

DO YOU FEEL THIS WAY. Do you feel tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Do your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your sluggish liver to work, and will get into every vein in your body and purify your blood. It will set things right in your stomach, and your appetite will come back. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a footing in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about speedy cure in 95 per cent of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose advice is given free to all who wish to write him. His great success has come from his wide experience and varied practice. O. S. Copenhafer, Esq., of Mount Union, Huntingdon Co., Pa. (Box 222), writes: "About twelve years ago I was suddenly taken with a pain in the pit of the stomach, which was so violent I could not walk straight. It would grow more severe until it caused vomiting and vomiting of a slimy yellow water. A physician told me I had a form of dyspepsia and treated me for about six months with but little benefit. Another physician told me I had indigestion. He gave me a treatment and I got some better, but only for a short time. I then tried Dr. Pierce's medicine, using his 'Golden Medical Discovery' and the 'Pleasant Pellets,' and in two months' time I was feeling better than I had for years before." Don't be misled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicine, recommended to be "just as good."

GREENSBORO NEWS.

A Number of Interesting Local Items—Personals. Special to The News.

Greensboro, N. C., Jan. 16.—There was something of a ripple on the otherwise smooth political waters here Saturday, when it became known that the colored people had sent a protest to the Washington against the appointment of Mr. C. P. Frazier as postmaster. It is understood they claim that as a Republican candidate for the Legislature in 1902 after the suffrage amendment had disfranchised them he went out of his way "to throw off" on the negro and that he did the same thing in his speech at the State Republican convention in 1904 in accepting the nomination as Superintendent of Public Instruction. A gentleman speaking of this "protest" this morning, said it was a little strange that no protest was sent by the negroes against Chairman Rollins and those on his slate, when their throwing overboard of the negro was made with much more noise and fervor than that by Mr. Frazier, who only followed suit in the fashion of the time. Mr. Frazier is said to have the endorsement of the Blackburn faction of the party.

United States Marshal Millikan has been instructed by the Department of Justice through the Attorney General to offer a reward of \$50 for the apprehension of Jim Combs, wanted for conspiracy in the United States Court. He was also a witness in some of the cases before the court. Greensboro is becoming a great engineering and construction company center. The latest acquisition is the Southern headquarters for the celebrated firm of the Andrew Fuller Construction and Engineering Company, of Boston. They will soon open up offices here in the Benbow Arcade building, with a large force of officers under the supervision of Mr. C. A. Sawyer, Jr., of Philadelphia. There is as yet nothing definite given out as to the selection of a minister for the First Presbyterian Church here to supply the vacancy by the resignation of Dr. Smith.

GIVE HER A CHANCE.

Old Dame Nature Knows How. "Old Dame Nature has a sure way of curing sick people by food if the kind she wants is supplied the body and the person don't interfere with drugs. She prescribes such things as fresh air and sunshine, exercise and right food as her principal agencies. Grape-Nuts is a natural food, prepared from wholesome grains, with no drugs nor chemical ingredients or processes, and is shipped from the factory in such predigested fitness that the weakest stomach will readily assimilate it. An Ohio woman who suffered for twelve years from nervous prostration, night sweats, imperfect circulation, insomnia, etc., tells how Grape-Nuts food restored her to health and happiness in less than twelve weeks. "I was so reduced in strength with untold suffering, without vitality or ambition, bed-ridden and unable to even wait on myself, that I felt obliged to doctor all the time, taking one prescription after another, but deriving no permanent benefit from any. Sometimes I would feel better for a little while, but soon the effects of the medicine would pass away and I would lapse back to my former condition. "Last May at my mother's solicitation I concluded to quit medicines and try Grape-Nuts food. It did not work a miracle at once, but slowly and surely, day by day, it built me up and strengthened me. I soon began to sit up, then to work a little, then to get out to see my friends, gaining meanwhile in sleep, till at last, by the end of June I was able to leave home for a visit (taking my Grape-Nuts with me, be sure) returning after a few weeks, completely restored, with a healthy interest in my domestic duties, and, thank Heaven, the strength to perform them! "That is so, and that I am stronger in mind also and quicker and more vigorous intellectually, is due to the use of Grape-Nuts food." Name given by Postum Co., Battle Creek, Mich.

