SCOUNDREL IS USING NAME OF ROCKEFELLER

Paris, April 10.—The attention of John D. Rockefeller of New York and Cleveland should be called to the fact that the noble arms of the Rockefeller, which experts in pedigree have declared he is entitled to bear as president of the bank for whom the police are currying Europe.

This man is the bogus Marquis de Rockefeller, who is really a bigamist and an adventurer named Reiss. Some time ago he stole the papers of the genuine Marquis Paul de Rockefeller, who was a soldier and died in a mad house in Algeria.

Reiss, who is really a bigamist and an adventurer named Reiss. Some time ago he stole the papers of the genuine Marquis Paul de Rockefeller, who was a soldier and died in a mad house in Algeria.

Congress Gets Down To Business After A Brief Rest

Gustave Kissel Died Early Today

New York, April 10.—Gustave E. Kissel, long prominent as a Wall Street broker and for many years intimately identified with important financial interests, died early today at his home after an illness exceeding more than a month.

Gustave Kissel came into the spotlight of publicity through the acquisition by the American Sugar Refining Company of the Pennsylvania Sugar Refining Company of Philadelphia.

Adolph Segal, who a short time before had sold a sugar refinery in Camden, N. J., to the sugar trust, had just completed a new \$2,000,000 refinery at Philadelphia and announced that he would fight the American Company.

Soon after the loan was made Kissel, according to the indictment, turned over the majority stock, which constituted a voting trust to the American Sugar Refining Company.

Paris, April 10.—Madame Curie, who aided her husband in the discovery of radium, shall be brought up as a boy.

The Situation In Mexico

President Would Suppress Japan War Scare

Row Among Foreigners Is Finally Settled

By Associated Press. Washington, April 10.—After three days of idleness both branches of congress resumed today. There was some expectation that before the day was over House Minority Leader Mann might be able to submit, in part, his selections for the standing committees, probably including mileage and accounts, ways and means, appropriations and rules.

Two speeches on timely subjects figured in the schedule of the senate today. Notice was given last week by Senator Rayner, of Maryland, that he would discuss the situation in Mexico, including the attitude of Japan and the application of the Monroe doctrine to conditions on the border.

When Senator Martin, the new minority leader of the senate, names his committee of committees, both the democrats and republicans will begin the work of reorganization. There are now about seventy senate committees, the chairmanships of which, with the exception of about ten, are held by republicans.

Before an important business is taken up by the house this week, the democrats will hold another caucus and pass upon the tariff proposals to be submitted by Chairman Underwood of the ways and means committee.

One of the busiest bodies in congress is the democratic committee which is apportioning the appointive positions in the house among the state delegations. At present the house is running with the old republican apportionment.

Mr. Underwood, pointing out recent payroll cuts of \$180,000, objected to the resolution until the situation should be investigated.

Representative Tamm, minority leader of the house, today completed his task of assigning the minority members to the various committees of the house organization, but he does not expect to make his selections public until late today or tomorrow.

Four hundred rebels are said to be advancing on Camacho, in northern Zacatecas.

An insurrection said to be reported on the Pecos mines in Sonora, all houses, arms and supplies having been taken, it is said, many of the mine workers being impressed into service by the rebels. The mines are owned by an American company.

Reinforcements from Hermosillo have gone to the assistance of a federalist driven from Arizona and a federalist with the victorious insurgents in that vicinity is expected when the two federal forces form a junction.

The insurgents have abandoned Topia, Durango, to go to Vera Cruz to reinforce the rebel force battling with the federalists in that vicinity. It is said the federalists have formed an alliance with the Cuernavaca Indians in Durango under a compact by which the Indians are to have their lands and rights restored if the insurgents are driven out of the state.

Material is still being taken from here to Pearson and Casas Grandes by railroad extension work. The natives, it is said, are rapidly leaving that region since the federal troops have withdrawn from Casas Grandes. Practically all civil officials have fled.

Peter Gobos, the forsworn who has been in trouble because of misunderstandings with his partner, was in the Recorder's court again this morning and was acquitted, the charge of embezzlement against him being not pressed. A settlement has been reached among all parties and through Attorney Harding and Robertson the adjustment of difficulties was made today.
