**SOCIAL**

The world is wide, in time and tide, and God is guide; Then do not hurry, That man is best, Who does his best, And leaves the rest; Then do not worry.

—C. F. Deems.

**VEILS.**

—We talk of them.  
—We wear them less.  
—But we must have them.  
—The "Mussulman" is the latest.  
—The heavy veil is sheer over the eyes.  
—Lace veils are offered again as being the thing.  
—The carnival is coming—it resembles a mask, with open spaces in the figure for the eyes and mouth.  
—The Pompadour veil of light tulle shows only one spot.—Philadelphia Record.

**"MAKING SOME ONE OVER."**

How many of us are content to accept our friends as they are and to let them alone instead of putting forth all sorts of efforts to make them over to suit our individual ideas?  
Silly habit it is a great many of us have—this trying to make over our friends—and it is never productive of anything but unnecessary heartaches, foolish disappointments and hard feelings.  
She's an adorable girl, only she's so very impulsive—and we trail off into a lengthy discourse on this friend of ours and our mighty efforts to make her over.  
Her very impulsiveness is perhaps one of her most pronounced charms and is doubtless the first thing about her that attracted us.  
She's such a sensible girl in most things and I wonder why she persists in doing so-and-so?  
If she is so sensible in MOST THINGS for goodness sake let it go at that, for there are so few of us who can lay claim to being sensible about many things.  
Who likes a paragon, anyway?  
I imagine a person who was just about perfect would be the most tiresome sort of a being.  
What if she has this fault or that? What difference does it make so long as there is something about her which really appeals to us and arouses our friendship and love?  
The chances are that she sees more than one fault or weakness in us, but she is deeply devoted to us just the same—bless her generous heart.  
When we come to the extremely difficult task of analyzing our feeling for our friends, we find it impossible to give our real reasons for liking them. In fact, I don't think we often analyze our feelings.  
We just know, intuitively whether or not we like them, and that is as it should be.  
Sometimes I think we like them quite as much for their faults as for their virtues. Anyway, making them over isn't going to make them one tiny bit more attractive.  
Who was it who said, "A friend is one who knows all about you and loves you just the same?"  
Making some one over is a difficult task and a task that isn't productive of much joy when it is finished.—Harriet Russell in Houston Post.

**MR. GURNEY DRAWING MANY TO SERVICES AT WESTMINSTER**  
The special services in Westminster Presbyterian church are proceeding with undiminished interest.  
At the close of every service the session of the church meets and one or more additions to the membership result. The preacher at these services, Rev. H. E. Gurney, of Monroe, is characterized as a revivalist with zeal wisely blended with moderation. He presents the Gospel's claims and invitations feelingly and decisively, but with out overwrought appeals to the emotions.  
In theology Dr. Gurney is a consistent Calvinist, yet no limitation is suggested as to the individual's acceptability with God if he responds. God holds his child with a grip that prevents his falling away.  
Dr. Gurney is a Canadian, who has worked with the Congregationalists in New York state and came South about four years ago and numbers his friends in this vicinity by thousands.  
The two concluding services will be held tonight, and Wednesday at 8 p. m. Members of all churches are represented in every meeting.  
An increased choir leads the singing at every service. The public invited.

**ALDERMEN GO ON RECORD IN FAVOR OF ELECTION**

At the regular meeting of the board of aldermen last night the board adopted the following resolution regarding the proposed election to increase the school tax 10 cents on the dollar:

"Whereas, the school facilities of the city of Charlotte are inadequate to meet the actual needs, and

"Whereas, the taxes now paid by the city of Charlotte are inadequate to meet the actual running expenses and expenses of building and the payment of the teachers' salaries, and:

"Whereas, the Board of Aldermen of the city of Charlotte has been called upon to appropriate \$10,000 to repair school buildings and \$600 for teachers' salaries, and:

"Whereas the school board is without sufficient funds wherewith to pay the teachers for the present year, therefore,

"Be it resolved that the Board of Aldermen go on record and hereby request the citizens of Charlotte to come to the rescue of the children and the school board and vote for the additional 10 cents on the dollar in taxation which will be the issue of the election on the tenth."

