price.
