Something of The Astor Family

Had the Titantic taken down with her the head of a reigning dynasty, migacy in political power and with branches controlling the destinies of nations, the loss could hardly have caused more excitement than the untimely taking off of the American head of Astor. John Jacob Astor went to his death as a gallant gentleman should go. After the tributes of regret and praise were paid to his memory, attention turned to the former crown prince and present head of the American Astors. The great name in the Astor family councils is now William Vincent, fourth in descent from the original John Jacob Astor, founder of the fortune, writes Charles N. Luric for the American Press Association. What manner or man Wiliam Cin-

Cousin Richer Than J. J. Astor. The ground of American dislike for William Waldorf Astor is his choice of a home in England instead of the country from which his revenue is He is richer even than his late cousin was. It is a matter of common knowledge in New York that the Astor holdings of real estate in the American metropolis exceed in value those of any other family. Very seldom indeed is any parcel alienated from the estate. With the intention of conserving the fortune the first American Astor son of a German butcher, decreed that the fortune should descend from father to eldest son. The others, with their descend-

ants, are provided for, of course, The New York home of the Astors, which has now become the property of Vincent Astor, is situated at the corner of Sixty-fifth street and Fifth avenue. It is a handsome residence, built of graystone, with an air of belonging to one of great wealth that impresses sightseers.

This palatial house was the home of Mrs. William Astor, the "Mrs. Astor" who was the leader of New York society until old age forced her to seek quiet and retirement. She was the mother of the late John Jacob Astor. She died in 1908.

What Sent W. W Astor Abroad. Older members of New York society recall the "fuss" which followed the death of Mrs. John Jacob Astor, wife of the third bearer of the name. She had been the undoubted leader of the social world, and her death caused an interregnum until it was dec.ded finally that Mrs. William Astor of the older generation, and not Mrs. William Waldorf Astor of the younger,

should wield the scepter. The strained situation between the two ladies came to the knowledge of the public when some wag addressed a letter to "Mrs astor, New York," living Mrs, Astor. But Mrs, William

HANDS WOULD BURN LIKE FIRE

Could Lay Pin in Cracks. Four Long Years of Eczema. Only Relief in Scratching. Used One Set of Cuticura Remedies. Hands Entirely Well.

"I can truthfully say Cuticura Remedies have cured me of four long years of eczema. About four years ago I noticed some little pimples coming on my little finger, and not giving it any attention, it soon became worse and spread all over my hands. If I would spread all over my hands. If I would have them in water for a long time, they would burn like fire and large cracks would come. I could lay a pin in them. After using all the salves I could think of, I went to three different doctors, but all did me no good. The only relief I got was scratching.

"So after hearing so much about the wonderful Cuticura Remedies, I purchased one complete set, and after using them three days my hands were much better. To-day my hands are entirely well, one set being all I used." (Signed) Miss Etta Narber, R. F. D. 2, Spring Lake, Mich., Sept. 26, 1910.

No stronger evidence than this could be given of the success and economy of the Cuticura Remedies in the treatment of torturing, disfiguring humors of the skin. A single hot bath with Cuticura Soap and a gentle anointing with Cuticura Ointment are often sufficient to afford immediate relief in the most distressing cases and permit rest and sleep when all else fails. Cuticura Soap and Ointment are equally effective in preserving, purifying and beautifying the skin, scalp, hair and hands.

Although Cuticura Soap (25c.) and Cuticura Ointment (50c.) are sold

throughout the world, a liberal sample of each, with 32-p. book on the skin and scalp, will be mailed free on application to Potter Drug & Chem. Corp., Dept. 2B, Boston, Mass.

But Mrs. Wililam Waidorf contended that her husband was the head of the older branch of the family, and she was therefore the only genuine, simon pure "Mrs. Astor." When his wife lost the campaign William Waldorf Astor came to the conclusion that England was a better place for him, with his numerous millions, than America.
