One of the grandest agencies which enlightened Science has discovered to relieve motherhood from excessive suffering is the 'Favorite Prescription"
devised by Dr.
R. V. Pierce,
chief consulting physician of the Invalids' Hotel and

Surgical Insti-tute, of Buf-falo, N. Y.

This wonderful "Prescription" imbues the entire nervous system with natural, healthy vitality; gives elastic vigor to the delicate organism specially concerned in motherhood, and makes the coming of baby entirely free from danger and almost free from pain.

"I wish to state that I have used Doctor Pierce's Favorite Prescription with very good results," writes Mrs. Katie M. Annis, of Hudson, New Hampshire. "Had been in poor health for over four years and had been twice in the hospital. My husband brought some of your 'Favorite Prescription,' and it has carried me easily through my last two confinements. We are now blessed with two healthy children, and I am sure your medicine has done me more good than all the other treatment I have ever received."

BAD HEADACHES generally arise from bad stom-achs. Foul breath, bitter taste, coated tongue, sour eructations or belching of gas, are common symptoms though not all present in every case. To cure, take small doses, only one or two each Cay, of old Dr. Pierce's Pleasant Pellets, the Original Little Liver Pills, first put up by him over 60 years ago. One or two a laxative, three or four cathartic.

"A friend told me of Grape-Nuts and I invested in a box and began to eat according to directions. It was after only a few days that I found my long abused stomach was growing stronger and that the attacks of indigestion were less frequent, and in an incredibly short time they ceased altogether. With my perfect digestion restored came strong nerves, clear, active brain, the glow of health to my cheeks, and I know I was a better wife and mother Baptist clergyman in the South. the new conditions.

"When the boy came to be ten months old he developed such an appetite (his dyspepsia disappeared with mine) that his mother's milk was not sufficient for him. He rejected all baby foods, however, till I tried Grape-Nuts food, at Husband's suggestion. The youngster took to it at once and has eaten it daily ever since, thriving wonderfully on it. He now demands it at every meal and was much put out when he dined at a hotel a few days ago because the waitress could not fill his order for Grape-Nuts."