THE SHOPLIFTERS ARE AGAIN IN COURT

Two Negro Women Arrested During the Christmas Holidays, were Again Before the Court. Large Amount of Goods Recovered by Officers.

In the Recorder's Court this morning Hattie Kirkpatrick and Blandina Gaddy, the two negro women alleged to have been guilty of shop-lifting, during the Christmas holidays, and who are now out on bond, were before the court again on a similar charge. Sergeant Farrington and representatives of the Bee Hive and Belk Bros. went to the home of the women, near Biddle, yesterday afternoon and armed with a search warrant, they went through several trunks, supposed to be the property of these women. The searching party found a large number of dress patterns, skirts, pieces of lace and different kinds of wearing apparel. Some of these articles had the private cost marks of Belk Bros. The Bee Hive and the Little-Long Co. Representatives of each of these firms were in court. They recognized the different articles but, of course, could not swear that the specific articles were stolen. All three testified that articles of goods had mysteriously disappeared from their stores and the supposition is that they were stolen. Mr. T. L. Kirkpatrick who represented the three firms above mentioned would swear they had lost the goods, his clients could not be held. He also requested that all three firms be marked as prosecutors in the different bills of indictments. The representatives of the firms did not feel justified in taking this step so Acting Recorder Hillier continued the case until tomorrow morning, requiring a \$25 bond from each of the women. When the court announced its intention, Mr. Kirkpatrick said that in his opinion the judgment was a legal monstrosity and that in order to relieve his clients he would ask that their cause be brought to the attention of Judge Henry R. Bryan, in a habeas corpus writ. The court informed Mr. Kirkpatrick that he might take this action if he chose; that he would hold the women under a \$25 bond, each, until tomorrow morning. Will Nelson well known to the police was sent to jail for 30 days for vagrancy. Nelson has been in the habit of jumping on and off trains at the Southern's passenger station. DOCTOR CURED OF ECZEMA

Maryland Physician Cures Himself of Eczema with Cuticura Remedies. Prescribes Them and Has Cured Many Cases Where Other Remedies Have Failed—Dr. Fisher Says: CUTICURA REMEDIES POSSESS TRUE MERIT

"My face was afflicted with eczema in the year 1897. I used the Cuticura Remedies, and was entirely cured. I am a practicing physician and very often prescribe Cuticura Resolvent and Cuticura Soap in cases of eczema, and they have cured where other formulas have failed. I am not in the habit of endorsing patent medicines, but when I find remedies possessing "no merit" such as the Cuticura Remedies do, I am broad-minded enough to proclaim their virtues to the world. I have been practicing medicine for sixteen years, and must say I find your Remedies A No. 1. You are at liberty to publish this letter, or any part of it, remain very truly yours, G. M. Fisher, M. D., Big Pool, Md., May 24, 1905."

The new road will be about 90 miles long and will save many tunnels. It will save the Southern a haulage of 70 miles, the road having all coal from the Virginia fields into the Carolinas by way of Morristown. The Southern has awarded this contract to W. J. Oliver & Company, of this city, and the price will be in excess of \$5,000,000. It will require fully three years to complete the enterprise. At present a number of men are at work on the line, their presence at the Embreeville end of the line being necessary to carry out the right of way at strategic points.

UNFORTUNATE HUNTERS.

Their Dogs Got Drunk and Things Miscarried Generally. LeSueur (Minn.) Correspondence to St. Paul Pioneer Press. The most unfortunate hunting expedition engaged in by any of the citizens of Wheatley this fall was that undertaken by Henry Dolgan, Casper Thelle and Goetlieb Doch, who drove out seventeen miles to the Preston meadows yesterday in search of game. They had gone only three miles from town when Doch, who had crept up behind a straw stack, to get a shot at some crows in the field missed the crows but set fire to the straw and had to pay \$3 damages to the farmer who owned it. Then they lost their way and on a three mile wood track, through heavy timber, which they had to take to get to the right road again, they were compelled to follow a load of hay at a snail's pace, so that it was high noon when they got to the lake. Then they discovered, when they prepared to eat their lunch, that the brandy bottle had broken and its contents had soaked into sandwiches, ruining them as food. They threw them aside; the three dogs ate them, and were crazy drunk all the rest of the afternoon.
