Sallie Davis, colored, was the prosecuting witness in the case against W. B. Sadler, Lillie Moore and Willette Gibson, all colored, and charged with conducting a disorderly house in Oiltown, The witness declared that a crowd of men and women had been at Sadler's house all the week and had been "carrying on 'mos ridic'lously." Thursday she said she heard a woman scream in the house "an' we made shore she wuz bein' killed."

The defendants were found guilty of the charge preferred against them and each was fined \$10 and one-third of the costs.

There was another case against the Gibson woman in which she was charged with carrying a concealed weapon, Jess Morrow, colored declaring that it was she who gave the pistol to Harris, the negro who shot up the colored dance Monday night and who is now serving a four months' sentence as the result. The witness said the defendant pulled the weapon from her stocking and gave it to Harris when he attempt ed to use it on him in the pool room just before the trouble in the hall. The woman declared positively that it was not a pistol she gave the negro but only a cigarette. Another witness was examined who saw the defendant take something from her stocking and give the man though he could not say that it was a pistol. In order that Harris, who is now on the roads, might be seen and a statement from him as to what the woman gave him obtained the case was continued.

## Hobo Caused Great Excitement on The President's Train

Washington, D. C., Nov. 13.-A meandering "hobo," seeking shelter from ticket-hunting conductor on board the Federal Express, from Boston to Washington last night, wandered haplessly into President Taft's private car, the Mayflower, locked himself in thekitchen, and created the greatest excitement of all the president's travels.

The incident occurred just outside of Bridgeport, Conn., and it was the authorities of that town to whom the hobo was delivered by Jimmie Sloan,

Leaving New Haven at midnight, two local day coaches were placed on the express ahead of the president's car.

From one of these the hobo found his way into the front end of the Mayflower. The cook was asleep and the hobo darted into the kitchen and bolted the door.

While the train was speeding toward Bridgeport the cook tried to get into the kitchen, and later forced an entrance, finding the hobo crouched in a corner. He pounced on the unfortunate and a wild commotion summoned Sloan, who said polite things to the tramp, who claimed he was a

He was handed over to the Bridge port police. The president in the meantime was snoozing away in a stateroom at the rear end of the car n blissful ignorance of the excitement,

## Local Cotton Market 14.25

Selling Slow - Prices Steady - Weather Has Been Favorable And Will Increase the Yield -No Cotton Stored.

The sotton market has been following practically the same course as yesterday. On the local market the staple is bringing 14.25. It opened up this morning at 14 cents, but has been gradually climbing until it reached the highest about noon today. Selling is slow. Only about 125

January futures closed today at the "Victim," Charles Best, 18 noon at 14.58, 9 points higher than the

this year. This shows that the farmers have been selling rapidly and reflects the fact that very little ENDORSES ACTION, cotton is in storage anywhere. was teken from the gin and the

This has been an nuusually favorable year for the farmer. Heretofore he has been pressed with his accounts with the merchants and fertilizer furnishers when the market was low prices, which have been working

against the producer. This year the matter has been greatly changed the season opened up with high prices and the farmers have not failed to take advantage of them. He has been selling fast and paying up his debts. Now his creditors are not in a position to push him and if he cares to hold the

"Reports from Europe," says the "Let me again assure you of my New York Commercial, "are to the American and Imperial Tobacco Com- thorough sympathy with you touching effect that Continental mills have little cotton, and the same thing is true of many American mills. Spot men are very anxious that the market should find a level some place to give them a fair chance to see whether or not they can sell the mills cotton. "The statistical position of the mark

et is something that is beginning to

command more attention than it has.

Up to date the movement has been ing comparison with those of last year. At this time last year the movement was very heavy indeed; this week last year there were 704,895 bales brought into sight. The movement from now on must be very much smalled than that of last year, and unless the difference is offset by a corresponding decrease in spinners' takings the visible supply will soon become a bullish argument. Up to date takings have run well up with those of last year, but the heavy movement offset this fact. It remains to be seen whether or not he taking figures can grow smaller by comparison with those of last year, as the into-sight figures are sure to do. It has been evident for several days
