

The CC student council for 1961-62. Left to right they are: Johnny Sayers, Bill Ferguson, Jeannie Glasgow and Francis Cline.

4 STUDENTS ATTEND MODEL UN MEETING

By D. M. Truax

The North Carolina United Nations Model General Assembly was held at Duke University, Durham, North Carolina, February 24 and 25.

Forty of the world's nations were represented by colleges and universities from North and South Carolina, Virginia, Maryland, Tennessee, New York, Massachusetts, West Virginia and Colorado. These schools are in the middle south region of the collegiate council for the united nations except for four guest schools which were the Air Force Academy, the Naval Academy, the United States Military Academy, and Boston College.

Charlotte College's "Ethiopian" delegation was chaired by John Cochran, and its other members were Phil Helms, Reggie York, and Dave Truax.

Each delegate attended one of five committees where topics were discussed and resolved if possible.

The delegates were addressed by Ireland's permanent ambassador to the United Nations, Ambassador Boland, who is president of the General Assembly at this time. He spoke on the function of the U.N. in the ever increasing turmoil of the nations of the world.

Dr. Arthur Larson, head of the World Law Center at Duke University, and former head of the United States Information Agency, spoke on the idea of solving world disputes by legal means; this idea is receiving more and more support throughout the world, and the institution at Duke is but a beginning in furthering this type of arbitration.

Resolutions that were resolved in the committees were brought before the model general assembly and debated on the final day. This was followed by a business meeting which ended the assembly.

Phi Theta Kappa Paints Owl's Roost

By Jim Cornell

Iota Lambda chapter of Phi Theta Kappa, Greek letter national honor society, recently completed its spring quarter project of painting the Owl's Roost. Two coats of paint were applied during the renovation, and two full Saturdays were required to finish the job.

Jim Sexton, Gay Porter, Jim Cornell, Bob Barbee, Frank Harkney, Fitzhugh Austin and Paul Shinn contributed to the success of the project. Howard Payne not only painted both Saturdays but also worked several other mornings on the finishing touches.

After the first Saturday's painting period, the members traveled to Kings Mountain Military Park for a steak cook-out. Thirty-five-degree temperature and rainy winds blowing through an open shelter did not dampen the club's spirit. Thick, charcoaled steaks were prepared by Jim Sexton, the chief cook and bottle washer, while the rest of the cold, wet and paint-besattered group visited the park museum.

The cook-out was a big success.

Alumni Review

By Jeannie Glasgow

Ann Sawyer, a student of Charlotte College during the period it was an extension of the University of North Carolina, has been acclaimed a statewide winner of the 1961 North Carolina School Bell Awards "for outstanding service in the interpretation of education."

The award was presented by the North Carolina Education Association to Miss Sawyer "for a series of articles interpreting the programs of the public schools, with special recognition for the article 'Science — From the Bottom Up.'"

A member of the Charlotte News staff since 1950, Miss Sawyer has also won national recognition for her writing in the education field: she won first place in the Education Writers Association's contest for local education reporting in 1959 and was invited to tour the Soviet Union in 1960 with members of the Comparative Education Society.

Her series of articles on Soviet education was published in major newspapers throughout the United States.

Evelyn Faires, CC graduate with the class of '60, has been named to the Queens College Dean's list for the first semester of this year.

While attending CC, Miss Faires worked in the college library and was active in the French Club.

Edward J. Silber, CC class of '60, has been named the most outstanding DeMolay in North Carolina by International Supreme Council, Order of DeMolay.

The honor will bring the Distinguished Service Medal.

While attending Charlotte College, Edward was vice-president of the sophomore class and a member of Phi Theta Kappa, Sigma Tau Sigma and the Science Club.

He was on the Dean's list for four quarters, was commencement chief marshal, and was selected for a Morehead Scholarship to the University of North Carolina, where he is now a student.

Car-Wash Scheduled

Phi Theta Kappa will conduct a car-wash between 8 A. M. and 6 P. M. Saturday May 20 behind the Central Education Building and the CC wing.

The price will be \$1.00, and proceeds of the car-wash will be used to finance a Phi Theta Kappa scholarship at CC for the 1961-62 school year.

CC Students Attend Conference At Duke

By Chris Collins

Bill Ferguson, Johnny Sayers, James Ratchford, and Chris Collins were CC delegates at the Spring Regional Conference of the United States National Student Association. The conference for the Carolinas-Virginia Region of USNSA was held April 14, 15, and 16 at Duke University. The CC delegation left on Friday the 14th and returned on Sunday. The trip was sponsored by the Student Council.

