The Supreme Court of North Carolina confirms the decision of the lower court in the case of Dr. Matthews of Greensboro, who was sentenced by the lower court to life imprisonment for wife murder. The appeal was made on the grounds that the law in this state does not admit of the conviction and sentence for second-degree murder in the case of killing by poisoning; that there is only first degree and a sentence to be handed provided.

However, the Supreme Court, Chief Justice Clark writing the opinion, holds that sections 3271 and 3631 of the revisional are properly construed to empower a jury to determine in its verdict whether a prisoner is guilty of first-degree or second-degree murder, no matter whether the killing was by poisoning or other means.

In concluding the opinion, the court says: "Whatever the reasoning of the jury in arriving at its verdict the prisoner has no cause to complain that he was not convicted of the higher offense of first-degree murder with the accompanying death sentence."

TO SAVE ANIMALS FROM CRUELTY

Mr. John A. McRae to be at the Head of a Society to Prevent Cruelty to Animals. Will be Organized Within the Next Few Days.

An announcement made to-day to the effect that Charlotte is to have a society to prevent cruelty to animals is a matter of much local interest. For some time such an organization has been regarded as one of the needs of the city, but not until a few days ago were the necessary steps taken looking to the formation of such an association.

Mayor S. S. McNinch addresses the following letter yesterday to Mr. Jno. A. McRae, a prominent member of the Charlotte bar which is self-explaining: "I have felt for some time the need of a Society for the Prevention of Cruelty to Animals, and respectfully request you to undertake the formation of such a Society."

"Recognizing your splendid talents as an attorney at law, as well as your high-class citizenship, I urge on you the acceptance of this commission, leaving the ways and means as well as the general scope of such an organization to yourself and those citizens of Greater Charlotte who may associate themselves with you in this most desirable project."

"I am sure that you will find a number of ladies and gentlemen who will be glad to join you in this enterprise."

Mr. McRae this morning mailed to Mayor McNinch the following note of acceptance: "I have your esteemed favor of the 30th instant, to hand, relative to the formation of a society for the prevention of cruelty to animals and in reply thereto permit me to say that I shall be glad to undertake the organization of such a society."

Mr. McRae was seen this morning by a representative of The News and stated that he had been deliberating for some time over the matter and that he had been led to the conclusion that there was a great need for such a society in this city and that he believed the field presented some opportunities for good work.

He expects to look into the matter of a permanent and complete organization at once and will associate with him all those who feel, as he does, the opportunity for the society. The duties of the association and ways and means by which its aims shall be carried out will be formulated within a few days, when officers will also be elected and general plans and purposes outlined.

Mr. J. F. Newell, who is the Republican nominee for the lower branch of the Legislature, was at the meeting and addressed those present.

There has been considerable talk aroused today over the meeting last night, and the claim that the Democratic workingmen of the city will be for Newell is regarded as a big campaign bluff, and is resented by many Democratic workingmen.

TREATY NOT VIOLATED.

International Law Expert Says Japanese Have Worst of 'Frisco Argument.

Boston, Mass., Oct. 31.—Prof. Theodore P. Hon, of Boston University, the well-known authority on international law and professor in the branch of the university, says that Japan has the worst of the argument with the United States over the segregation of the Japanese children in San Francisco schools. He states this as a matter of law and treaty rights, without going into the question of courtesy or the comity of nations at all.

"As to treaty rights being violated," says Prof. Hon, "the treaty of 1904 guarantees equal rights of residence and equal protection under the law to citizens of the contracting countries." Under this Japanese may enter, travel and reside in this country precisely as Americans do, but this right of residence does not carry with it any right to enter in the legal sense any public institution.

By Associated Press. Atlantic City, Oct. 31.—Several light charges of dynamite were exploded under the two submerged cars in the thoroughfare in the hope of breaking the coupling, but the effort was vain, the divers being unable to get the charges in the proper place.

The railroad officials have given up the hope of separating the cars. Wrecking crews are trying to drag the cars ashore.

It is believed there are bodies wedged in the cars. The death toll will probably not exceed 60.

HINDER IRISH LAND ACT.

John E. Redmond Declares Landlords Refuse to Sell Untenanted Lands.

London, Oct. 31.—John E. Redmond, the Irish leader, moved the adjournment of the House of Commons today in order to call attention to the lack of progress in the matter of reinstating evicted tenants in Ireland, owing to the speaker alleged, to the landlords' hindering the operations of the land act by refusing to sell untenanted lands. The land commissioners were consequently unable to provide farms for evicted tenants. Mr. Redmond said that it was obvious that the government must resort to some system of compulsion.

Replying to Mr. Redmond, Mr. Bryce said the government had done its best to cope with the grave obstacles before it, and had won a certain measure of success. "If the remedy is compulsion," the chief secretary said, "the government might have to come to that."

Walter Hume Long, Conservative, then declared that Mr. Bryce's statement involved a complete triumph for the Nationalists.

By Associated Press. Americus, Ga., Oct. 31.—At the annual meeting of the Georgia division of the United Daughters of the Confederacy the report of Mrs. A. B. Hull, of Savannah, president, who last year inaugurated a plan to erect a monument to Maj. Henry Wirz, the Andersonville prison keeper, was read in which she speaks of the opposition to the plan in some sections, as follows:

"There was never any object undertaken by our society that has met with such widespread interest, such loyal support, and such violent antagonism. The latter has taken the wildest form, indulged in the most insane, not sparing in any way the women of the Georgia division or the South in general and we have answered never a word but have simply gone and proved our case and mean to establish the truth for ever, when we unveil the monument. A campaign of education it has ever been, for I do not believe any of us know how ignorant we were of the history of that period until we went into this matter as we have been obliged to do to give an answer for the faith that was in us."

Mrs. Hull also recommended that a picture of Winnie Davis be placed in the dormitory of the Rabun, Ga., Industrial School.
