It will be recalled that the board 28-1t Mr. Buchanan would not be a candidate for re-election again. There was considerable discussion at the time and before that as to whether the solicitor was elected for two years or whether his term of office extended from year to year and was to be filled at the end of one year's service. The first year of Mr. Buchanan's term will expire on May 1, the end of the fiscal year.

Friends of Mr. Buchanan insist that it was for political reasons that his successor was chosen before his resignation was in the hands of the mayor and those in touch with the situation say the action of the board in electing a man to succeed the incumbent under such circumstances foreshadows the tense contest that is to be waged for mayor one year hence.

Mr. W. R. Camp, chief of the di vision of markets of the North Carolina agricultural experiment station, is sending out the following letter relative to a survey of the fruit and trucking industry in this state, which will be read with interest:

sent blanks upon request. This is an opportunity for all interested in the prosperity of the truck and fruit industry to co-operate with us in securing those facts which will enable us to see where and how we may best help the growers organize a more effective system of marketing. A complete list of the growers and their acreage in 1914 and 1006 of the crops shown in the en closed blank will enable us to see the prosperity or decline of this indusry in your community. Space is left in each blank for each grower to specify the cause of the increase or decrease of his acreage. The statement of the total acreage in other crops will make plain whether truck and fruit are the main crops or not. A few questions are asked to bring out the present methods of marketing as compared to those of 1906. The answer to these questions will make clear whether the growers have ceased to receive mail orders from dis tant buyers or whether they are largely selling to local buyers, who are either representatives of distant ouyers or local merchants. The answer to the question as to the total amount shipped from your shipping point can only be obtained through the co-operation of your local freight

Enhanced By Perfect Physical Health.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes (31) once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.
