

TODAY'S MARKETS

COTTON

J. S. Bache & Co's Daily Cotton Letter. Furnished by the Charlotte Cotton Exchange and Board of Trade.

New York, Aug. 27.—Liverpool this morning displayed considerable unlooked for strength, due, so it is said, as much to manipulation from this side as to any other.

Table with columns: New York Cotton, High, Low, Close. Rows for Jan, Feb, Mar, Apr, May, Jun, Jul, Aug, Sep, Oct, Nov, Dec.

Spots 2.90, sales none; market tone quiet; futures closed steady.

New York 11 A. M. Bids; January 2.26; Sent 8.85; October 9.01.

COOLER TONIGHT. Showers in This Vicinity Tonight Which Will be Followed by Fair Weather.

The weather man promises fair weather tomorrow and a cool wave tonight. The weather conditions are as follows:

Lightning Loved This Mark. Bolt Has Struck Three Times in the Same Place.

Middletown, N. Y., Aug. 27.—Three times within the past few weeks has the lightning descended and destroyed property on the farm occupied by John Silvernall at North Franklin, Delaware county; and Mr. Silvernall and his neighbors are wondering when the next bolt will strike.

In July one of Mr. Silvernall's cows was killed in the field by lightning. Two weeks later the barn was struck and burned with its contents, involving a loss of \$2,400. After the barn was destroyed a large quantity of hay was cut and stacked almost on the site of the burned barn, and now this hay has been consumed by fire strated by lightning.

Rev. W. P. McCorkle, D. D., of Savannah, Ga., preached yesterday in the First Presbyterian church in the absence of the pastor, Rev. J. R. Howerton.

There will be a reunion of the Marshall family at the old James Marshall place Friday, Aug. 31st. A picnic dinner will be served on the lawn. All friends and relatives of the Marshall family are invited to attend.

Rd., Wisconsin Central, Brooklyn Rapid Transit, Colorado Fuel & Iron, Peoples Gas, New York Edison, St. Louis & San Francisco, Tennessee Coal & Iron, United States Leather, United States Steel Preferred, Western Union, Virginia Carolina Chemical, Va. Carolina Chemical Pfd.

A NEW VENTURE TALKED.

Rumor of a New Road From Thomasville to Wadesboro—A Splendid Country.

Wadesboro, Aug. 27.—There is a report in circulation and has just reached the correspondent of The News, that Wadesboro will in the near future be asked to vote on a \$100,000 bond issue, for the purpose of building a steam road from Thomasville to Wadesboro, thence to High Point.

This hasn't been talked yet, and might bear investigation, though the people of Anson are at the present deeply interested in the progress of the South Bound. It would be a relief to the people of the county to know definitely whether the South Bound is a speculative venture or project in good faith.

The people did all they were asked to do in the way of voting appropriations and so far as we know have been exceedingly generous in contributing a right way for this contemplated line.

The route extends through a section of country second to none in North Carolina. The forests of hardwood and pine are almost untouched. The water powers that would speedily be converted into mercantile usefulness, would open a vast field for manufacturers of various kinds.

The soil is naturally susceptible of great improvement, with better railroad facilities as it is now, the section that would be made accessible to the outside world, is well stocked with the better class of agriculturists, who live at home, attending to their own affairs, and are putting aside of their earnings something each year.

The appropriations made to this prospective road is quite a large bonus for its construction, something over \$300,000. Should this go under Anson will probably build one of her own, from this point to Norwood and there tapping the Southern.

DOG DAYS ARE O'ER. Official Declaration by Chief Irwin—Will the Rain be Shut Off Too? By official declaration of Chief of Police Irwin, dog days are over today—August 27, and hereafter people may rest from the many bothersome superstitions that are connected with the 40 days in summer time.

Somebody who was standing by the Chief ventured that he was in error about the close of dog days, and that Sunday was the end of them, but the Chief said his information came from the colored servants at home, and that they always kept the closest track of such things—therefore the bystander was in error.

"The dates are these" said the Chief speaking as one who had authority "Dog days begin July 11 and end August 27" "Figure out for yourself."

The Chief has not prepared an official announcement about the forty days of wet weather that the country has been afflicted with. He is not willing to make oracular statements about the fickle weather, but he has ventured the hope that the rains will quit after today.

There are many people everywhere who will devoutly second the hope expressed by the Chief that the watery downpour is now getting ready to let up until next summer or some other future time.

OPENING OF ELIZABETH Occurs This Year on September 18—A Large Attendance Expected. Elizabeth College will open this year on September 18, for the term of 1906-7. Dr. C. B. Kink, president of this well known institution said that he expected a good attendance, with many new pupils from this and other States, as the college agents have been busy all summer canvassing the Southern States for pupils, and their efforts promise to be liberally rewarded.

A CARD FROM MR. WATKINS.

Resents Statement Made By Dr. Faison at Joint Meeting. To the Editor of The News: From The News of the 25th instant, I find that Dr. Faison makes the bold statement that Elizabeth College students got their fever from milk from my dairy. This is the most unwarranted statement yet made by any one. The facts of the case are that there were six typhoid fever patients in Elizabeth College, who did not get any raw milk from any dairy, and there were some inveterate milk drinkers who were not sick at all. I would like to see this Dr. Faison to explain why six who drank no raw milk at all had fever, while some inveterate milk drinkers had no fever.

