

Revolution In China Gaining Momentum With Every Hour

Five Thousand Chinese Troops Mutiny And Kill From 200 to 300 Natives—Methodist Missionaries Reported to be Safe.

Revolutionaries Will Attempt to Destroy Railway in Order to Prevent Transportation of Government Troops—Slogan is "Down With Manchus."

Peking, Oct. 12.—Between five thousand and six thousand Chinese troops in the native section of Hankow are reported to have mutinied this morning and killed from 200 to 300 Manchus. The rebels occupied Su Ting Fu yesterday.

It is believed that the revolutionaries will attempt to destroy the railway and prevent the transportation into Hu Peh province of the troops that were concentrated in Sze Chuen last month.

"Down With Manchus." Hankow, China, Oct. 12.—The revolutionary movement is gaining momentum with every hour. Since noon yesterday it has swept Han Yang and the native quarter of Hankow.

Losses in the fighting thus far aggregate several hundred but practically all the dead are Manchus. The slogan of the movement which is guided by shrewd and temperate leaders evidently is "Down with the Manchus."

Thus far there has been no indication of any animosity toward foreigners on the part of the revolutionaries. The capture of Han Yang, a town of 100,000 just north of Hankow, has delivered into the hands of the revolutionaries the arsenal and the important Han Yang iron works.

The revolutionists had no trouble in Han Yang, overwhelmingly outnumbering the local troops. General Piac escaped by flight and the members of the local government were dispersed.

The popularity of the revolutionary movement all along the river in the interior is indicated by apparently authentic reports that several nearby cities have fallen.

Missionaries Safe. The Methodist missionaries in Wu Chang are known to be safe. An expeditionary force is now engaged in gathering up the American and rescuing them where they are hemmed in by the natives.

According to Chinese rumors, Kang Tu Wei, who was adviser to the late emperor until 1898, when the coup of the Dowager Empress restored her to the throne, has fled to the coast.

The arrival of the rebels in an attack on the rebels now in possession of Wu Chang, Hankow and Man Yang.

It is expected the revolutionists will dynamite the bridges of the Peking and Hankow railroad to prevent the early arrival of troops.

FOND DU LAC HAD ITS OWN WAY AFTER ALL

Wanted Exactly Two Hours And a Half of the President's Time or Positively None at All—Saucy Message to Chief Executive.

Nothing Lacking About The Nerve of Fond du Lac, But it Had its Way "Laughing Merrily All the While."

By Associated Press. Salem, Ore., Oct. 12.—The Fond du Lac incident, the most interesting connected with the recent travels of a president, was officially declared closed on board the Taft special when it stopped for several hours here today on the way to Sacramento and San Francisco. And President Taft is looking forward to his visit to Fond du Lac in the state of Wisconsin with an interest greater than that felt in any other city on his 13,000 mile itinerary.

The indications are that there will be a big time in Fond du Lac on Taft day, October 26. For a while it looked as though the gates of the city were to be closed against the chief executive of the nation all because they thought it was Oshkosh when it really was Appleton that wanted to be treated a little more liberally in the division of the president's time on a busy October day in the home state of Senator LaFollette, a rival candidate for the presidential nomination in 1912.

In order to give Appleton little more equitable treatment, it was necessary to cut down some of the time allotted to Fond du Lac. This caused the storm clouds to lower and while the empest raged the telegraph wires were kept hot with messages, which chased the presidential train all the way from Cheyenne to the Pacific coast.

The mayor of Fond du Lac announced that if Fond du Lac could not have Mr. Taft for two hours and a half he did not want him at all.

The announcement had been made from Fond du Lac several days ago that the city would withdraw its invitation to the president and would refuse to entertain him, the entire official correspondence by telegraph was given out here to make the situation entirely clear.

