

Second Spring Election Results

Second Spring elections were held April 9&10. As a result, 21 persons were elected to seats on Student Legislature and the University Program Board. Additionally, a runoff is scheduled to be held for one Legislature seat for a representative to the College of Social and Behavioral Sciences. In the runoff are C. W. McIver and Robert Roberts. The runoff should be held sometime this week.

Selected as At-Large Members to the University

Program Board were Ian Larlee and Bob Williams.

Commuter representatives to Student Legislature are Kat Braswell, Mike Hewat, Wendy Mole, and Becky Wackerhagen.

The following students were elected as college representatives next year: Jim Guess (Architecture), Bill Keith (Economics and Business Administration), Perry Myers (Economics and Business Administration), Roy Washam (Engineering), Cleve H. Cox (Humanities), Greg Davis

—by terry fulbright
(Humanities), Tim Luckadoo (Humanities), Elizabeth Edwards (Science and Mathematics), Rick Martinez (Science and Mathematics), Rickey Pharr (Social and Behavioral Sciences), Jerry Proctor (Social and Behavioral Sciences), and Carolyn Annette Walker (Social and Behavioral Sciences).

Next year's class Presidents are: Senior, David Holloway; Junior, Debbie Springs; and Sophomore, Scott Simmons.

UNCC's Concrete Canoe

winner of Engineering Award

What is lighter than water, holds two people and wins UNCC their first technical competition with other major schools in the Southeast? It's the UNCC's Engineering department's concrete canoe.

Racing on April 5 at McGregor Downs in Raleigh, UNCC won the Engineering Design award given by the American concrete Institute which is the award for overall engineering excellence in design and construction, and the American Society of Testing Materials Award which awarded them the Team Trophy inscribed with "Southeastern Regional Concrete Canoe Race Team Champion".

Competing against such schools as North Carolina State University, Georgia Tech, Clemson, VMI, and UPI, UNCC entered one boat in three races.

In the first competition which was a sprint race, UNCC entered two heats. In the first heat, David Grey and Johnny Graham had problems and didn't place. In the second heat, Bill Crowder and Ricky Deese

placed third in the heat.

In the second race, which was the faculty race, Dr. David Bayer and Mr. Richard Pinkney were again rammed and sunk by Clemson, causing extensive damage to the boat. Repairs were made in time for the third race.

The third race also consisted of two boats and was a slalom race. Racing against the clock, Ricky Deese and Bill Crowder came in first in the heat and first in the best time and David Grey and Johnny Graham came in first in the heat and third in the time.

Being awarded points in every race, UNCC acquired more points than any other school, thus having the highest overall point count.

Dr. David Bayer, advisor for the club said, "I'm excited about our winning. Entering a competition against reputable engineering schools and winning has raised our status as a good school of engineering considerably". Bill Crowder, one of the winning participants said, "It's the very first boat

ever engineered here and for that reason, we didn't feel we could win the race itself, but felt we had a good chance for the Design Award".

The boat is made of a special lightweight concrete mix that the students themselves,

developed. It is about 1/3 the weight of normal concrete.

The total cost of construction was about \$200. The Student Government allotted \$100 to go for construction and a lot of the materials were donated.

IEEE host of

Southeastcon conference

On April 7-8, 1975 the Student Branch of the IEEE was the host school for the annual Student Conference at Southeastcon '75, held this year at the Sheraton Hotel in Charlotte. The attendance was 149 students from 29 different colleges and universities. The activities included a presentation of technical papers. First prize and a cash award of \$200 went to Tom Guy and Bill Keyes from Christian Brothers University for their paper "The Design and Construction

of a Digital Wattmeter". Second place and a cash award of \$100 went to Theodore Spangenberg, Jr. of Auburn for his paper "A Review of Fundamental Hysteresis Loop Theory". Third place and a cash award of \$50 went to Dan Stencil from Tennessee Technological University for his paper "Reception and Processing of Weather Satellite Picture Data". A cash award of \$50 went to Florida Atlantic University for the man-mile competition. On Monday April 7 a "Casino

party" was held in the basement of Dorm '73 which was attended by approximately 120 people.

The student Conference was a part of Southeastcon '75, an annual conference held in Region 3 covering an area of nine states in conjunction with, for this year, the Charlotte Section of The Institute of Electrical and Electronics Engineers, Inc. Next year Southeastcon '76 will be held at Clemson University.

Attorney General resigns

—by terry fulbright

The Student Legislature meeting of April 8 recognized several students for outstanding achievements, saw the swearing in of next year's Student Body President and Vice-President, and considered the impeachment hearing of Attorney General David Sturgis.

In an abbreviated business meeting, Jamie Stemple was sworn in as the next Student Body President by outgoing President E. D. Hendricks. The new Vice-President, Davis Trotter, was sworn into office by the outgoing Vice-President, D. J. Hall.

The Legislature also announced winners of several awards. Pamela Jean Kidder received the Hugh McEniry Award, which recognized the graduating senior who attended
