Lilley Says Electric Co. Put Up Funds For the Election Of Members

Reiterates That Company Maintained Lobby in Wash., and Contributed Funds Campaign.

Also Charges That Certain Newspapers Were Subsidized—Special Committee Investigating The Charges.

Washington, March 12.—The special committee, appointed by the speaker, to investigate charges made by Representative Lilley, that undue efforts have been made by the Electric Boat Company to influence legislation regarding its sitings.

At the opening of the sessions Mr. Lilley addressed the committee, saying he desired to correct the impression that had been created by the report of the committee on rules to the effect that he had charged that members of congress had been bribed.

Mr. Lilley then read his prepared statement. In his statement Mr. Lilley insisted that certain officers of the Electric Boat Company be called and asked if the witnesses he had named to the committee are nearly all clerks, attorneys, agents or representatives of the company.

He asked if the committee still adhered to its determination not to permit him to call witnesses to present their testimony under the examination of his attorneys. His request was denied, when Chairman Boutell said members of the committee were not there as prosecutors nor would Mr. Lilley be permitted to assume the part of prosecutor. Witnesses would be called as the necessity for their presence developed.

Mr. Lilley then was sworn under oath and he proposed that for several years prior to the investigation the Holland company and its successor, the Electric Boat company, organized a lobby for the purpose of influencing legislative appropriations in favor of submarine boats, built by that company.

He repeated the statements previously made and declared that a "thorough investigation by an impartial committee will show that large sums of money have been by the Electric Boat company. Its officers and agents, contributed to the campaign funds of members of congress who favored the Electric Boat company monopoly of submarine construction; also that large sums of money have been used to defeat members of the naval committee who did not favor the Electric Boat company.

He also charged that it can be shown upon investigation that certain representatives of leading newspapers have been subsidized and paid by the Electric Boat company for favorable newspaper articles and reports in behalf of said companies.

He reaffirmed that he had not intended to cast any reflection upon the official conduct of the navy committee of the house.

When Mr. Lilley had completed his written statement, he was questioned by Mr. Olmstead. He gave the names of Franklin H. Taylor and John T. Robinson of Waterbury, Conn., and a Mr. Ferris, of Bridgeport, as those of persons who had asked him to vote for the appropriation for submarine boat construction. He also said that Representative Holman had been approached by a member of an electric company with a proposition to get him on the naval affairs committee if he would have submarine boat legislation. He spoke of the amendment to previous legislation offered by Mr. Loudenslager, which he said he thought had been prepared by Mr. Kellogg, attorney for the electric company.

DRESSED IN WIFE'S CLOTHES; FOOLED "WHITE CAP" BAND

At First Gill put out the fire and hid up in some of his wife's clothes and claiming to be a woman visiting in the house, Richard Gill, a well-to-do negro farmer, was allowed to pass through a line of infuriated "white cap" illicit distillers who surrounded his house last night to take revenge on him for having, as they believed, revealed to revenue officers the location of a blockade distillery in the neighborhood.

Gill had received a note with skull and bones, coffin and other gruesome symbols warning him that he must leave the neighborhood or face death. He had ignored the note and the "white cappers" came a great company of them, and began firing on the house.

The Queen City The Successful Bidder After a Spirited Contest With Greensboro—The Vote Was 49 to 29.

Charlotte was given the next state democratic convention. The democratic executive committee of North Carolina made the decision in the senate chamber of the state capital last night. The date of the convention was fixed for Wednesday, June 24th. The 29 votes were cast for Charlotte's only rival, the city of Greensboro.

Committee Decides That It is Beyond its Prerogative to Endorse Bryan or Aycock or Any other Man.

The committee decided that it was not its function to adopt resolutions endorsing Mr. Bryan for president and Mr. Aycock for vice-president, this being the province of the state convention whose creature the committee was. This final action was taken, after a long and animated debate, by adopting a substitute to a resolution offered by Mr. Seales, of Greensboro to endorse Mr. Bryan and ex-Governor Aycock.

Due to Hard Work.

That Charlotte won the convention is due largely to the excellent preparatory work of the committee of local people appointed some time ago, as well as to the vigorous work of the city's representatives who went to Raleigh to convince the committee that this was the best place to hold the convention.

Some of Charlotte's Friends.

Notable in the list of committeemen who threw the weight of their influence to Charlotte were Senator F. M. Simmons, ex-Gov. C. B. Aycock, Colonel Pearsall, Col. Julian S. Carr, Mr. Fleet Kerr, of Asheville, Judge Winborne, and a number of others. Charlotte found many friends in the eastern part of the state.

Among the questions asked are as to whether the national banks of New York are in the habit, under the guise of commercial loans, of furnishing permanent capital for speculative or other enterprises; whether the treasury department had knowledge of the loans made by the National Bank of North American of New York which are subject of a suit by the receiver against C. W. Morse, and of other similar transactions in other national banks; whether national banks are now engaged by themselves or through other organizations in attempting to control or dictate legislation of congress upon currency questions.

Report of Terrible Slaughter of Human Life Reaches San Francisco by Steamer From South American City.

Victims Number 2,500, Most of Whom Were Killed—Strikers Literally Mowed Down when Soldiers Opened Fire.

San Francisco, Cal., March 12.—Machine guns, operated by the government forces of Chile, in a great conflict with strikers at the nitrate beds in the city of Iquique, laid 2,500 men low, most of these being killed, according to advices received by a steamer arriving from Chile.

Business at Iquique was paralyzed when the great army of workers went on strike.

One fracas after another occurred, until the soldiers and strikers met in the streets of Iquique and on the outskirts and openly defied each other.

The soldiers opened fire, while they massed and literally mowed down the men.

They had little opportunity to fight back, the assault upon them was so sudden.

This took place on January 19th. A week later the strikers went back to work without an increase in wages.

Not Certain of Date.

The story coming from San Francisco of the great conflict between the government forces and strikers at Iquique, evidently is an exaggeration and incorrect as to the date. A dispatch from Valparaiso on December 28, said according to the official statement the recent encounter at Iquique resulted in the killing of 210 men and the wounding of about 50. This is undoubtedly the same occurrence.
