Many Cases of Rheumatism

Noted American Health Journal Tells of Valuable Prescription to Get Relief Which Anyone Can Prepare at Home.

Thousands of men and women who have felt the sting and torture of this dread disease, which is no respecter of age, persons, sex, color or rank, will be interested to know that while for many years rheumatism was considered an incurable disease, now it is one of the easiest afflictions of the human body to conquer. Medical science has proven it not a distinct disease in itself, but a symptom caused by inactive kidneys. Rheumatism is uric acid in the blood and other waste products of the system which should be filtered and strained out in the form of urine. The function of the kidneys is to sift these poisons and acids out and keep the blood clean and pure. The kidneys, however, are of sponge-like substance, the holes or pores of which will sometimes, either from overwork, cold or exposure become clogged and inactive and failing in their function of eliminating these poisons from the blood, they remain in the veins, decompose and settling about the joints and muscles, cause the untold suffering and pain of rheumatism and backache, often producing complications of bladder and urinary disease, weakness, etc.

ENOS A. MILL'S LIFE-WORK

Clipping Showing This Man's Love of the Forests.
 "I can't tell you how I came into this field," said Mr. Mills, pausing over the steps of the old capital to answer a query. "I suppose I drifted into it because I liked it. I have been prospector, cow-man and a bit of everything at times, but my work is this—I want to save the forests. Pretty much all of my life has been spent among them. I have tramped the Rocky Mountains from Arizona to Alaska. I have lived among trees and will beasts and they have been my friends. This is taken from an interview in the St. Paul Dispatch in regard to Mr. Enos A. Mills, who will appear in Charlotte April 2. "In August, 1904, Samuel Bowles, Jr., said in the Springfield, (Mass.) Republican, that "one of the most interesting men in all Colorado is Enos A. Mills, scientist, journalist, mountaineer and versatile guide."

SCHOOL ATTENDANCE GOOD.

Professor Cochran Returns From Tour of Inspection.
 Prof. R. J. Cochran has returned from a tour of inspection of the schools of the county. On Tuesday, he, in company with Mr. John McDowell, a member of the school board, met with the patrons of district No. 1 in Steele Creek, and a site and plans for a new building were selected. This building will have two rooms, one above the other, use lower floor to be used as a school room, and the other for an auditorium. Professor Cochran also visited the schools at Davidson, Cornelius, and other places, and reports a good attendance at all of them.

Othello, the Moor of Venice.

The Monarch has a good picture today. Shakespeare's tragedy, "Othello," is the subject. Two other pictures, "Moonlight on the Ocean," and "Moonlight on the Lake," are also very beautiful.

The Woman's Missionary Union of North Carolina will meet in Gastonia March 24, 25 and 26.

IF YOU SUFFER FROM Catarrh

My advice is, take Mrs. Joe Person's Remedy and Wash. I was a severe sufferer from catarrh of the head and ear. The discharge from the head and ear and nose was copious and very unpleasant. I suffered in that way for five years. I tried various treatments, which did me no good. Finally my physician advised me to try Mrs. Joe Person's Remedy and Wash. I used seven bottles of the Remedy and used the Wash with a syringe for my nose and throat. It cured me. Scabs would form in my nose, which were almost unendurable, until by constant and hard blowing I would relieve myself. It was a fearful affliction. The cure was perfect, and I have never had any symptom of return, and my health is fine. (Miss) MOLLIE MILLER, Cornelius, N. C. March 16, 1905.

To-day's Markets

J. S. Bache and Co.'s Letter.
 New York, March 14.—The cotton market sought a lower level this morning. The better tone of the Liverpool market did not strengthen prices much on this side. May, after opening at 10.40 and selling at 10.42, steadily declined. The bearish crowd, who have sold the market down recently, were depressing prices again this morning. May declined to 10.31 and July to 10.18. The outlook for new crop preparation is very good. Good weather for farm work, with the general improvement in business, gives hope that there will be general increase in cotton acreage. We favor the bear side of cotton and advise sales on the hard spots. J. S. Bache & Co.

Hayward & Clark, Cotton Letter.

New Orleans, La., March 14.—Although Liverpool was in no way provoking and futures rather better than due, another break occurred in May in New York soon after the opening. This shows the manipulative interests are retrenching. The decline was followed here but there could be noticed an absence of inclination to sell more. On the contrary, there was a disposition to cover on all dips, not only on the part of the scalpers but also by old time shorts. The comings report is undoubtedly the inducement for such action. It will bring supply statistics promptly into the lime light and may stir sentiment once more until the counter facts of declining trade and consumption again claim their right in the adjustment of values to altered circumstances. This refers of course only to old crop positions. New crops this year come less under the ban of old crops than in many a previous year and appear too high in their respective spheres of consideration. The weather in the belt continued good. No rain is reported for the past 36 hours. Indications favor partly cloudy to fair weather over Sunday, showers and colder in the western and northern belt Monday. The spot market is quiet. Brokers report it easier to trade as factors are turning out more good colored cotton. Off cotton as usual neglected and buyers say it is just a question of making a reasonable bid to effect a sale.

InFit of Jealousy He Shot His Rival

Columbia, S. C., March 14.—At Marion yesterday Luther Hewitt, 21 years old, shot Arch Stephens twice and then shot himself in the temple as the result of a misunderstanding concerning the latter's attentions to a young lady with whom Hewitt is said to have been in love. Stephens may recover. Stephens escorted the young lady home Thursday evening and Hewitt is said to have brooded over the matter until he became enraged and the shooting was the result. After shooting Stephens in the neck and in the back Hewitt shot himself in the temple. Walking about 25 yards he shot himself a second time and dropped dead. Both men were employed at the Marion Manufacturing Company's mill.

CUT HIS KNEE WITH AXE

Mr. Garrison of Steel Creek Suffered an Accident.
 Mr. E. K. Garrison, of Steele Creek, while cutting wood yesterday, let his axe strike his knee and the femoral artery was severed, making a very ugly wound. Physicians were called from the city, and several stitches had to be taken to close the wound.

WATER POWER FOR SALE.

We offer for sale in Rutherford County, N. C., on Cove Creek, left hand bank Broad River, water power sufficient to pull ten thousand spindle Mill, with proper dam, including 155 acres of very fine timber land, about seven miles West of Gilkey, N. C., on Southern Railway between Marion, N. C., and Blacksburg, S. C. The stream has an average width of 65 feet and 15 inches deep—makes one natural leap of about 24 feet at the falls. The hills come down close together on either side, with an abundance of stone and timber on the ground, making cost of development low, with plenty of satisfied help. Power was measured by one of the best Hydraulic Engineers in the South, report on file in our office. If you contemplate building a Mill it will pay you to investigate this proposition, where you can save eight to ten thousand dollars call bill per year, on ten thousand and spindle Mill. The property has an elevation of eleven hundred feet, fine healthy location with pure mountain air. We will sell for \$10,000.00, or exchange for good Cotton Mill stock or gilt-edge securities. SOUTHERN SECURITIES & TRUST COMPANY, Charlotte, N. C.
