BUSINESS CAREER

THE SECOND MOVE FOR MORE ROOM HAS JUST BEEN MADE.

While standing at my desk

I lift my eyes and see 130 feet of shelving loaded with goods. It almost startles me, and puts me to thinking! What has brought such rapid growth. I remembered 20 months ago I was almost penniless, out of employment, and could not find any. Everything in Concord was said to be "over done." For ten months I looked for something to turn up; then it was bitterer than gall, now it is sweeter than honey. A great lesson. Wait not for something to turn up. but have the backbone to turn it up yourself. Although I had but \$17.47 left, I resolved to make one desperate plunge. Before me lay two roads, one to Annihilation, the other to Success. I resolved on the latter. I knew a few "thimble heads" would sneer at my stock of \$27.27 worth of notions (\$10 borrowed). My room was 8x12 feet. I laid down a few but firm rules-to sell for CASH only, at 25 per cent., and one price to all. I opened on the 2d day of April. '87, and in a day or two I had nothing to sell, and had set the people on fire with 10c. needles at 2c. Six months of

toil drove me from the "rattrap" to a house much larger, about 36x20 feet, where I expected to remain if I could afford to pay the rent, which only lacked \$42 of sizing my stock at that time. After four months I would have moved again had I not rented for 12 months. Determined to have room I rented one of Concord's best stores, which is 75 feet deep, and has a handsome glass front, known as the "old stand of Dove, Bost & Fink," one door above their present quarters. Goods at 25 per cent, Cash Down, drove me from my little 8x12 feet to 75x20 in less than 18 months. I challenge the credit system to surpass that if it can. I warn you to keep out of a system which taxes you to pay for the goods sold to the man who don't pay, and invite you to call over and see for yourself if the cash system of the Racket Store is not the
