

# Times, They Are A' Changing....

by mike mcculley

**Lead Leaders....** women use charge accounts on the spree of the moment.... next week, food buffs, SAGA will offer your choice of Chicken Grease (called Greece) or Braised Beef Stake (called steak). More dum-dum for your tum-tum.... the attempt to establish a Sexual Freedom League branch at UNCC has failed. An organizer said he attributed the demise of the fledgling branch to a "lack of group participation." Somebody is a dirty old man....

**Another "Me-Too" Drug....** EVERYBODY'S MONEY (Spring '70), a consumer guide, has exposed another sham in the drug business. A new analgesic-stimulant (translation: pain-reliever plus pick-me-up) is on the market promising, in \$3 million worth of advertising, that it "helps soothe away headaches; brightens your spirits; lifts your mood." It'll lift your money too, says E. M. For more than 4c a piece, they're offering tablets consisting of aspirin and caffeine. I'll stick with Bayer and a cup of coffee myself....

**Hindsight....** a slight correction about those unmentionables in Sanford Hall: they don't wear panties still, but they do throw 'em.... actually, it was nice to see there's life in Moore boys after all, but sorry 'bout that one fella's broken toe. Hope it was worth it....

**Confetti....** no advice is all bad. Even a broken watch has the right

time twice a day.... Remarkd Tom Edison on his phonograph invention: "God invented the talking machine. I only invented the first one that can be shut off."

**Musical Messages....** a new group releasing an album on April 15 for Roulette is MorganMasonDowns and one-third is local boy, Joe Mason. Their sounds are mellow, folk-like and soft; MMD should be big.... Reminder: Don't miss this weekend's UNCC Folk Festival; everybody and their bird will be there....

**Tower Topics....** suggestion overheard for the Belk Tower that didn't make it into the suggestion box: Play on the bells "Belk In The Sky" and see what the spirit says; or, make picture postcards and ship them to Borneo and Africa for use in fertility rites. The symbolism should do the trick.... Most-oft asked question: What's it good for?.... Least-oft asked question: Who built that thing?.... Some enterprising brave soul will certainly scale the tower in the days ahead and place a sign at the top or some such memorable action. Some things are inevitable....

**A Life In The Day Of....** Overheard two coeds, as usual, discussing men. One stated, "Men are all alike." The other coed, from the deep South, replied, "Men are all Ah like too.".... After Apollo XIII, it's clear if man were meant to fly he'd been born with wings.... divorce is just an expensive method of birth control.... What if "Midnight Cowboy" had been titled "Nighttime Horserider?" Not the same thought, is it?....

**Sign of the Times....** remarked a noted fashion observer: "The lingerie business is fairly stable. Women are wearing the same thing in brassieres this year."....

**Tid Bits To Dawdle Wits With....** Before a woman says "I do" she often says "I won't." After she says "I do," she has a headache....

**American Section....** Governor Maddox, your ax handles are ready.... Martha Mitchell, your mouthwash is ready... Judge Blackmun, your number is up....

**Incidental Intelligence, Campus Division....** a group of UNCC students are planning to revive the old practice of seeing how many they can stuff into a telephone booth. The problem? How do you stuff people into a wall phone? That's all we got out here....

**Pollution Particles....** R. Dumalski, Jr.: "When I was in Los Angeles recently, the air pollution was so thick I saw kids building a smog man."....

**Parting....** a girl should not look expectant if she wants to get married.... do you call refusing a gay proposal a mansion?.... Toddles, gang
