Body Of Avis Linnell Reinterred After Unsuccessful Search for Poison Container

By Associated Press. Boston, Oct. 25.—The container in which Miss Avis Linnell received the cyanide of potassium, which caused her death, was not buried with her body.

This possibility which led to exhumation of the body from the grave in Hyannis was disproved at the examination made early this morning.

Following an examination of the body of Avis Linnell, the young music student who died a week ago by taking cyanide of potassium, the remains were today sent back to Hyannis on an early train and reinterred.

Examination of the young woman's body took place in the early morning at the city hospital morgue, continuing about an hour and a half.

The medical examiner denied there had been an autopsy. Whether any container of the poison which caused her death was found in the bath robe which had been buried with the body, was not disclosed.

Other than to say there had been an examination and that he would report his findings to District Attorney Pelletier, Medical Examiner Leary refused to discuss the defense to have representatives of the defense to have the body exhumed.

The Last Call for Lunch For New Yorkers—Immense Crowd Thronged to Polo Grounds Early—Weather Conditions Were Ideal.

Athletics Regarded as Ultimate Winners And Little Betting is Being Done—The Batteries And Line-up For Day's Game.

By Associated Press. New York, Oct. 25.—The New York Giants are fighting in the last ditch today to wrest the title of world champions from the Philadelphia Athletics.

Rush to Polo Grounds. The eve of the fifth struggle today saw the same big crowd moving toward the Polo grounds and though the home team seemed to have but a bare chance of victory still there was no lack of enthusiasm and interest and the indications were that the attendance would be as large as at the previous games here.

There was a dearth of betting, the Athletics being regarded as the ultimate winners of the series and only a few cared to take the short end of four to one laid against the home club.

Combs and Lapp for the Athletics and Marquard and Meyers for the Giants looked to be the battery selection for today's game.

Weather Ideal. Except for the fall chill in the air the weather was all that could be asked for.

The sun in a cloudless sky shone in an atmosphere so clear and dry that it made the players out for early practice skip about the field like school boys.

A day of clear weather had dried the diamond and the home ground showed conditions almost as good as on the first day of the series.

Financial Feature. Although under the rules governing the series the players share of the receipts is limited to the four game already played, there was a big financial consideration still to urge them.

Today the players know the exact value of the stakes. Victory in the series meant the difference between \$3,650 and \$2,436 for each player.

Under the rules the victors take 60 per cent of the total allotted to the players.

Giants are Confident. "We'll be out there fighting today; just the same," said Captain Larry Doyle, as the Giants' captain came to the Polo grounds this morning.

True we have used Mathewson to stop the Athletics but Marquard is now our main dependence. Ames also is in good shape and if we win today we can put him in tomorrow.

We have not lost hope though things don't look bright; but you never can tell in baseball. It's a queer game.

Marquard has been carefully groomed for this contest by Manager McGraw.

Chief Meyers is most hopeful member of the home club, saying: "If our club can win three straight, there's no reason why another can't."

"We are playing for today's game," declared Connie Mack. "If we don't get it, we will try all the harder to get the game tomorrow. I think we have a good chance of winning the title of world's champions again. I really can't say who will pitch today. It may be Coombs and then again it may be Plank. Morgan and Krause are also good pitchers who have not been shown in this series."

GREAT STOREHOUSE OF GOLD PLANNED. By Associated Press. Denver, Oct. 25.—That the United States government is shipping gold bullion to the Denver mint in large quantities and that ultimately the city will contain one of the greatest storehouses of gold in the world was stated here today by persons known to be closely in touch with the situation.

It is declared that since the restriction of the coinage of gold, large quantities of bullion held against the gold certificates issued by the government have been shipped here from Philadelphia, New Orleans and San Francisco mints.

Approximately \$500,000,000 in gold is now stored in the Denver mint.

New Orleans, La., Oct. 25.—The weather bureau at noon issued an advisory warning of a storm of unknown intensity, which at that hour was centered northeast of Cuba and moving in a northwesterly direction.

Vessels bound in that direction are warned to exercise caution.
