DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmers' Swamp-Root, the great kidney, liver and bladder remedy. It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmers, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble. Dr. Kilmers' Swamp-Root is not recommended for anything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a complete bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmers & Co., Elmhurst, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists. Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmers' Swamp-Root, and the address Elmhurst, N. Y., on every bottle.

THE CHICKERING PIANO

Eighty-three years ago Jonas Chickering established a reputation as the world's finest piano maker. In the Chickering factories he established a standard of merit --all Chickering Pianos had to be made to that standard. As the science of Piano making advanced, so was the standard advanced until to-day the Chickering is the model from which others copy, as has been the case for eighty-three years. Jonas Chickering set a high mark, but today it is higher than ever, the recognized "Standard of the World," and is essentially the most desired piano for the home. The Chickering Quarter Grand (the smallest perfect Grand Piano made) is the latest achievement of this distinguished house. On exhibition at our warerooms.
