Blood Poison from a Scratch

Sore Ate Into the Bone—Expected to Lose His Leg—Unable to Step—Permanently Cured.

Not a word of comment is necessary on Mr. McLean's concise clear statement. Just read it and if you need a good blood medicine you will know what to take.

MR. GEORGE McLEAN.

"C. I. Hood Co., Lowell, Mass.
"Gentlemen:—Some three years ago I accidentally scratched a small piece of skin off my leg below my knee. Blood poisoning set in, and a sore formed which ate so deeply that my wife could see the bone. I thought I should lose my leg, and for a long time was unable to step on my foot. I then bethought me of a previous time when troubled with eczema and Hood's Sarsaparilla did me good. So I decided to go back to my old friend once more. In a short time I found the Sarsaparilla was purifying my blood, for the wound commenced to heal, and to look altogether different from its previous inflamed and raw condition. In a short time it completely closed up, and today that leg is the better of the two. I am thankful that it saved me when I was in such a bad condition, and also for the good it does me every time I take it in the spring." GEORGE McLEAN, 3278 6th avenue, Troy, N. Y.
