North Texas Lines Up Against South Texas in Election

WIEHE PUT THROUGH SHARP EXAMINATION

By Associated Press. Washington, July 21.—C. F. Wiehe, secretary of the Edward Hines Lumber Company of Chicago, was subjected to a sharp cross-examination today before the senate Lorimer committee as to the part he and Edward Hines, president of the lumber company, took in the Lorimer election.

Attorney J. H. Marble for the committee, directed attention to the night when Wiehe asked W. H. Cook and William O'Brien at Hines's alleged request to keep out of the way while the grand jury was in session in Chicago.

"Did you know it was a violation of the law to advise persons to avoid subpoenas?" queried the attorney.

"I didn't think about it at that time; I was just a messenger for Mr. Hines."

Chairman Dillingham wanted to know whether subpoenas for Cook and O'Brien had been issued. Attorney for Hines stated they had not been but Senator Kern led the witness to say that Hines said to him that night that he was advised subpoenas had been issued.

"Did you say that night that Mr. Hines was talking too much about the Lorimer case?" asked Mr. Marble.

"I might have. I knew Mr. Hines felt that by his message to Governor Deneen he believed he had been influential in the election of Lorimer and I thought as has been shown that if Hines kept talking about his part in the election he would get Lorimer's enemies down on him."

Wiehe declared that one of the reasons why he asked R. J. Shields, the affidavit collector of Superior, Wis., to meet him in Chicago about ten days ago, was to discuss sending him to Albany, N. Y.

Wiehe explained that the Hines company desired to ascertain if Cyrus McCormick contributed anything to the Taft campaign in 1908, and that he had been advised the list of contributions was on file with the secretary of state at Albany.

"I had wired the secretary of state and had gotten a reply that the list was destroyed, only being retained for fifteen months," said the witness. "Since coming here I have received a wire from Albany saying the list would be furnished for \$1,000."

Wiehe did not think the charge was solely for copying the 128 pages of contributions.

"Do you mean to say there are 128 pages of contributions to the Taft campaign fund?" asked Senator Kern, today vice presidential candidate on the ticket opposed to Mr. Taft.

"Yes, sir," replied the witness. "I see how it happened then," responded the defeated candidate.

TO-MORROW'S STATE-WIDE PROHIBITION CAUSES SPLIT IN ONE STAR STATE—BOTH SIDES CLAIM VICTORY BY SMALL NUMBER.

"Overwhelming Majority" is an Unheard Expression—Few Charges of Corruption Made—Birmingham, Ala. to Vote on Local Option.

By Associated Press. Dallas, Texas, July 21.—It is north Texas against south Texas in tomorrow's state-wide prohibition election, according to dispatches today from Associated Press correspondents on the closing of the campaign in the cities, towns and more important county seats throughout the entire state.

The anti's are making the most confident claims in south Texas, while the prohibitionists are doing the same in north Texas from Louisiana to the New Mexican state line. It is noticeable, however, that the greater number of these "claims" or conceded majorities on either side are by a very small margin. "Overwhelming majority" is almost an unheard of expression.

Campaigning appears to have been warmest at least in the number of speeches made, in the populous sections of north and east Texas. As an indication of today's claims throughout those sections it may be said that out of about 50 towns, the number where the prohibitionists claim a distinct majority and where they ro and anti claims make an even break are about equal.

Today's summaries of the campaign are notable for absence of mention of more than sporadic charges of corruption on either side.

For Local Option Election Birmingham, Ala., July 21.—Probate Judge J. P. Stiles this morning set August 24 as the date for the local option election in this city and county.
