The night of Tuesday the 13th day of this month, promises to be one of the most eventful in the history of the Greater Charlotte Club, for it is on this night that the big membership campaign will be commenced.

It is to be started with a great demonstration in the way of a grand torchlight parade which will be participated in by the entire club membership who will carry brilliant red lights which have been provided to the number of severah undred for the eccasion. The appearance of the club members in a demonstration of this character is a striking evidence of the confidence which they possess in what the club can do for the city of Charlotte. The Charlotte spirit prevalls to a greater extent than ever before and the future work of the club is destined to be carried on through more extensive methods of operation than ever before.

The parade will assemble in four the square, where the different di-coln, Gaston, Cleveland, Rutherford, visions will unite and form one grand Polk. body, which after giving a demonstration with hundreds of beautiful auditorium. It's An Astounding Fact, Bill

that right here in progressive Charlotte, a city of skyscrapers and blind figers, church spires and --- clubs, religious workers and bridge gamblers, of much plety and great hyprocrisy, of electric energy and hot air artists-I say in such a Garden of Eden, Bill, with such beautiful women and wise men, it is almost beyond comprehension, that any one could be found satisfied with a 2, 4, 6 or even 8 per cent investment, which is taxed by the state, taxed by the county, taxed by the city (you know Charlotte taxes everything save the elect) while at 25 S. Tryon St., the home of The Mutual Building & Loan, 31 years old, every dollar of such money can be invested at about 6 1-2 per cent NET, taxes paid by the B. & L., no lying to be done as many are doing yearly to escape their part of the burden of a great (?) and wise (?) and just (?) government.

THERE'S BUT ONE EXPLANATION, KEESLER,

There's a certain percentage of manking fools. This is true and estab lished history, tradition and statistics. Tuberculosis may one day be eradicated but fools never. We may lower the percentage, but extermination was left out of the great plan of creation. New series still open.
