Senator Culberson's Resolution Calling on Secretary of War to Supply Senate with Information as to Certain Officials Owning Land in Philippine Islands.

By Associated Press. Washington, Jan. 17.—The Senate adopted the resolution introduced by Senator Culberson calling upon the Secretary of War to supply the Senate with information as to whether any member of the Philippine Commission or any officer of the Army or Navy of the United States owns or has any interest in any land in the Islands.

The Secretary is desired to state particularly where such land is situated, particularly with reference to the location of the proposed railroads in the said Island.

Mr. Tillman addressed the Senate on the status of affairs in Santo Domingo. He quoted an extract on the Monroe Doctrine from the last annual message of the President.

"Is the reverse true that an unjust and disorderly government has something to fear from us," Mr. Tillman asked, "Because of it is, therein lies an immense amount of trouble for this country." It meant, he said, that the President intended to set up a standard and compel South American Nations to adhere to it.

He contended it would not benefit our country to "wrench and stretch the Monroe Doctrine beyond all precedent. It will not benefit us to step forward upon every pretext with a policeman's club to enforce the claims of bond-holders. That is the sum and substance of the new departure."
