## BIRD'S EYE VIEW OF CONVENTION

The Entrance of the Y. M. C. A. Into the Industrial and Mill Centers of the South One of the Most Absorb-ing Topics at Columbia.

The last of the Charlotte delega-tion to the Interstate Convention re-turned from Columbia last night.

There were 139 delegates in at-tendance representing 29 associations.

The addresses were of a high order giving larger conceptions of the mag-nitude and importance of the asso-ciation movement and calling for more unselfish devotion to the great object of the same.

Three addresses were given by President Scherer, of Newberry College, on "Being a Christian," and the one by Bishop Guerry, on "The Expulsive Power of a New Affec-tion," were especially good.

The address by President Glasgow, of the Charlotte Association, at the luncheon Friday was greatly enjoyed and admired.

The Woman's Auxiliary provided a beautiful report of most palatable character on this occasion.

The story of the development of the association movement in the In-dustrial field was perhaps of more interest to the delegates than any other.

The invitation to hold the next convention in Charlotte was cordially received and the prospect of a visit to this city and of meeting in the new building of the hearty and mag-nitude of which so much is being said, aroused much enthusiasm.

At the Interstate Committee meet-ing held on Saturday, all of last year's officers were re-elected: Mr. Heriot Clarkson, of this city; Mr. R. C. Norfleet, of Winston-Salem, and President F. P. Venable, of the Uni-versity of North Carolina, are new members of the committee.

A new plan was introduced at the closing session Sunday night by the election of the officers for the next convention. This will give those who will be responsible for conducting the program of the next convention an opportunity to become familiar with the same beforehand and add largely to their effectiveness.

The conference of cotton manu-facturers at the Colonial Hotel the day before the convention was quite suc-cessful. Mr. Lewis W. Parker and Mr. Thomas F. Parker, of Greenville, S. C.; Mr. D. A. Tompkins, of Char-lotte, and Mr. August Kohn, of Co-lumbia, were among the speakers.

That the Young Men's Christian As-sociation at Monaghan Mills is a suc-cess was acknowledged by all and Mr. Lewis Parker expressed the con-viction that the time was coming when all mills of consequence would have such associations and that they would well repay the mills as a business investment as well as by contributing to the welfare of the mill operatives.

## NEPHRITIS

What do physicians call kidney trouble? Nephritis.

What does Nephritis mean? Inflammation of the kidneys.

Is there any specific for inflamma-tion of the kidneys?

Up to the discovery of Fulton's Renal Compound there was nothing known to physicians or pharmacists that would reduce Renal (kidney) in-flammation.

What then have physicians given in chronic disease?

Having nothing for Renal inflamma-tion they gave up trying to reach the kidneys and considered it incurable as the books say, and treated the heart and other symptoms.

Then other than Fulton's Renal Compound there is no real kidney spe-cific?

There is nothing else known that will reduce kidney inflammation in any of its stages, either first or last.

But many kidney troubled people re-cover?

Because it commonly cures well at first. But if it does not it passes into the second stage that was incurable up to the discovery of this compound.

Up to the discovery of the kidney and that is the reason 170 per day deaths have now reached 170 per day.

Kidney disease is both stages is now curable by this compound in about 87 per cent of all cases.

## Scrofula

Mrs. Person:

Dear Friend—I saw your ad-vertisement in the Christian Ad-vocate. I decided to reply. I have a sister who had scrof-ula in the worst form. She tried every doctor in ten miles of here; none did her any good. She decided to try your medi-cine. The first bottle she took improved her very much. She took six bottles and it made a permanent cure of her. I had two colored girls living with me, both of whom had scrofula very bad. I recommended your medi-cine to them. By its use they are now both well. I can highly recommend your medicine as a sure cure for scrofula and a good blood purifier.

Very respectfully,

MRS. G. W. PARKER.

## PREACHERS MAKE APPEAL

Ministerial Association of Mecklenburg Working For Prohibition.

The Ministerial Association of Mecklenburg county met this morning and the following strong appeal was adopted and signed by the ministers present:

We, the undersigned ministers of Mecklenburg county do unite in the following appeal to all the good people of the county:

A Great Opportunity.

A great opportunity has come to us. After many years of untiring effort on the part of many earnest men and women we now have the privilege of voting out from the whole state of North Carolina the legalized saloon, dispensary and distillery. It is an opportunity and a cause sufficient to move to heroic action every man that seeks the good of his fellowmen.

Not a Party Question.

This is not a question of partisan politics but a great moral issue. It is the saloon with all its evil effects against the home. Prominent men of all parties endorse and support the proposed law, and are actively engaged in this battle against the saloon.

Settling the Question.

Let the good people of Mecklenburg county turn out en masse. A light vote means the recurrence of this conflict, but an overwhelming majority settles the question. We are confident of success, but will require a hard fight against a foe which in its death struggle is leaving nothing undone day or night for the accomplishment of its purpose.

No man true to his home and its best interests can afford to withhold his vote against the saloons on the 26th of May.

The Effect of the Law.

One effect of this as a state law will be to prevent whiskey towns in North Carolina from readily furnishing wherewithal for surrounding prohibition territory and thus bringing into disrepute all prohibition laws.

Let us maintain a fundamental principle of our government, viz., the right of the majority to rule.

Our Appeal.

