

Coming of age through introduction to philosophy

(continued from page 9)
As history advanced beyond the Golden Age of Greece, different philosophers, or their extensions, came into existence. It has been said everyone has a right to his own philosophy. Epicurus said, "Let no one when young delay to study philosophy nor

when he is old grow weary of his study... We must then meditate on the things that make our happiness seeing that when it is with us we have all but when absent we do all to win it."
A modern day philosophy is known as existentialism which was advanced by Jean Paul

Sartre. It holds each man exists in a purposeless world and he must oppose his hostile environment through the exercise of his free will.
Philosophy is a way of looking at the world and the philosophically astute person is equipped to try philosophies on until he has found one

which fits him.
Philosophy to our class was a mental stimulant. It caused us to think. Kant said the good life is doing your duty. It is our duty to do things that are right. It must underlie our relationship to all human beings. Thus ethics, which means doing the right

and good thing, is a part of philosophy.
Our class learned that, as a nation, our philosophy may be hidden but if we are to maintain our

freedom and our moral authority in the world, it is essential we become aware of the nature of philosophy and the social power it is.

Wet Willie coming for Jam-Up

(continued from page 8)
Boys, Grand Funk Railroad, Frank Zappa, Bad Company, Lou Reed, the Grateful Dead, Sha Na Na and the Spinners.
Manorisms, their latest album, is, to borrow a phrase, a "slightly more sophisticated monster" than the Wet Willie albums of the past. The music remains characterized by the feel and strength of the vocals, but the 10 songs

on the album depart from the "stomp stuff" of earlier years toward more melodic material.
It's more the burgundys than the blues, say the Willies.
During the Jam-Up Festival the Loco-Motion Circus will perform between scheduled bands.
Their repertoire includes accordian accompaniment to the juggl-

ing of flaming torches, balls, boxes, as well as to Chaplinesque slapstick comedy drama; Mechanical Man Mime sketches; two and three man Adagio Hand-body balancing and acrobatics; a display of a choreographed unicycle ballet; pratfall clowning; comedy, and a message of health.
The Loco-Motion Circus appeared on ABC's

"Wide World of Sports" Saturday night special from the Montreal 1976 Olympics.
Their high velocity show is educational and fascinating with the variety of characters, props and comedic movements.
More information on the scheduled events for Jam-Up will be announced as soon as UPB finalizes arrangements.

Planned Parenthood. We give help. Not sermons.

One thing you'll never hear at Planned Parenthood is a sermon on sexual behavior.
What you will hear are some straight answers to any questions you may have about sex. And some ready solutions to your problems, including abortion service in our own clinic for women under 12 weeks pregnant.
We also provide free pregnancy testing and counseling.
We can help you with birth control methods.
And we can tell you where to go for pre-natal care and adoption services, infertility problems, female sterilization and VD. treatment.
But we don't preach.
At Planned Parenthood we can help you in a lot of different ways. And the way we figure it, sparing you a sermon is one of them.
