Ballau, of Ashe and engrossing clerk, Chas. Strayhorn, of Orange. The Republican caucus nominated M. L. Harshaw of Caldwell for speaker of the house and decided to caucus tonight for the nomination of a United States Senator, all the nominations being purely complimentary.

The House met and organized today at noon Hon. R. A. Doughton, of Allegheny county, serving as temporary chairman. Hon. E. J. Justice was placed in nomination for the speakership by Hon. W. C. Dowd, of Mecklenburg, and Hon. J. S. Manning of Durham, seconded the nomination. The Republicans placed in nomination for the speakership Hon. M. N. Harshaw, A. P. Grant, of Davie, making the nominating speech. At this hour (2 o'clock) the balloting for speaker is in progress. All the caucus nominees of the Democratic party, for the speakership and minor offices, will, of course, be elected.

Mr. Dowd said in nominating Mr. Justice for the speakership, that he occupied a peculiar position—in being called upon to propose the name of the man who was not his choice. He said that in ancient times conquerors dragged the conquered behind their chariot wheels, there was little pleasure in this for the victor. But, continuing, he said, "my love for the Commonwealth, its institutions and for my party is such that I almost find pleasure in my present task." Mr. Dowd then paid a beautiful tribute to the character and personalities of Mr. Justice, his college classmate.

The House was opened with prayer by Dr. A. H. Moment, pastor of the Presbyterian Church here.

Mr. C. A. Webb was elected president pro tem of the Senate, as were all of the other caucus nominees for minor offices in that branch of the General Assembly. The Senate received a message from the governor asking for a joint session of the Senate and House tomorrow, when he will personally appear before the two bodies and read his message.

No Trouble Is Feared
Persian Officials do Not Believe Reports that Trouble will Follow Death of the Shah. Reasons for This Position.
By Associated Press.
London, Jan. 9.—One of the leading Persian officials said to a representative of the Associated Press today: "We do not credit the reports that trouble is likely to follow the death of the Shah. Certainly there will be no internal trouble as there are no pretensions to challenge the crown prince's title to the throne. Moreover, the masses of the people are devoted to the present dynasty."

The officials here say that in view of the accord between Great Britain and Russia no fear is entertained that any other power will step in to disarrange existing political conditions.

If the precedent is followed the body of the Shah will lie in state eight or ten days in the Royal Palace and during all that time crowds of priests will surround the catafalque, chanting prayers from the Koran and the body will be buried in Abdul Azin Mosque, outside Teheran, where for centuries Shahs have been buried.

Ginner's Report Quite Bullish

Farmers Rejoice That it Shows Total Bales Ginned to Date 11,750,000, Indicating that Gov. Report is Too High.

The first real published message that has escaped in many days from the den of cotton kings to the unperturbed farmer came across the wires this afternoon in the shape of a ginner's report showing that up to the present 11,750,944 bales of cotton have been ginned. The report proves one thing unmistakably, the farmers say—that the government estimate of 12,500,000 bales has been shattered in its foundation. In round numbers there is only 600,000 bales difference between this report and that last issued two weeks ago, which gave the figures at 11,099,000. The cotton men think it will do well, if the next report shows a gain that will take the crop far over the 12,000,000 mark.

On the corresponding date last year the report showed a total amount ginned of 9,725,000. There was afterward a gain of just one million bales. Local dealers declare that there will not be a total gain of this much in the ginner's report yet to come, and therefore the total crop will fall but little over twelve millions.

Under the influence of the report the future market advanced 20 points. Locally the staple was bringing 25 points more than yesterday.

"The spot situation is good," declared a leading cotton merchant to a News reporter this afternoon. "Contrary to expectations," commented another, who was standing near. "We were looking for the very opposite; was the opinion of a third buyer. All were surprised at the report, several figuring on a showing of more than 12,000,000.

"The staple will bring fair prices in the future, undoubtedly, because the present report is more decisive than any yet issued," said several cotton men. "A still greater advance that would make spot cotton go to 11 or 12 cents would not surprise many people."

Charlotte Not Likely Now to Get Into South Atlantic League Ball

COMMISSIONERS' THIRD DAY. They Refuse to Pay Half for Removal of Mr. Neal's Barn.

An unusual amount of business necessitated a third day's session of the board of county commissioners who were unable to complete yesterday all the work demanding attention at the beginning of the year. The main business of today has been a transaction of routine work, paying and approving bills, and considering petitions which have been presented this week.

The board ordered that the request from Mr. W. A. Neal that the county pay half of the expense of removing his barn and crib on the Mulberry road be refused. Mr. Neal claims that the new road running through his plantation rendered necessary the removal of some of his buildings.

Mrs. W. A. Berryhill, of Berryhill township, was given \$15 for the tearing down of a fence on her premises by the road overseers.

It is ordered that the salaries of the convict guards be increased from \$1.25 to \$1.50 per day. There are three guards and one night guard at both camps.

The board this afternoon ordered that price of rock for macadamizing the county roads be increased from 40 to 50 cents per yard.

Messrs. J. H. McClintock, W. S. Pharr and J. M. Davis were unanimously re-elected as the finance committee of the county.

The salary of the chairman of the board was fixed at \$75 per month. This administration is the first whose chairman receives a stipulated salary.

The report of Treasurer H. J. Walker was this afternoon accepted by the board and approved.

A request to extend the Lawyer's road to the county line was granted.

The several petitions asking for macadam roads and other requests were continued to the next meeting of the board on account of lack of time.

The board adjourned this afternoon after one of the busiest sessions of the week.

Though Subscriptions of \$3,500 had been Raised to Get Into South Atlantic League, Greenville Quers Game.

Because of Opposition in League Towns, the South Carolina City Felt it Would be Useless to Seek Admission.

It is practically settled that Charlotte will not make application for membership into the South Atlantic League. A letter lately received from Greenville states that the fans of that city have given up the work of raising the necessary money on account of the great opposition that was coming from the cities now in the league. This opposition was so strong and persistent that the Greenville enthusiasts decided it was not worth while trying to get in the circuit, feeling assured that the officials would down any proposition that might be made in the face of such kicking.

It develops today that the local fans have about succeeded in raising the money needed to make formal application. The committee appointed some days ago to canvass the city secured subscriptions amounting to \$2,500, and several other prominent citizens intended to complete the subscription list today.

It is absolutely useless, however, to go further in the effort to put this city in the league, if Greenville refuses to do likewise. It is a matter of deep regret to those interested in this city that the situation develops in this way. Since the matter was first taken up, it has received the sanction and support of leading business men who believe that Charlotte's admission into the fast aggregation would be a paying advertisement and needed prestige to the city. Four or five gentlemen, having such faith in the proposition, expressed a willingness to bear the burden of paying a team through one season, being assured that the experience of a single year would teach the majority of the city's business men the advantage and profit of supporting the organization.

Nothing remains now but to take up the organization of a minor league as the Greenville people suggested in the beginning. This is not likely to receive much attention, however, from Charlotte sports men, in view of the fact that they have had experience with such aggregations in the past.
