Babbington-Bunday.

In a tastily decorated parlor at the home of her aunt, Mrs. J. C. Leake, on Alexander street, Miss Eula Mae Babbington, of Shelby, N. C., was quietly married this morning to Mr. Julian Carr Bunday, of Rock Hill, S. C.

The ceremony took place at 9:30, and was performed by Rev. Harold Turner, pastor of Brevard Street Methodist church.

The young couple had intended getting married a little later in the spring, there being no objection on the part of the parents, but they decided to have the marriage performed at once, while the young lady was visiting her aunt here.

The young couple left on the 10:45 train for Rock Hill, where Mr. Bunday has a lucrative position with the Carolina Hotel at that place.

Dr. Dobyns is a brilliant man, who has met with almost phenomenal success wherever he has been in the past in whatever he has undertaken. He has a church in St. Joe which is said to give from \$20,000 to \$30,000 to foreign missions alone every year, to which height of liberality it grew under Dr. Dobyns' leadership. Dr. Dobyns has been there for ten years.

In the morning and at night will Dr. Dobyns speak and also at the Baraca class meeting at 3:30 o'clock.

The sale will begin at 1:30 o'clock Monday afternoon and will be conducted by the twin auctioneers of the company.

The property to be sold, 45 desirable lots in this growing suburb, was assigned to the American Realty & Auction Company by the Suburban Realty Company, of this city. The lots will be knocked down to the highest bidder regardless of price, and the sale will not be interrupted in any way.

A SOUTH AMERICAN FRUIT

Providing a Specific For Dyspepsia and Ailments of the Stomach.

In another column of The News appears a coupon entitling the holder to a bottle of Prof. Munyon's Paw Paw at half-price, at any drug store in Charlotte.

This remedy, for dyspepsia and kindred stomach troubles, is made from the juice of the Carica Papaya, a South American fruit, which for many years has been freely used by the natives of the countries in which it grows, enjoying such popularity that in the West Indies the tree is generally known as "arbol devida," or tree of life.

The tree attains a height of ten to thirty feet and the fruit which grows in a large cluster at the top closely resembles a muskmelon in size, shape color and flavor. In tropical countries the leaves of the tree are cooked with beef and other tough meats rendering them tender and digestible, and after a particularly hearty meal slices of the ripe fruit are served as dessert to insure perfect and easy digestion.

Professor Munyon was the first to make a scientifically prepared extract from the juices of this fruit and introduce it to the people of the United States, where it is rapidly supplanting animal pepsin in the treatment of stomach troubles.

The coupon which will appear in The News today only will be accepted by any Charlotte druggist at its face value, 70 cents, on the purchase of this remedy.

Plan to Build House For So. Manufacturers Club

The members of the Southern Manufacturers' Club will, on the 23rd inst., say whether or not they want a club house of their own. This question, which has been brought to the attention of the club members several times within late years, will be decided definitely at this meeting.

The club's board of governors, realizing that a new and commodious club building for the exclusive use of its members was necessary, reported favorably on the plans which have been worked up by a committee, known as the building committee, composed of Messrs. R. M. Miller, Jr., president; Major A. G. Brenizer and Mr. D. E. Allen. This committee has secured options on several desirable sites near the center of the city, either of which are suitable for club purposes. It is planned that a building be erected to cost \$50,000.

"This is a splendid opportunity for a club building," said a member of the building committee, "and if they don't take advantage of it they may never get another one as good."

The plans will be thoroughly discussed at the meeting on the 23rd. The question will then be left open for a week or longer for due consideration when a final vote will be taken.

The masses of the people seem to have a deep interest in this great cause, and are turning out to the speaking in large crowds.

The officers of the new league are Messrs. J. Ed Martin, president; C. S. Alexander, secretary. Executive committee: T. N. Helms, J. D. Starnes and W. M. Warren.

Negro Kills Another at Dance in Steel Creek

News reached the city this morning of a shooting affair which occurred at a negro dance in Steel Creek on Thursday night, in which Bob Springs, a negro of notorious reputation, shot and fatally wounded Jim McKnight another negro.

After the shooting Springs escaped, and McKnight lingered until last night, when he died.

Springs is one of the most dangerous characters in the county, and has to his credit three murders within the past few years, and has served several terms in the penitentiary.

Nothing of the particulars of how the row started could be learned today.

A message was received this morning of the death of the wounded negro and on account of the absence from the county of Coroner Gresham, the clerk of the superior court appointed Squire J. W. Cobb to go out and hold the inquest.

The annual meeting of the stockholders of the Mechanics Perpetual Building and Loan Association will be held Monday night.