Mr. King himself, president of the college, evidently does not believe Dr. Anderson's report, for he told me immediately after the report was issued that if he had to buy milk from any one he would rather buy it from my dairy than any other. There was no statement in Dr. Anderson's original report so palpably false that the Elizabeth College people cut it out altogether and did not publish it for reasons best known to themselves. The college did not get together, during the whole time they were buying milk, from the 19th of April until May 31st, more than about 12 gallons of sweet milk—they got about two gallons of sour milk daily. This was clabber milk, nothing but sour clabber robbed of its cream and churned up. We usually sold it for cooking and no doubt it was used as such at the college, because it was not recommended for the table, nor would it be acceptable to the boarders. The college had its own cows all the time and have been getting their chief supply from them.

I have never seen a word from Dr. Charles A. Misenheimer, the college physician, who was on the ground and constantly in attendance during all the sickness. He, above all others, had the best opportunity of finding the truth, certainly better than this wise Dr. Faison, who during all this trouble was sick in bed at home. Dr. Misenheimer certainly could not find this trouble at my door, because he drank milk from my dairy every day and has done so all year. Dr. Faison himself drank the milk all the spring and no doubt would be now, but for the fact that I was the only dairyman around Charlotte who has antagonized him in his wild, fanatical, impractical measures.

For 25 years I have been devoting my whole time and energies to give the citizens of Charlotte the best dairy service in the State and I believe that they have it today, and on two occasions during this period I closed my dairy on account of the health of the cows. This was done at my own volition. For years Wilmington, Columbia and Salisbury have been calling on me to help them out in their dairy supplies. There is not another dairy in North or South Carolina, with the exception of Vanderbilt's that is half as well equipped for the business as the one at Spring Dale. For the past 25 years there has not been a year but there has been a marked improvement in my dairy and I can't imagine anything more uncharitable than to place this cause of the typhoid fever at Elizabeth College at the door of Spring Dale Dairy. Perhaps Dr. Faison would like to have the credit for bettering health conditions in Charlotte. It is possible that that was the reason he was so wild in his statements, for he is more positive than Dr. Anderson himself, more positive than either the president or the college physician. The medical fraternity seems to be at sea as to the causes of typhoid fever. In general they seem to know very little about its cause. M.D. WATKINS.

Raeform School News. Special The News. Raeform, Aug. 27.—The annual reception to new students of Raeform Institute was given in the school auditorium Friday night. More than 100 young men have already matriculated and a goodly number will enter later. The faculty and friends of the school are highly elated over the fine opening, and the twelfth session just begun bids fair to become one of the most prosperous in the history of the school.

Griggs—That fellow Spicer claims to be connected with some of our best families. Griggs—He is. He takes their orders for groceries over the phone.—Boston Transcript.

Over-Work Weakens Your Kidneys. Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble. Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

FOUND GEMS WORTH \$8,000. Lineman Gave Them to Saratoga Police—Returned to Owner. Ballston, N. Y., Aug. 27.—Charles Cameron, a telephone lineman, of this village, attended the Saratoga races yesterday afternoon and picked up a bag of diamonds valued at \$8,000. He promptly turned the gems over to the police, and they soon returned them to the owner, Mrs. Lasell, of New York, who is stopping in Saratoga.

Worth it's Weight In Gold! TO REMOVE FRECKLES AND PIMPLES IN TEN DAYS, USE The Complexion Beautifier

Nadinola. Is guaranteed, and money refunded if it fails to remove the very worst cases and beautify the complexion in twenty days. Mrs. Edward Jones, of Mount Sterling, Kentucky, writes: "I feel it my duty to tell you the benefit Nadinola has been to me. I had suffered untold mortification with freckles, since childhood. Having used all the highly recommended creams and lotions, with much hesitancy I bought your entire treatment. After giving it a fair trial I most heartily recommend it, for it's worth its weight in gold to any woman having freckles. Your Nadinola is the only thing I have ever used with success. Your Nadinola Face Powder is grand. Wishing you the deserved success, I am sincerely, Price 50 cents and \$1.00, by leading druggists or mail. Prepared by the National Toilet Co., Paris, Tenn.

SALISBURY COURT. Convened This Morning—Public Schools—Coming to the Circus. Special to The News. Salisbury, Aug. 27.—The August term of Rowan superior court convened this morning with Judge Ferguson on the bench and Solicitor Hammer representing the State. It is not known what day the case of the three remaining negroes charged with the murder of the Lysterly family will be called. Whether or not the cases against the alleged lynchers will be disposed of at this term is also conjecture. Solicitor Hammer arrived in the city Saturday. The 1906-07 session of the city public schools will open next week and it is believed the enrollment will be the largest in the history of the schools. It is agreeable news to quite a number of Salisburyans to know that Barnum & Bailey's circus is going to exhibit in Charlotte and we will be over in full force to see the "animals."