The main feature of the conference was the workshops which were held on Saturday. The workshops included a wide range of subjects which were of special interest to student government leaders. Typical topics were "campus programming" and "editorial affairs." The workshops offered the delegates a medium for exchange of ideas and for discussion of problems faced by modern colleges.

An added feature was the showing of "Operation Abolition" a movie of the demonstrations of students in Los Angeles against the Un-American Activities Committee. After the movie, Fulton Lewis III gave a speech about the committee's work. A question and answer period followed.

The conference was climaxed with the election of regional officers. Regional officers consist of Chairman, Vice Chairman, International Affairs Vice Chairman, National Affairs Vice Chairman, and Treasurer. Officers serve for one year. The number of votes which a member college may cast in a regional election is based upon its enrollment. Charlotte College was allowed two votes.

Faculty News

By Gay Porter

Miss Cone is bubbling with happiness over two recent college successes.

First, all the furniture for the new college campus is being bought through the state office of purchasing and contracting. This means a saving of about 30 per cent on all movable furniture, library, and laboratory equipment.

Second, a new community sanitary district is to be created where the new college is to be built. The district will take its name from the college and will connect with city water lines, thus cutting expense on this important item.

Mr. Darholt has accepted the job of Construction Supervisor of the new campus on behalf of the college. Anyone wishing to know how the work is progressing may contact him.

Dr. Macy attended a two-day conference of professors of Modern Languages at Georgetown University, Washington, D. C., recently. This summer Professor Macy will teach a course in French Civilization at Appalachian State Teachers College.

Miss Denny and Miss Fore are looking forward to their tour of England this summer. They and Mr. Corky will be flying to London on a plane chartered by the English Speaking Union. Miss Denny and Miss Fore plan to tour the British Isles by car. Mr. Corky will visit his sister in England before flying to Ireland.

Mr. E. B. Barton, CC instructor in electrical engineering, has been promoted to assistant supervisor of production and transmission meters in the Duke Power Company.

CC Student Is Deceased

James Andrew Cherry, Jr., enrolled at CC for the past winter quarter to study science and Math 7. He did not return for the spring quarter — he passed away in a local hospital on January 27.

Better known to his classmates as "Jimmy", this 27-year-old member of our freshman class lived in Mount Holly with his wife Patsy. He spent his days working in the laboratory of Charlotte Southern Dye Stuff Company and his evenings at lectures and lab periods in "Pop" Norman's chemistry class.

On the questionnaire for students taking Chemistry 1 and 2, he said that he was taking chemistry "for work." Chemistry was his work, and he wanted it to be his profession for life.

"Jimmy was very interested in chemistry and always led the class discussions," said Mr. Norman. "He was an excellent chemistry student and a very pleasant and likable person."

His classmates and instructors will remember and miss him.

Sigma Tau Sigma To Hold Banquet

By Martha Moore

The Charlotte chapter of Sigma Tau Sigma, Greek letter national honor society, will hold its annual banquet in May to initiate new members.

Robert Lee Blackwelder, president of the local chapter, says that the banquet program will include a guest speaker and that new officers will be elected at a business meeting following the evening's entertainment.

Sigma Tau Sigma, signifying the ideals of scholarship, truth and service, is the national honor society dedicated to recognition of excellence in social science studies. Invitations to membership are extended to freshman and sophomore students who have taken ten quarter hours in social science and have attained a grade average of "B" or better.

During this school year, the chapter has sponsored a used book drive to collect books for schools in various countries of Asia.

Guest speakers at the society's meetings this year have included Ralph Clontz, Jr., former F. B. I. undercover agent, who spoke on "Communism in America," and Dr. Marvin Lymberis, Charlotte Eye, Ear and Throat Hospital physician and native of Louisiana, who reviewed the political career and philosophy of the late Governor Huey P. Long.

Electrical Engineering Units Purchased

By Robert Moore

The electrical engineering department recently purchased nine power supply units at a cost of over \$2,000. The units will be mounted on tables in the new college and will be used for all electrical engineering courses.

The new units offer continuously variable AC and DC current and include meters for measuring voltages up to 250 volts.

The college ordered the following items added to the units: independent ground, coaxial jack, connector for unidentified current, TV antenna jack and six 110 volt convenience outlets.

Each unit operates independently of the others, and each has its own protective circuit breakers.

Coeds meet at the Owl's Roost for lunch. Left to right they are: Ann Settlemyre, Kay Combs and Judy Gable. Mrs. Bailey, manager of the lunch concession, is behind the counter.
