The good paint which lasted so well a generation and more ago, was simply pure white lead and pure linsed oil. Paint made of these two ingredients alone is just as good to-day as it ever was.

The only point is to buy a brand which you can rely on.

### The Cause of Many Sudden Deaths.

There is a disease prevailing in the country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away call by call.

Bladder troubles most always result from derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes the unpleasant necessity of being con-celled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

### Respected Friend:

My name is Carbosepticus, but they call me "Carbo" for short. My business is to destroy disease germs in sick rooms and dwellings, and I ought to be in every household. Don't forget that my name is "Carbo," and that I am in the world for a definite purpose. I destroy scarlet fever germs, typhus germs, and other germs most effectively. I refer you to your grocer or to your druggist as to my qualifications. Please do me the kindness to inquire about me that I may serve you.

Yours for health,

## JUDGE S. B. ADAMS CHOSEN CHAIRMAN

After Bitter Fight Ever Witnessed in this State Judge Spencer B. Adams Emerged from the Chaos of Last Night as State Chairman.

Special The News. Greensboro, July 11.—After a very stormy session, the State Republican Convention last night, at nine o'clock elected Judge Spencer B. Adams as chairman of the State Executive Committee. He received on the first ballot 476 votes, Congressman Blackburn received 297 and Mr. Harris 84, giving Judge Adams a clear majority of 95.

This brings to an end a long drawn out contest, at least as far as the control of the organization is concerned, of the Republicans in this State and from present indications the party may get together and have but little more squabbling, until after the election at any rate.

After Judge Adams was proclaimed State Chairman, Mr. Blackburn gracefully accepted the situation and pledged his hearty co-operation on the victors.

Both factions have worked hard and seemed confident of victory until yesterday afternoon when it was seen that the Adams star was in the ascendency.

Mr. Adams was placed in nomination by Mr. A. A. Whitener of Catawba county. He made an eloquent plea for his man. Mr. Blackburn was placed in nomination by Mr. G. S. Bradshaw and Mr. Thomas Settle placed Mr. Harris in nomination.

The convention, the first of its kind, was one of the most turbulent ever held in this State since reconstruction days. Throughout yesterday morning's session there was much discord and bitterness and disorder was the king of the day. Time and time again the chairman had to plead with the excited assembly to remain quiet. Several speakers attempted to gain recognition but were yelled down.

As the day warmed the enthusiasm grew for both sides were still hopeful. But at the ballot on the report of the Credentials committee yesterday evening it began to be evident that Blackburn's doom was sealed and the Adams forces appeared more formidable as the hours passed until the final ballot was taken, which resulted in the election of Judge Adams as Chairman. After this termination of affairs the ardor and spleen of the opposing factions subsided to some extent and comparative peace was established.

The following platform was adopted: The Platform. "The Republican party of North Carolina, in convention assembled at Greensboro, July 10th, 1906, congratulates all the people of the State upon prevailing conditions as the unquestioned offshoots of Republican policies enforced since 1897, resolves and declares the following to be a summary of their beliefs upon the more vital questions of present interest and of the action they will take if given power in the State.

"1. We claim for the administration of President Roosevelt that it has satisfied every reasonable demand of the patriot, the reformer and the worker in every field of human endeavor, that it has established the currency upon a basis not to be shaken, that it has vastly extended our foreign commerce and so added largely to the nation's wealth, that it has kept the peace at home and promoted it abroad, that it has expended the national revenue wisely and with absolute honesty, that it has laid bare and punished with an iron hand every species of official or corporate corruption brought to light by vigilant agents of its own choosing, that it has hearkened to the voice of the oppressed in all lands, and with sympathy when forbidden by law to give more, that it has aimed with true and constant purpose to reflect in its every act the highest and finest aspirations of the American people, North and South, East and West.

"2. Laws Are Inadequate. "We state with regret the acknowledged fact that the laws of our own State have not been enforced by the Democratic administrators in State and county affairs. The legislation upon the subject of temperance, so dear to a large part of our people, is confessedly a dead letter as relates to its enforcement by State officials. Republican officials of internal revenue bearing the whole burden of commanding for its popular obedience. Yet the amazing spectacle is presented of a party which has kept the promise to the ear and broken it to the hope now masquerading as prohibitionists in such sections of the State as they deem ripe for that experiment in law-making. The Republican party insists that every county and every town should be allowed to determine for itself by vote the question of whether, and, if so, how whiskey shall be sold in its limits, and that they shall, none of them, be appointed by the Legislature or justices of the peace of any other authority.

