

FOR ALL COMMUNICATIONS RECEIVED... CHARGED FIVE CENTS A LINE.

LOCAL AFFAIRS.

Rain, rain, rain. The oyster season. Enjoy it. The farmers are turning stubble.

Thanks to Gen. Jos. Wheeler M. C. for public documents. Col. James W. Long announced off a town lot Monday noon.

The colored detective who worked up the attempted railroad wrecking case deserves a compliment. Mr. G. M. Lore, of the firm of Hoover, Lore & Co., is now in the Northern markets in the interest of that popular firm.

Crawford Walter has several houses and lots near Cannon's new factory, for rent or for sale cheap. Call and see him. Mr. Jas. K. Deaton sold one bale of pretty cotton Wednesday, for 10 cents per pound.

Mr. N. F. York, of our leading hardware firm, is now in the Northern markets purchasing a full line of hardware for the fall season. Messrs Cannon's and Fetzer have been forced to extend the shelving of their shoe department to the ceiling.

Two hundred and eighty-two old soldiers enrolled, and Esq. Wilford wants all the rest to come up and sign. Married, at the residence of the bride's father, Mr. Lee Winecoff, Mr. Misener, son of George Misener, to Miss Winecoff.

The Messrs. Sappenfield's presented THE STANDARD with some of the best and purest crab apple cider on the market, and we return thanks. By the Charlotte Chronicle we see that two of Cabarrus' lad-colored boys—viz, Zeb Harris and Bud Gibson are in limbo.

The population of Concord is ever on the increase. Fifteen new comers in ten days, and it is said that there will be several arrivals in another few weeks. We have to thank our old war comrade, John A. Smith, for some great big red apples.

One of our county men was up before Esq. Wilford Tuesday on the charge of disturbing public worship. The "squire" adjudged him "not guilty" and the originator of the "frivolous prosecution" was made to pay the cost.

Stanly county surely must be a regular poultry yard. There is not a day passes but Concord gets a wagon load of chickens from that county. The truth of the matter is Concord is indebted to Stanly for lots of good grub.

Messrs Yorke & Wadsworth, with an eye to the chilly days of autumn and the colder days of winter, have just unloaded a whole car-load of stoves, and they say they will unload them on a low tariff principle.

Preparations are being made to put an additional room to Concord Female Seminary. Our authority for this local is good. We hope in a few years to see this Institution taking a lead among our seminaries.

Mr. Henderson Deal says he don't like Cabarrus to get too far ahead of South Rowan, so he has brought us an apple tree stem that has eight big apples stuck around it in a space of five inches, and this is the first year the tree has borne.

Yesterday was the rainiest, wettest, gloomiest day we have seen in months. Everybody stayed indoors; the streets were deserted; business was at a stand still, and our merchants were "down in the mouth."

The Charlotte signal man's predicted storm was a day late, but it came "all the same." Whenever an old building is torn down in Concord, the relic hunters are on hand.

Have you ever noticed that since we have had the "no fence law" the butter yield has doubled; the cows are finer, fatter and more valuable; and, although butter has dropped from 30 to 20 cents per pound, the farmer's income from one cow is greater than formerly.

Mr. T. Walker, the poor lost "writer" of the third party, probably forgot to take his medicine with him to Albemarle. No doubt the \$1,000 candidate got wet and cold and looked for a dose, that he no doubt takes, his issue to the contrary notwithstanding.

We have failed to get a full return of the Primary Democratic Conventions of each township. Next week we will be able to publish the full list of township executive committees, for the next two years.

Mr. Sanderlin arrived in Concord on the Wednesday afternoon train, and was driven to the St. James Hotel. The Democrats visited him at his rooms and gave him a cordial welcome.

Mr. W. F. Cannon, with his squad of hands, gave our road a good working Wednesday. Mr. C. is a good overseer. We have had an excellent season for the past few days.

A great many tops have been saved, but little or no fodder. The blustering wind split it up so badly that it is not worth gathering. On Friday night last a colored man killed four of the hogs in Mr. P. M. Morris' bottom corn.

Several young gentlemen from Concord were here on last Tuesday. Thirty-two is the number of pupils enrolled at our school now. We anticipate putting an organ into our Sunday school room soon.

A protracted meeting commenced at Kendall's (Baptist) church on last Saturday. Mrs. Palmer, of Palmersville, spent last Sunday with her father, John R. Ivy.

We had a fine rain on Sunday evening. It caused the feathers of many hats to fall. Almost the entire Sunday school, at this place, got lost on last Sunday, and did not get home until quite late.

Rev. Mr. Moore, now a student of Trinity College, preached at the Academy on last Sunday night. We think he possesses the elements of a man. Mr. Jack Ross has been confined to his room for several days with a lame back.

Political matters are beginning to get pretty warm in this section, but most all in this community are of the same mind. To the correspondent ("F") of the N. C. Herald, Salisbury, we are indebted for the Bileville notes.

FROM THE DIFFERENT TOWNSHIPS. Poplar Test Items. Cotton picking has begun. The time for hunting the "possum and coon" is at hand.

We are glad to chronicle the wedding of Mr. Lindsey Andrews to Miss Annie Holdbrooks. Mr. C. L. Whitler, of Mill Hill, reports that the mumps are impeding the manufacture of sorghum in that section.

Death of M. V. B. Gilbert. The last sad rites over the remains of the late Mr. M. V. B. Gilbert took place from the residence of W. M. Utley, Esq., at 5 o'clock yesterday afternoon, and was conducted by the Rev. J. T. Gibbs, pastor of Edenton street M. E. church.

One striking thing about Chicago is the number of idlers. They are inconceivably dirty, ill-smelling and repulsive. In every direction are the typical men of the city—pushing, surging, rushing and working. They rush like mad after a street car a block ahead, though there is one at their hand; they bound violently up to the third or fourth story of an office building, though, if they waited a minute, the elevator would get them there sooner.

The progress of the campaign develops the fact that Colonel Dokey relies entirely upon the great name of Henry Clay for argument and authority on the tariff question, and naturally enough, perhaps, for he "was reared a Henry Clay Whig" as he tells us in his letter of acceptance "and drank in Clay doctrines with his mother's milk" as he tells the people in his speeches wherever he goes.

Generally this was perhaps good enough raising and good enough diet, that is for most folks about that time, but somehow it don't seem to have agreed with "our Colonel Dokey," as his friends of the mercantile profession would say. Possibly he was overfed, for he has been a greedy body from his youth up.

Another child killed by the use of opiates given in the form of Soothing Syrup. Why mothers give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by using Acker's Baby Soother. It contains no Opium or Morphine. Sold by N. D. Fetzer.

The Democrats of Indiana have completed the polling of the State, and they are now satisfied that the State will go Democratic by 9,000 if something unforeseen does not occur between now and election.
