Burgess Gives Figures On Food Product

Special to The News.

I. L. Burgess in a supplementary bulment of agriculture gives some very valuable and significant estimates of food products shipped into North Carolina that ought to be grown by the not less than 80,500 tons of mill feed valued at \$1.368,000 came into the state; \$4,227,686 worth of wheat and city bank. flour; \$6.877,148.66 worth of cured

meat; \$1,123,166 worth of corn and oats; \$221.875 worth of hay; \$49,655 worth of butter. This special investi gation by State Agronomist Burgess shows that every farmer should make home supplies no matter to what special crop his lands may be adapted. He says he would not expect all counties to raise all of their home supplies but sees no reason why the crop development should not be such as to enable the average to be brought to that meeting of Emperor William and Empoint where the home supply products

should not be sufficient to eliminate the heavy drain to which the state is now being subjected in purchasing these supplies elsewhere. Children's Reading Roo.m.

A children's reading room will be on her part, agrees to co-operate in fitted up at the Reney Public Library building the long proposed Bagdad by the Woman's Club of Raleigh. A railway and its branches and to give

A Search Law (From Asheville Gazette-News.) At an enthusiastic meeting of the executive committee of the Law En-

Prohibitionists Want

forcement League last night it was decided to call a mass meeting for January 12 at 7:30 o'clock at the county court house to consider many matters of importance in regard to the enforcement of laws; paying especial attention to the enforcement of the prohibition laws.

Among the desired amendments is one giving to the police the right to search suspected places and to seize any liquors that may be found in the The advocates of "the search place. law" believe that this will add very materially to the enforcement of the prohibition laws. In other words, some of the Asheville people are inclined to believe that the state laws need more "teeth" to enable the officers to be able to oust successfully the alleged violators of the laws. A strong protest is going to go forth to the proposed abolition of the police commission. This was discussed last night and it was decided that a committee composed of Zeb F. Curtis and Guy Weaver draft petitions protesting to the proposed abolition of the commission. These petitions

are to be liberally circulated in both the city and county, setting forth that the commission has been an invaluable factor in the enforcement of the prohibition laws and that if it is abolished the work of Col. Lusk in running down the alleged "tigers" will be seriously crippled. The committee to take charge of the proposed search law patition is composed of Col. Lusk, W. R. Whitson, Judge G. A. Shuford, T. J. Rickman and Zeb F. Curtis. Petitions will be liberally circulated in both city and county asking for the enactment of the proposed search law.

The directors and stockholders of the Eank of Alexander held their annual meeting on the 27th. The affairs of the institution were found in first class shape and all were pleased with the manner in which President
