

HIGH SPEED CLAIMS TWO VICTIMS

Indianapolis, Ind., Aug. 20.—Two lives were lost and two records broken during the inauguration of the Indianapolis motor speedway yesterday.

William A. Bourque, driver of the Knox car in the 250 mile race, and Harry Holcomb, his mechanic, were killed in the frenzied carnival of speed.

Robert Burman, in a Buick car, won the 100 mile race, the feature of the day, and the contest which cost Bourque and Holcomb their lives.

The death of the two men caused the American Automobile Association to issue an ultimatum to the owners of the big track that certain changes must be made by to-morrow, or the sanction for the races will be withdrawn.

The association demands that the track be freed from its many dangerous ruts, which are claimed to be unremovable in a new track, and that every inch of it be thoroughly oiled and tarred.

Coming down the home stretch the car suddenly swerved and tore into the fence at the left of the track, turning completely over and pinning its two occupants beneath it.

Both men were alive when taken from under the mangled machine, but Bourque died a few minutes longer.

CURTISS WINS MUCH APPLAUSE IN FRANCE

Rheims, France, Aug. 20.—The American aviator, Glenn H. Curtiss, at sundown yesterday added a dramatic feature to the trial flights of the aeroplanes entered for the contests of aviation week by skillfully guiding his machine above another aeroplane and averting a collision in the air that seemed imminent.

The feat was accomplished when for the first time in history, three heavier-than-air craft were manoeuvring at the same time. All were flying rapidly when Curtiss suddenly saw M. Dumanset, in an Antoinette monoplane approaching at right angles and on the same level with him.

As quick as a flash Curtiss realized the danger and elevating his planes, his machine instantly shot upward and soared safely over the Frenchman.

The thousands of spectators who lined the aerodrome watched the spectacle with suspended breath while they saw it successfully and brilliantly carried out and applauded the American wildly. The third machine in the air at this time was that of M. Tissandier.

The wind which had been master of the aeroplanes for two days, suddenly died out at sundown and the aviators rushed to the sheds and dragged out their machines.

Count de Lambert, on a Wright model, was the first of the aviators to start and made a complete circuit of the aerodrome. M. Tissandier, also on a Wright biplane, followed him.

Then the Curtiss machine, looking smaller and more compact than the others, was placed in position for a flight. Curtiss still was limping and walking with a stick but, like M. Bleriot, who before crossing the English channel in his monoplane, threw aside his crutch, Curtiss mounted the seat of his biplane unencumbered.

George M. Cohan's personal engagements for the coming season call for a cross-continent tour in his musical play, "The Yankee Prince."

THE SECRET OF LONG LIFE A French scientist has discovered one secret of long life. His method deals with the blood. But long ago millions of Americans had proved Electric Bitters prolongs life and makes it worth living. It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, imparts life and tone to the entire system. It's a good-thing to weak, sick and debilitated people. "Kidney trouble had blighted my life for months," writes W. M. Sheehan, of Cushing, Me., "but Electric Bitters cured me entirely." See ad at Woodall & Sheppard's.

He Knew. "Johnny, your face is dirty again this morning," exclaimed the teacher. "What would you say if I came to school every morning with a dirty face?" "Huh!" grunted Johnny. "I would be too polite to say anything." Took the Cake. Sallie—"If I was dividing the cake, I'd give you the biggest piece." Tommy—"Then what yer kickin' about? I've got it, ain't I?"—The Housekeeper.
