The selection of Headwear for the Little Folks to the critical mother is always a difficult task.

This original unique feature begun by us last season received the hearty approval of Charlotte mothers.

The task will become a pleasure when you view the "dainty" array of Child Headwear that we have collected for these opening days.

Everything from the always useful Sailor in dozens of different new shapes, to the "dressy" styles that every mother wants to make her "darling" look its best.

We want you to come. Bring the Little Folks.
