NATIONAL TUBERCULOSIS ASSO. MEETS

By Associated Press.

Washington, May 7.—The work of the National Association for the Prevention of Tuberculosis, which was begun just ten years ago was reviewed at the opening session of the tenth annual meeting of the association here today.

Dr. Charles J. Hatfield, of Philadelphia, one of the directors, reported that after ten years work there are over 2,500 anti-tuberculosis agencies now well established as compared with less than 150 such agencies in 1905.

The agencies today include 550 tuberculosis sanatoria and hospitals, 410 dispensaries, nearly 1,200 anti-tuberculosis associations, and 250 open air schools and fresh air classes.

Relieves Bladder Distress and Weakness

Painful bladder weaknesses and irregular, sleep-disturbing action soon disappear when the kidneys are strong and healthfully active. Take Foley Kidney Pills for that burning, scalding sensation---irregular, painful action---heavy, sore feeling and distress. You will soon be rid of the irritating acids that inflame and scald the bladder, and will like the prompt tonic and restorative effect---the quick relief from pain and distress and decided good results. No others work so well and so quickly. Bowen Drug Store.

es. Besides, a considerable number of boards of health and other agencies are taking an active part in this campaign.

"While the National Association cannot lay claim to the organization of each and every individual piece of anti-tuberculosis work developed during these years," says the report, "it is probably no exaggeration to say that at least a great part of this movement has been stimulated directly by our association. It is, therefore, significant to you, who are members of the association to note that while the entire budget of the national office for this period has been only \$200,000, federal, state and local anti-tuberculosis agencies, both public and private, have expended during this same period practically \$100,000,000."

Dr. Hatfield also reported upon the Red Cross Christmas Seal sale for last year and estimated that when all the returns are in, the aggregate sale will reach more than 43,000,000 seals, a gain of 10 per cent over 1912. Plans for the sale next fall have already been perfected and the printing of the seals will soon be begun. Some of the most significant developments of new work during the past year have been in the states of South Carolina, Oklahoma and South Dakota. In all of these states the new activities have been stimulated by the sale of Red Cross Seals.

If time is money, when a fellow doesn't make money it may be because he hasn't time.

There isn't anything much more uncertain than the man who is always dead sure he is right.

Don't despise the little things. A microbe isn't as big as an elephant, but it can generally make more trouble.

NEWS BUDGET FROM STATE'S CAPITAL CITY

Special to The News.

Raleigh, May 7.—Commissioner of Agriculture W. A. Graham says that the weather conditions just now are ideal for the development of the wheat crop in North Carolina, and that the outlook now is for as fine a yield as the state has ever had. Major Graham says, too, that the farm work generally is now well advanced. The cotton crop and the corn crop is about all in in many sections, although, there are sections where the low land set aside for land is not planted. Corn and cotton are both coming up nicely in cases where the seeding was early enough for the germination to be that far advanced.

Poe To Speak in Memphis.
Mr. Clarence Poe, editor of the Progressive Farmer, has accepted an invitation to deliver an address before the Southern Sociological Conference at Memphis, Tenn., next week, on "Developing the Community Spirit in Rural Sections." He will also make a number of commencement addresses this month as follows: Lillington, May 11; Smithfield, May 15; Wakenon, May 21; Winston-Salem, May 29.

At Work On State House.
Workmen began today the task of renewing the steaming pipes throughout the state house for the heating system.

This is a part of the old contract for the establishment of a new central heating plant for all the state buildings and the renewal of the equipment in buildings where the old equipment was not up to an acceptable standard for good and economical service. The central heating plant has been completed for three or four months and did service during the later part of the winter and early spring.

The exterior work on the remodeling and enlargement of the government building here is about completed except for the cleaning of the old stone on the front of the building to harmonize with the new stone that had to be used. The other outside walls are about all cleaned and look like new stone. It will require a year probably to get the building ready for re-occupancy. The improvements are costing upwards of \$250,000.

Pardon Granted.
Henry Reed, of Catawba county, gets a pardon from Governor Craig from the remainder of a two-years' sentence on the Gaston county roads for assault with deadly weapon, having already served much the greater portion of the sentence. The pardon is on condition that he remain law-abiding. Several physicians certify that the prisoner has a well-developed case of pellagra and that his presence in the convict camp is endangering the health of the other convicts. He has served 13 months of his two-years' sentence.

Graham County Superintendent.
The Graham county authorities report to the state department of education that J. H. Moody has been elected superintendent of the public schools of the county to succeed T. A. Carpenter, deceased. State Superintendent Joyner expresses regret that Graham county did not take up the matter of consolidating the superintendency for that county with one or another of the adjacent counties with a view to having one superintendent devote his entire time to the work instead of continuing a superintendency exclusively for Graham with only a small and necessarily ineffective amount of time devoted to the actual supervision and improvement of the public schools.

Dr. Joyner says such a consolidation of superintendency has been effected in Washington and Tyrrell counties and is working finely and he believes that the plan can be worked out to the mutual advantage of the counties so consolidating in many more cases as in every part of the state where there are contiguous small and weak counties.

The Insurance Investigation.
It is learned that the special legislative commission for the investigation of the conduct of fire insurance companies in North Carolina will be resumed here on June 11th, the desire of the commission being to complete the taking of evidence at this sitting. There have already been two sessions of several days duration here and much evidence has been taken. State Senator Bryant, of Durham, is chairman of the insurance commission and the law firm of Manning & Kitchin is counsel for the state in bringing evidence before the commission and conducting the examinations.

Charters Issued.
Three new charters were issued today as follows: The First Congregational Church (Inc.), of Albemarle, chartered without capital by Moses C. Dry and others

for general Christian effort. The Granville Pharmacy (Inc.), of Creedmeer, Granville county, capital \$5,000 authorized and \$5,000 subscribed by L. V. Peace and others.

Person Good Roads Campaign.
Dr. Joseph Hyde Pratt, state geologist, spent the past week in Person county helping in the campaign for the \$15,000 bond issue for Person that is to be voted on May 12th. He says there is every indication now that the measure will go through all right and that the people are being thoroughly aroused to the importance of the construction and maintenance of good roads. Numbers of other counties are taking forward steps in this direction and the calls made on him for engineering in laying out and constructing standard highways is steadily on the increase and far in advance of his means of supplying the demand.

INDIGESTION? CAN'T EAT? NO APPETITE?
A treatment of Electric Bitters increases your appetite; stops indigestion; you can eat everything. A real spring tonic for liver, kidney and stomach troubles. Cleanses your whole system and you feel fine. Electric Bitters did more for Mr. T. D. Peeble's stomach troubles than any medicine he ever tried. Get a bottle today. 50c and \$1.00 at your druggist. Bucklen's Arnica Salve for Eczema.

"Oh! I just love animals," cried the enthusiastic girl. "Perhaps you have noticed that I am a little hoarse," insinuated the young man who had a cold.

DEATHS

Mr. George Dawson Heath, Special to The News, Chester, S. C., May 7.—George Dawson Heath died yesterday at his home on Wylie street at the age of 68 years, following several weeks illness. The funeral services were held today at Bethel M. E. church by the pastor, Rev. J. C. Roper and the interment was made at Evergreen cemetery.

Mr. Heath is survived by two daughters, Mrs. L. H. Melton and Miss Berta When Heath and one son, Dr. G. D. Heath.

No, Maude, dear; an athlete doesn't have to be especially clumsy to break a record.