We, as ministers of the gospel, do appeal to you to vote for the cause of good morals and civic righteousness. Organize for the battle. Distribute suitable literature, which you can get free from the Anti-Saloon League of Charlotte. Do personal work. Pray for the cause of righteousness, and vote as you pray.

Yours for a glorious victory,

H. K. Boyer, L. R. Pruett, R. G. Miller, G. R. White, W. O. Rudisill, S. F. Conrad, J. F. Totten, W. O. Sample, Harold Turner, Frank Siler, J. A. Baldwin, W. S. Hales, J. B. Taber, R. C. Holland, A. L. Colburn, J. H. Bennett, T. J. Allison, E. A. Osborne, Francis Os-borne, E. L. Bain, A. R. Shaw, C. A. Raynard, J. A. Smith, J. C. Gil-lespie.

This appeal will be sent to every evangelical minister in the county who was not present this morning. It will be sent in circular form to the voters.

A Nervy Lad.

A nervy lad is Master Ferris Burch, who had his tonsils taken out at the Presbyterian Hospital yesterday. He refused to go under an anæsthetic and was content simply to have the pain of the lancet only partially al-layed by cocaine. The boy jolted the physicians while they were oper-ating.

Fiddlers Convention at Matthews.

There will be an old time fiddlers convention at Matthews, N. C., Thurs-day night, April 2. All the fiddlers are requested to meet in the school building at 7 o'clock. A big time is ex-pected.

Germany's Cotton Industries Last Year.

Consul-General Richard Guenther, of Frankfurt, advises that the last year was a busy and profitable one for Ger-man manufacturers working up cotton, according to the following brief statis-tics:

Germany imported last year 536,823 metric tons of cotton, of which 79,678 tons were reshipped to other coun-tries. This exceeded the imports in 1906 by 59,378 tons.

The German cotton spinners were short of operatives and could not sup-ply the increased demand. The im-portation of cotton-made foreign yarns by Germany in 1907 amounted to 40,100 tons against only 22,284 tons in 1906, thus almost doubling.

Germany's cotton-weaving factories did not work as profitably as did the spinning. The general decline in business during the latter half of last year affected the year's trade adver-sely. Still the exportation of German woven cotton goods in 1907 aggregated 56,618 tons, an increase of about 763 tons over the preceding year.

APRIL.

Swelling bud and fond suggestion, Wafting of perfume, Tearful rapture, thrilling question Of restraint or bloom, Life all dreamlessly asleeping, As in death, but now, Upward to the sunshine creeping—April, that is thou!

Mystery's authentic dwelling, Faith's expanding wing, Maiden loveliness foretelling Fuller blossoming, Prophet of the new creation, Priesthood of the bough, Mouth of the imagination—April that is thou!

## To-day's Markets

J. S. Bache & Co's Cotton Letter.

New York, March 31.—The cotton market displayed some rallying tenden-cies today. Shorts covered freely and after opening quietly at about the same level as the close yesterday the active options advanced. July touching 97 1/2 and May 97 1/2 and October 95 1/2. There was reported good demand for spots with the country not selling and good cotton scarce. Predictions of increase are being made. The steadiness of spots checked selling for short account. We look for rallies from time to time in this market and believe cotton should be bought on all fair declines.

J. S. BACHE & CO.

Hayward & Clarke Cotton Letter.

New Orleans, La., March 31.—Trad-ing in contracts is at a standstill. Each faction appears waiting for something decisive to turn up on which the re-sume operations. The fact that the bears at present have practically no opposition and yet are not pushing their cause seems proof enough that there is something deterring moral conveyed by the present range of prices. The steadiness of May during the past few days in New York is also being closely scrutinized. There are persistent rumors that since the last liquidation of speculative holdings the leading spot houses have gained full control of the stock in that market. This control is not likely to be used on the bear side. Liverpool is steady but gives no well defined encourage-ment to bulls. The predictions of bad weather in the belt did not materialize. Generally cloudy weather prevailed during the past 36 hours. Some few very light showers occurred at scat-tered points in the north and west. Forecast are for generally fair weath-er. Futures here are steady around opening figures, trading and fluctua-tions very narrow. Spot brokers more inquiry this morning. Prices steadier.

HAYWARD & CLARK.

Morehead & Co's Cotton Letter.

New York, March 31.—There was a steadiness of undertone at the opening, but not much disposition to trade. Cables were a shade better than expected in today's futures.

Spot business was dull and local buls found little encouragement. About all results were discouraging to brokers.

Early trading here was dull and fea-tureless. After a while some few buy-ing orders caused a little change in prices, but it was not enough to attract much attention.

From the belt came report of favor-able weather.

Spot demand was reported some bet-ter, but business was still restricted and there was a disposition to await developments. The movement contin-ues about as it has been.

The market is likely to continue nar-row unless the weather becomes very unfavorable.

T. F. Faries, 5 South B. Street, Charlotte, N. C., says: "I feel very grateful for the benefit I derived from the use of Doan's Kidney Pills and en-dorse them as an efficient remedy for any trouble arising from inactive kid-neys. For a year or more my kidneys were in a disordered condition and by their failure to remove the uric pois-on from my system, caused me to feel miserable. I also suffered a great deal from pains through the small of my back and loins and at times was quite unfit for work. Hearing Doan's Kidney Pills highly recommended for such troubles, I obtained a supply at R. H. Jordan & Co's drug store and I had taken them only a short time when my trouble was entirely disposed of."