The members of the board individually are apparently much in favor of the proposition, there being not a dissenting vote from and aldermen present. Mayor Bland has freely expressed himself as being not only heartily in favor of it, but as thinking it absolutely necessary that the citizens turn out and insure the result of the election in favor of the schools. He has also expressed his willingness to aid the cause by attending the meetings that have been planned and delivering speeches in behalf of the cause.

The board spent a long while discussing a request made by Superintendent R. L. Womack of the street railway that his company be guaranteed that they would be put to no expense at the crossing of their tracks over the Southern Railway tracks on Mint street, where the Southern will lower its tracks fifteen inches. Mr. Womack gave as the ground for his request that his company had established their track there on the basis of a grade furnished by the city engineer and that no intimation had been given them that they would ever have to change it. After discussing the matter from every point, it was agreed that nothing should be done in the matter, at least at this time.

A motion made by Alderman Kistler passed asking the county to bear half the expense of the smallpox epidemic through which the city has just passed. For years preceding, it is said, the county has shared half in the cost of taking care of such a situation.

**Bridge Question.**  
Upon motion of Mr. J. Frank Wilkes the board voted to accept the offer of the Southern railway to lower its grade at the Church street crossing two feet and to raise the grade of the street at the bridge and construct a wooden bridge there, instead of a concrete one as proposed. No action was taken on the offer of the Southern to build a cressote wooden bridge in place of the requested concrete bridge at the Eleventh street crossing. The board having this matter in charge said they were not ready with a recommendation.

The board made an appropriation of \$25 for repairing damage done to the property of Mrs. Georgia Robinson in the block bound by East Fourth, Cecil, Fox streets and Elizabeth avenue, as a result of the city's drainage system adjacent to her property.

**Comb Sage Tea in Hair to Darken It**  
It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Thick.  
The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.  
Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time, by moving the gray hairs appears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, prevents dandruff, itching scalp and falling hair. R. H. Jordan & Co.

**The Changing Age**

Girls and boys from 14 to 19 years of age undergo physical changes which tax their strength to the utmost and the strain is always apparent from pale cheeks, colorless lips, and tired bodies—sometimes eruptions of the skin and the utter lack of the ambition and animation with which their younger years were filled.

Budding into womanhood and manhood, with the duties of school or business, demands concentrated nourishment which is readily convertible into red blood corpuscles, energy and strength, and the very best thing for this changing age is the medical nutriment in Scott's Emulsion—it possesses the rare blood-making properties of cod liver oil in a pre-digested form; hypophosphites for the nervous system, with the healing, soothing qualities of pure glycerine.

Its nourishing force promotes assimilation, yields direct returns in abundant red blood, fills hollow cheeks, tones the nerves, makes all good food do good, and does it in a natural easy manner.

The sustaining nutriment in Scott's Emulsion is so helpful to this changing age that it should never be neglected—very druggist has it.

**HAIR CAME OUT IN BUNCHES**

Scalp Covered with Dandruff. Scratching Caused Breaking Out. So Irritated Could Not Rest. Cuticura Soap and Ointment Cured.

Route No. 3, Box 20A, Broken Arrow, Okla. — "My trouble began with an itching of the scalp of my head. My scalp at first became covered with flakes of dandruff which caused me to scratch and this caused a breaking out here and there on the scalp. It became so irritated until I could not rest at night and my hair would come out in bunches and became short and rough.

"Everything I used would cause it to grow worse and it continued that way for about three or four years. While reading the paper I saw the advertisement of Cuticura Soap and Ointment and sent for a sample. It proved so good that I decided to get some more. I used them as directed and in two weeks I saw a good effect. Now my hair is longer and looks better than I have ever known it to be. I give all the credit of my cure of scalp trouble to the Cuticura Soap and Ointment." (Signed) Mrs. Ella Sheffield, Nov. 30, 1912.

For pimples and blackheads the following is the most effective and economical treatment: Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and clogging of the pores. Sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.
