

To-day's News Told in Brief

Oklahoma City, Okla., Feb. 9.—The annual meeting of the Oklahoma Retail Hardware and Retail Implement Dealers' Association began here today and will continue in session until Friday.

Some Rules of Proper Living

It is Now Learned That Modern Civilization Can be Greatly Improved by Again Adopting the Original Teachings of the Bible And Nature.

In the "back-to-nature" movement of modern man, there have been some discoveries made, not worthy of more than passing notice, or, to be more accurate, we have learned again some things of great value to the human race that have long been forgotten.

Chicago, Ill., Feb. 9.—The celebration of the Lincoln centenary in Chicago was continued today with special exercises under the auspices of various women's clubs and other organizations.

Richmond, Va., Feb. 9.—The Commonwealth's attorneys of Virginia met here today to adopt plans for the revision of the state's criminal code.

Richmond, Va., Feb. 9.—Stockholders of the Chesapeake & Ohio railroad company met today and took favorable action on the proposal of the directors for a \$30,000,000 issue of 4 per cent bonds.

Chicago, Ill., Feb. 9.—The convention of the Religious Education Association, for which preparations have been going forward for some months, begins its sessions in Orchestra Hall tonight with the promise of a highly successful gathering.

The Truth About Kidney Trouble

(SWELLING ANKLES.) Swelling ankles or hands, or puffy eyes, are usually the first notices of kidney trouble, which is almost always due to inflammation of the kidneys that has made considerable progress. It is usually in the chronic or supposed incurable stage when that noticed.

The inflammation has closed the passages in the kidneys, and the heart pumping through the obstruction has increased the blood pressure until the thin watery portions are forced through the veins and drop down and settle in the hands and feet, and in the joints at night.

As the books know nothing that will remove kidney inflammation and open the tubules, there has been no successful treatment for dropsy, phlegm, or giving nitro-glycerine, digitalis, etc., etc., to strengthen the heart.

It can be readily appreciated that the inflammation in the kidneys that disperses the tubules will open and the heart pressure will decline with gradual reduction.

This is exactly what happens, and the most serious forms, involving dropsy, are cured by the Renal Compound in about 87 per cent of all cases with few exceptions to whether it is in the first or second stage. In fact, this classification now practically disappears in the presence of a real specific for inflammation of the kidneys.

Wake Forest Campus Notes

Special to The News. Wake Forest, N. C., Feb. 9.—President Poteat delivered a very strong and instructive address before the Y. M. C. A. last night on "Principles which underlie the selection of a life work."

Mr. Abraham Flexner, of the staff of the Carnegie Foundation for the Advancement of Teaching, who is studying the serious case of kidney trouble in the United States, is in town. He visits the college primarily for studying the schools of law and medicine and is accompanied by Dr. Caldwell, secretary of the council of the American Medical Association.

C. T. Bell, chairman of the debate council, has received a message from Davidson College, stating that they have chosen the affirmative side of the query, "Resolved, That the United States should adopt the policy of subsidizing her merchant marine," submitted by Wake Forest for the debate at Greensboro Easter Monday night.

The next basketball game is scheduled with Davidson here Wednesday night. "Sir, could you give me a little assistance?" said the weary wayfarer. "I don't know where my next meal is coming from." "Neither do I," replied the prosperous-looking individual. "My cook left this morning, too."