"3. We refute in the proper spirit of just indignation the frequent threat of danger to the State from our coming into power, made by Democratic speakers and newspapers. The merest novice in political conditions must know that victory for us can come from the addition of the constituency alone, the men of the Farmers' Alliance and the People's party, to whom alone, or in conjunction with Republicans, the State owes the great upward move-

ment in railroad regulation, manual education in common school education in the preserving care and encouragement of the University, A. & M. College and other State institutions, threatened then as now with ghost stories of their destruction and we pledged ourselves to continue and perfect the common school system begun by the Republicans until a good English education is in the reach of every child. We shall advocate one or more reformatories for youthful criminals and pledge the people that given power, no insane man or woman, white or black, shall lack the State's care, be the cost what it may.

"4. We congratulate the people of the State upon the removal of the Atlantic and North Carolina Railroad from the sphere of active politics, but denounce the refusal of the State Democratic officials to let the light of publicity shine upon the evidence taken behind closed doors, which led to the lease of that piece of State property.

"5. Denounce Democratic Methods. "We favor but never suffered punishment, thus showing in marked contrast to the Republican administration, and we further denounce the method of the Democratic party in appointing an investigation committee of strictly partisan Democrats.

"6.—If Democratic testimony is to be taken, the present corporation commission exists chiefly for the purpose of drawing salaries for itself. We pledge ourselves to make it efficient. At present it is the laughing stock of well-informed people but no less a burden upon the tax payer.

"7.—The Democratic party for years has vaunted its friendship for the Confederate soldier, who left him, in many cases an object of charity. The Republicans, by their votes in the General Assembly, have ever shown their friendship for this most honored class of our countrymen now lessening in number. We advocate doubling the pittance now received by these veterans and, if we secure a legislative majority, shall vote as we promise.

"8.—We favor rigid restriction of the servile immigration now coming to this country from Europe and shall aid, by every means in our power, to uphold the dignity and manhood of the native American citizenship. We rejoice that sectionalism is a thing of the past.

"9.—We favor the establishment of the Appalachian Park and pledge any Republican Congressman elected from this state to be its friend, but its establishment must be the work of Republican statesmanship and those of its friends miscount who look to see it come from discredited Democratic bunglers in a nomination.

"10.—We charge that the Democratic State administration has been costly beyond precedent without being efficient, that the dockets of the courts in many counties remain clogged, though judges and solicitors have been increased in number and it may be unalterably opposed to fraud upon the suffrage, and we believe that the great amount of crime and lawlessness that prevail and seem on the increase in our State, including lynchings, are due to licentious tongues of Democratic orators and others who teach and advise that it is right to commit crime and fraud on the Democratic party. Honest men can see no difference between stealing a ballot and a horse, between a false return of the result of an election and a false oath in the court house and a false verdict in the jury box.

"11.—It is the sense of this convention that town and city police in North Carolina should not exceed \$1. And, whereas, some dissension has arisen among Republicans on account of contests over appointments to Federal offices, which, with charges, and counter charges, have been given undue prominence by the Democratic press, and whereas the Democratic party has been enabled to retain its hold upon the State government by appeals to prejudice, references to the disorders and confusion resulting from the war and "the days of 68," as well as the manifold repetition of the statement that all Republicans are office-seekers. It is therefore now resolved that the State Executive Committee of the Republican party and its hereby instructed to assemble, and each and every member thereof in Greensboro, N. C., on the first day of September, 1906, and on the first days of March and September in each and every year hereafter, and shall then and there before adjournment consider applications for appointment to all Federal offices in North Carolina, the terms of which shall expire in the next six months, and to recommend to the appointing

DOCTOR'S SHIFT. "Now Gets Along Without It. "A physician says: "Until last fall I used to eat meat for my breakfast and suffered with indigestion until the meat had passed from the stomach. "Last fall I began the use of Grape-Nuts for breakfast and very soon found I could do without meat, for my body got all the nourishment necessary from the Grape-Nuts, and since then I have not had any indigestion and am feeling better and have increased in weight.

"Since finding the benefit I have derived from Grape-Nuts I have prescribed the food for all of my patients suffering from indigestion or over-feeding and also for those recovering from the grippe where I want a food easy to take and certain to digest and which will not overtax the stomach. "I always find the results I look for when I prescribe Grape-Nuts. For ethical reasons please omit my name." Name given by mail by Postum Co., Baitbridge, Mich.

"The reason for the wonderful amount of nutrition, and the easy digestion of Grape-Nuts is not hard to find. "In the first place the starchy part of the wheat and barley goes through various processes of cooking, to perfectly change the starch into Dextrose or Post Sugar, in which state it is ready to be easily absorbed by the blood. The parts in the wheat and barley which Nature can make use of for rebuilding brain and nerve centres are retained in this remarkable food, and thus the human body is supplied with the powerful strength producers so easily noticed after one has eaten
