Late Market Reports Complete

Cotton-Stocks-Grain-Provisions-Miscellaneoeus

Ga., Dec. 28.—Spot/mid- New York, Dec. 28.—Cotton opened

The market continued quiet late in the foreneon with active months ruling about 1 to 3 points net higher; business seemed to be largely in the way of switching with leading spot people buying January against sale of later months while Southern shorts were said to be transferring their commitments from January to later positions also.

186 1-8 there was a recovery in the remainder of the list but business came almost to a halt.

Slow dragging movements and lack of speculative interest characterized the stock market during the morning. The market moved in an uncertain fashion during the second hour.

The coalers, Union Pacific and U. S. Steel covered a range of about half. later positions also.

than expected. The market was very dull in the early hours.

The approaching holidays and the labor dispute among English mills restricted trading greatly. The weather map was cold but dry and was generally called favorable as dry weather will allow pickers to get into the fields again. A small amount of short covering served to steady the market and at the end of the first half hour of business prices were 1 to 3 points over the steel schedule. Union Pacific fell to 170 3-8, a loss of 2 5-8 and United States Steel declined to 66 3-4, a loss of over a point.

Louisville & Nashville, Reading, St. Paul, B. & O., Chesapeake & Ohio, Northern Pacific, Southern Pacific, American Smelting and Amalgamated Copper lost 1 to 1 1-2.

THE WEATHER.

Weather Conditions.

The storm which has caused high winds and rainfall over the Lake region, has moved to the northeastward, its center being this morning beyond the range of observation. Buffalo reported a wind velocity of 60 miles during the night.

The center of the high pressure area will be noted today over Tennessee. This area has brought colder weather to the entire eastern half of the country. The line of freezing temperatures will be noticed on the map above, fol-lowing closely the South Atlantic coast and almost touching the Gulf coast. The lowest temperature reported this morning is 28 degrees below zero, at Winnipeg, Manitoba.

The indications are for fair weather

in this vicinity tonight and Friday, with continued cold.
