Mr. Chas. L. Sauer, Grand Scribe, Grand Encampment I. O. O. F. of Texas, and Assistant City Auditor, writes from the City Hall, San Antonio, Tex.:

"Nearly two years ago I accepted a position as secretary and treasurer with one of the leading dry goods establishments of Galveston, Tex."

"The sudden change from a high and dry altitude to sea level proved too much for me and I became afflicted with catarrh and cold in the head, and general debility to such an extent as to almost incapacitate me for attending to my duties."

"I was induced to try Peru, and after taking several bottles in mail doses I am pleased to say that I was entirely restored to my normal condition and have ever since recommended the use of Peru to my friends."

STORE ENTERED BY YOUNG BOYS. Picked Open Window of Mr. Emery's Store and Got Quantity of Stuff. Ed. Williams Turns State's Evidence and is Bound Over as Witness.

Although the robbery took place several weeks ago, the police have been quietly working on the case and yesterday by the confession of one of the boys involved in the crime, the chain of evidence was completed.

The crime committed was store-breaking on the night of August 24th, at the store of Mr. J. H. Emery, near the Southern passenger station.

The defendants named on the warrant were Steve Donaldson, Joe and Ed Williams. The latter turned State's evidence in a confession to Officer Christenberry who is largely responsible for the working up of the case, and in his story told to the court this morning.

Ed Williams, who is about 15 years old, said that on the night the store was entered Cleve Donaldson said that he knew where there were things coming easy, and then unfolded his plan to get into the store.

The first clew that Officer Christenberry got hold of was that there were several watches stolen and the officer soon got track of one of these and then began to weave the web about the jolly parties.

PATIENTS CONGENIALE JOLLY FELLOWS

Officers Agreeable Courteous Gentlemen and the Cure for Drunkenness an Established Success at the Keeley Institute of Greensboro.

The Keeley Institute, Greensboro, N. C. I took treatment for the liquor habit at the Keeley Institute at Greensboro, N. C., in 1892. Those who want to quit drinking should not hesitate to take my treatment. You say, "Well, I drink too much some times, but I will quit of my own accord." You may do so for a while, but the lion only sleepeth, and when you do start again it is worse than ever, the sprees more frequent, winding up with a big one and then Oh! the R. E. Morse in the grim-dawn of the morning after. You say, "Why, I can't possibly spare the time; my business would go to pieces."

To such I say your profession or business will go to pieces if you don't go. Take salaried men; I know of cases where their employers say to them, "Why, yes; go, and if you haven't the money I will advance it, and your job is here when you return. When you come back home you will be a joy to your wife, mother, father, sister, brother, and friends."

I have a daughter, just graduated from a fine college, and another who will graduate next year, and a son at a fine college. I have no idea I could have done this for them if I had kept on drinking like I did. What is four weeks? After you have been there one week you don't mind staying at all. The patients are all gentlemen and congenial, jolly fellows. You are not made to suffer by cutting off your liquor. You can have all you need. I remember on one occasion, one of the new arrivals asked for a drink and it was given him. He remarked, "Why, it is worth one hundred dollars to come here and drink this good liquor. In less than ten days you couldn't have paid that man one hundred dollars to take a drink. The officers are courteous and obliging, the doctors kind and considerate."

CABLE TO KEY WEST.

Postal Company Completing Arrangements for Landing of Two Cables. Mr. Clarence H. MacKay, president of the Commercial Cable and Postal Telegraph Company, accompanied by Messrs. W. W. Cook, general counsel; S. S. Dickinson, vice-president, and G. W. Ribble, superintendent, today visited the State, War and Navy Departments and the Department of Justice, completing the preliminary arrangements for the landing of the Commercial Cable Company's two new cables between the United States, Key West and Cuba.

The monopolistic franchise now in operation will expire on December 6th, next, and the Commercial Cable Company desires to have everything in readiness to afford a competitive service to Cuba immediately after the expiration of the franchise.

It will be recalled that the Commercial Cable Company endeavored to make this connection while Cuba was under United States control, but was prevented by order of the Secretary of War Alger. During the period of agitation of this matter before Congress, the monopoly reduced the rates by nearly seventy-five per cent. In an interview today President MacKay said:

"We see no reason why our plans should not proceed rapidly. We know that there is a very large cable business in Cuba and we propose to have our share of it. Last July Vice-President Dickinson went to Havana to prepare for the laying of these cables and he received assurances from all sides that the new company would be heartily welcomed and liberally patronized. The wealthy trade and commerce of Cuba have been growing very rapidly and the importance of the island to the whole world will insure stable government."

"Cuba is one of the most fertile and valuable agricultural countries in the world. As has been well said, 'it is the smile of the sea.'"

Car Now Go Home. Supt. Alexander Graham of the city schools can now return to his own home without fear, after a week or ten days spent in wandering disconsolate, debarred from his own vine and fig tree by the ruthless arm of law, which says that no one shall be permitted to attend a public school while there is a case of diphtheria in his or her home.

Supt. Graham's little daughter has recovered and been discharged by the physician in charge of the case and Mr. Graham no longer has to converse with his family over a telephone.

The property is situated on the Providence road and is considered one of the most valuable pieces of the eastern section of the city. Three of the lots were bought by the W. C. White Buggy and Fertilizer Company for \$264, \$304 and \$418 respectively.

Another was bought by Mr. George Kreuger for \$350 and the narrow strip was purchased by Mr. Geo. H. Bellinger for \$27.