It begins with the following telegram by Mayor Frank J. Wolf of Fond du Lac to Secretary Hillis on the presidential train at Cheyenne:

"We have made elaborate arrangements for the president's visit to Fond du Lac. We are advised that our time is to be divided with Oshkosh and other points in the Fox river valley. We would like to know definitely the time allotted to Fond du Lac. It will require two and a half hours to carry out the program and arrangements."

To this the secretary to the president replied:

"Telegram received. Railroads had given only ten minutes to Appleton, one hour and forty minutes to Oshkosh and two and a half hours to Fond du Lac. This was an error. Appleton was to have had one hour and ten minutes. It will be necessary to revise the program and deal fairly with Appleton."

This message must have caused some excitement in Fond du Lac for promptly this answer was sent from Mayor Wolf and the "chairmen of all committees."

"As all arrangements had been made to cover the president's visit to Fond du Lac for two and a half hours, per original program; disappointing, all arrangements have been abandoned. Give all your time to Oshkosh and Appleton."

In the meantime Mr. Taft had made up his mind to go to Fond du Lac, reception committee or no reception committee.

In the following telegram from Secretary Hillis to Mayor Wolf the final chapter was written:

"The president will be pleased to comply with the wishes of the committee."

And Fond du Lac will entertain Mr. Taft for an hour and a half on the afternoon of Thursday, October 26.

Woman Suffrage Was Victorious

By Associated Press. San Francisco, Oct. 12.—If the present ratio of gain is maintained, woman suffrage will be shown to have carried at Tuesday's election by a safe majority.

Belated returns this morning from 68 precincts reduced the majority against suffrage to 336.

San Francisco, Oct. 12.—Success or failure of the proposed amendment to the state constitution granting to women the right of the ballot remains in doubt. The latest returns at hand show the proposed amendment to be 808 votes short of a majority but as the vote of the big cities is completely counted, the supporters of the proposed amendment assert the belief that the country districts yet unheard from will overcome this vote in opposition.

Stated evidence against the McNamara brothers on trial for the alleged dynamiting of the Los Angeles Times Building in which twenty persons lost their lives. This evidence was gathered by the William J. Burns detectives. A strong tester, used to make sure that the current of the bombs was strong enough, is shown on the left. Quaker City Troops Invade Queen City --Imposing Parade

This afternoon at 3 o'clock the mayors of the two cradles of American liberty met at the Southern depot, the mayor of Philadelphia, the guest of the mayor of Charlotte.

Not only were the two mayors present but also officials of both cities. The mayor of the Queen City, so eagerly lauded the mayor of the Quaker City, went a big hornet's nest, the insignia of the former.

The Philadelphia mayor accepted both, in happy style, and at once became a willing guest in the first cradle of liberty, the hot-bed of the American Revolution.

The mayors of the two most historic cities in the Union—Charlotte and Philadelphia—were proceeded up Trade street (which when the Philadelphia came again will be paved with asphalt) by a long line of soldiery and citizens in autos, the whole being led by the Charlotte Drum Corps.

From Graham street to the station the streets were fringed with people. Thousands of the townfolk, including the local military organizations, were waiting to welcome the Quaker boys.

The visiting soldiery, Mayor Brazer and councilmen arrived about 2:30 o'clock—an hour after schedule time. The troops consisted of the infantry battalion, State Fencibles, of Pennsylvania, and the battalion numbering 150 men.

Drawn up in military array to meet them was a battalion of local troops—Company D, First Infantry, under Capt. John A. Parker, and Company 5, Coast Artillery, under Capt. W. M. Robey. The battalion was commanded by Capt. W. R. Robertson, with Lieutenant Rufus M. Johnston, acting as adjutant.

Capt. F. L. Black, of the Second Infantry and Dr. E. C. Boyette, and Dr. Myers Hunter, of the Medical Corps and Major T. B. Whitted, assistant engineer on governor's staff, acted as a personal escort to the major commanding the Pennsylvania battalion.

The Parade. The welcoming over, at the station, the parade was quickly formed and moved up Trade and down Tryon, passing The News office in the following order:
