LIVE ALDERMANIC MEETING LIKELY FOR TONIGHT

The meeting of the board of aldermen tonight, which is designated as citizens' night, promises to be quite lively and interesting. The question of answering the petition of Elizabeth avenue citizens regarding an agreement they wish to make with the street railway company for a double track and which was about to be passed upon favorably Saturday when Alderman Webb broke the quorum, will again come up tonight and it is thought the matter will be settled favorably to the petitioners since there was little or no opposition to it Saturday and since it is a matter that can be settled amicably between the abutting property owners and the street car company. The probability is that the aldermen will require the track to be laid approximately in the center of the avenue and that they will not interfere to any other extent in the matter.

The subway matter will likely come up again also. An ordinance requiring the construction of the subway on East Avenue by the two railway companies was passed upon its first reading at a recent meeting of the board of aldermen and will likely be presented for final passage. The prospect of building a subway received favorable impetus last Thursday night when Chief Engineer W. L. Seddon, of the Seaboard Railway, conferred with the subway committee of the board of aldermen and City Engineer Firth as to the plans and specifications of the proposed subway drawn up by Mr. Firth. The Seaboard Engineer heartily approved of Mr. Firth's plans and specifications and stated that with one or two minor details changed they were pleasing to the Seaboard.

The matter expected to create the liveliest interest is that of granting license to a club, which Col. T. L. Kirkpatrick, counsel for the applicants, requested license for at the last aldermanic meeting. The board would doubtless have granted the request for license without question, the application having been made in every respect according to law, had not Alderman Wingate strenuously objected. He stated that in granting license to social clubs they did so knowing that the club would do business in violation of law, since it could not financially exist without selling whiskey. He insisted that a committee be appointed to examine the list of officers and members named in the application with a view to ascertaining what manner of citizens they were. The investigation has been made and the committee appointed for the purpose will report tonight. This said that they find nothing against the applicants and that there is no reason why

they should not be allowed to operate a club on the same basis as that on which the other social clubs are operated. What is likely to cause the levity, however, will be the presence and argument of a committee appointed by the board meeting last Thursday night at Hanna hall to go before the board of aldermen and urge that body to license no more social clubs. The committee consists of Messrs. E. T. Casner, F. R. McNinch and W. S. O'Brien Robinson, Jr. Mr. Casner was called out of the city to day on business, but the other members of the committee will be present. The club matter has been the subject of much discussion on the street today among aldermen and others. It is pointed out that two city attorneys have ruled that whether the aldermen grant the license or not the clubs can operate anyway by a state law regardless of the aldermanic permission. This phase of the question and the present pertinence of the club question follow. Rev. R. L. Davis' revelations promises to furnish plenty of diversion tonight.

Dr. Hulsten Speaks To Great Audience

Dr. Hulsten's lecture last night on "How to Keep Her" drew an immense audience—as all his lectures have—to the First Baptist church. The text was from Proverbs 18:22, "Whosoever findeth a wife findetheth a good thing," and the base of his remarks these words: "All flirtation between married people is prompted by one of two motives, as for any married man or woman who will flirt both are knaves and fools. I wouldn't give a penny for the virtue of a married flirt," said the speaker. Dr. Hulsten proceeded under the assumption that his male hearers had made a wise choice in selecting a wife. He said it was a tremendous responsibility for a man to assume, one not to be lightly considered when he should ask the woman to leave her parental home where she has been so carefully watched over up to this time giving up the safe shelter of this home for the uncertainty of an inexperienced pilot through life. "Your wife," said the speaker, "has got a mortgage on your body, mind and soul, and that mortgage is foreclosed. So men let us face the issue. Let us pay the debt." Dr. Hulsten is a forceful and eloquent lecturer and speaks to the point. His next lecture next Sunday night will be on "Your Wife's Wardrobe."

Criminal Court In Session Today

The February criminal court convened at 9 o'clock this morning at the court room with Judge C. C. Lyon presiding. Only a few minor cases were called this morning and disposed of. Among them was that against Mr. Lewis Sloop of Newell who was taxed with Brice Sloop, of Newell, some time in November. He was arraigned on the charge of carrying a concealed weapon, a pistol, but the case was not finished at 2:30 o'clock. There is one murder case on the docket, that of Will Durin, colored, for the murder of A. S. Cook, last November. It will likely be called tomorrow or next day.

Simplicity of Hair Dressing Now Fashionable

The present fashion of wearing the hair softly parted, without puffs and braids, demands a naturally fine head of hair, and women with thin, faded locks are at their wits' end to know how to make their hair look well. The first step toward this end is to keep hair and scalp in a healthy condition by the systematic use of a stimulating tonic.

HAY'S HAIR HEALTH contains all the health-giving ingredients needed by the starved hair roots. It destroys dandruff germs and encourages rapid growth of strong, new hair. Those hopelessly dry, faded looking locks grow soft, lustrous and youthful and the whole appearance is improved. You can get it at any druggist's for 50c, or \$1.00 per bottle or from the Philo Hay Spec. Co., Newark, N. J.

GOVERNOR TO BE INVITED TO AUTO SHOW

The promoters of the Charlotte Automobile Show are hard at work on the program. Mr. W. V. Sheppard, the decorator of the Atlanta show, is in the city making arrangements for decorating the auditorium. The colors are to be green and white. The building will be draped in smilax and wisteria. Over 1,000 additional electric lights are to be used, transforming the building into a thing of beauty. The decorations alone will cost \$2,000. Mr. Sheppard will commence the work on the 23rd of the month. An excellent orchestra has been secured to furnish the music. There will be two concerts a day, one in the afternoon and one at night. Among the special features will be the first automobile ever made in North Carolina, exhibited by the Corbett Co., of Henderson, N. C. Governor invited.

An invitation has been extended to Governor Kitchin to be present and open the show. In event that he is unable to attend an effort will be made to have him present one day of the show, so as to have a "Governor's Day."

The only special day so far arranged is the "Social Day."

The E. M. F. racer that won the Tiedeman Trophy, in Atlanta, is to be here for exhibition. This will be the greatest automobile event ever held in this state.

Mysterious numerals—999—have appeared in all of the windows, made their appearance on the streets. What do they mean?

BRIEFS.

—Mr. George H. Rutledge, formerly of Charlotte, but who for years has been living in Concord, has returned to Charlotte to live. He will travel from here for the Pittsburg Water Meter Co.

—The Piedmont Traction Company, has awarded the contract to the Mosler Safe Company, of Hamilton, Ohio, to furnish safes to be used on the Piedmont & Northern lines.

—The people who want to see what is going to be done in this city in the way of improvement, can see the subway maps in the council room, and the maps of the street improvement in the room of City Treasurer Wear.

—The cold weather is delaying the putting down of the asphalt in the street permanent improvement districts. Asphalt, like butter, must be soft and hot to spread. The cold prevents it remaining of proper consistency.

—There was a little excitement at the square this morning, when a large Rambler automobile broke its steering rods and ran amuck. Mr. Charley Manaway, who was driving the car, got it under control before any damage was done.
