There will be no great struggle and cut-throat competition between the Southern Power Company and the Durham Tractio n Company, as had been predicted by some. The Southern will merely open up an office here and bid for lighting, and small power work. Those concerns which use a great amount of power, such as the large cotton and tobacco manufacturing plants, will buy their service directly from the Southern Power Company, and that wil not be handled in the least by the local firm of the company. Efficiency will be the watchword of the new corporation, and by giving better service they hope to be able to get a large share of the business. preferred to devote to newspapers my contributions toward educawarning the people to protect themselves against the greatest, most rannical and dangerous trust this country has ever seen,

Especially insidious and dangerous, because its inner plans were not inderstood by the average citizen who, seeing no immediate slavery to finself, peacefully followed his own pursuits and blindly allowed the selfseeking Labor Leaders (?) to weave their web stronger as time went on. Not one word in my entire campaign has been uttered against peaceful trade associations.

I have only tried to defend the several million honest and law-abiding workmen who protest against the bullying and abuse of those in power.

No one seemed to sympathize with the few thousand widows and ormans of the men murdered while faithfully trying to earn a living under God's permission but against the "orders" of the "Labor Trust." So I tried to present their cause from time to time.

The healthy average common citizen is perhaps deserving of at least some of the inconvenience and loss put on him from strikes and other ishor leaders' tyranny as a reward for his indifference.

i knew years ago that the plan of the big labor trust was to ultimatey gain control over every workman, clerk and employe in the U.S., including farm bands and government employee. This has been partly accomplished in some localities; then followed

acts which clearly show the intent. First, to harvest initiation fees, sometimes up to \$100.00 each to "join

the union. Next, monthly dues. Say \$2,500.00 a month in a town with 10,000

members" at 25 cents each. Next, "fines" assessed for some infraction of "rules."

Then the lash of the slave driver came forth. Orders to strike; what to buy; what not to buy; how to vote; when to parade (to show poweric and to cotribute from the hard-earned pay envelope for strike benefits to other men forced into idleness pending negotiations between crooked leaders (?) and crooked employers who hire said leaders to call strikes on competitive jobs, thus making the workmen tools, kept idle while the chiefs scrap for control or bribe money.

One of the hardest strokes of the lash is the money forced from members to defend dynamiters, sluggers and murderers when caught.

But let an honest workman, who, perchance, has been driven into "the union." dare to disobey one of these "orders" and he is taught a lesson through the slugging or dynamiting committees.

The slavery of the honest American workingman is pltiable when closed shop" full control is obtained by the tyrannical leaders. Now, observe the plan of this gang to govern men and affairs.

"Organize" every trade. Insist on closed shop. Then use the power of sumbers to induce government officials to permit organizing all government employes. Some of the oaths defining that the union rules shall precede Church, State and Family.

Then force Congressmen to pass anti-injunction laws to prevent courts from stopping proposed outrages.

Force merchants to hire only "union" clerks and sell only "label" souds. Use union funds to support slugging and dynamiting crews to drive back the protesting ones or "remove" them.

Of course, in carrying out the plan for complete control by the gang, ome were caught.

Whenever openly exposed the men "higher up" immediately begin to assess members to protect the criminals and always rush into print with ad cries and much mock sentiment about "the brotherhood of man" and delense of the wage worker," with such play upon the sympathy of the sople they cover their own greed for fees and insane desire to read their names in the papers.

It would be hard to convince the widows of the twenty-one murdered men in the Los Angeles tragedy, and hundreds of others, that their husends received much benefit from "the defense of the wage worker," nor could they well understand such working of that particular brand of the brotherhood of man" scheme.

Late events have stripped the lamb's coat from the body of the wolf and moun most clearly the lying deceit and horrible portent underneath, which I have tried time and again to explain to the public.

Men who preferred to work and support their families have been wayaid. Fingers chopped off, with the comforting assurance that "now you win set type if you will." Crow bars and heavy weights dropped on heads. Fathers beaten unconscious and many and many a corpse brought to the destitute family.

These are not "occasional cases." Such crimes run literally into the dousands, and judges and juries have been threatened with death, bribed, and witnesses slugged or put out of the way.

In the Government cases now pending the witnesses must be guarded from the agents of the "Labor Trust" with its tentacles reaching to the most remote corners of our country.

Don't permit yourself to be misled by the vaporings of sentimental, tooling degenerates who assert that these murders are justified because society" has oppressed workingmen.

In no country in the world are they paid as high, and as much earnest fort devoted to their welfare. Nor is there as abundant opportunity in any other country in the world for workmen to gain fortunes.

Our great railroads and industries are largely headed by former wageearners. nese murders are instigated by that class of men, always in evidence, who hate success. They coolly and cruelly plan and execute assaults and daves who dare protest. The nightly talk of strikes, given in many a union meeting, develops the hate and murderous instinct which waits only for Take the Los Angeles case as an illustration. The Times had withstood underpaid. They received wages higher than the union scale, but they efused tere persistently assailed and finally 21 were murdered. These men only asked to be let alone to support their families, but union leaders determined to The whole set-up of the leaders of the great "Labor Trust," the American Federation of Labor, points toward a diabolically adroit plan to secure to those leaders complete control over their own members who dare bot protest, and also over all other workmen, legislators, congressmen, merchants and the balance of citizens.

The query has arisen whether you are big enough to sense the move ment of a great Power which guides humanity, and to conclude that the time has arrived when "Labor" should be honestly represented instead of misrepresented.

If the thought of truthful and earnest effort has come, and you honestly desire better conditions for the wage earners, may I tender to you an invitation to come out to Battle Creek for a conference with the President of the Trades and Workers Association, Mr. J. W. Bryce?

You might spend any sum, but you could not buy anything more ac ceptable, or more suitable than this beautiful piano.

To every member of your household it will bring perpetual delight. For to every member, young and old, musically trained and otherwise, it brings the instant ability to play all music faultlessly and with complete expression.

THE FIRST ARTISTIC PLAYER-PIANO AT A POPULAR PRICE

Recognizing the advantages of a player-piano you may have hesitated hitherto to buy one. The cost of a really worthy instrument may have seemed too great.

The Technola Piano was built to supply just your needs.

For more than four years the Aeolian Company-the largest manufacturers of musical instruments in the world and, makers of the famous Pianola, Pianola Piano, Weber Piano, etc.-have been working to produce a meritorious player-piano at a low price.

The Technola Piano is the result. No player-piano near its price, apoaches it. No player-piano at any price (save only the Pianola) is its
