THE GREAT FIGHT: WHAT IT SHOWS.

It is a sad commentary upon the boasted civilization of the nineteenth century, that so brutal an affair as the Sullivan-Kilrain fight should be allowed.

This shows a depraved condition among our people. Their tastes are becoming degraded, and their morals are losing that high tone of which we have boasted in the past.

The English royalty has been snubbed and it is such an unusual thing not to be submitted to slavishly that the royal house cannot understand it.

The North Carolina educational system has reached the point of perfection that calls for the application of money in large and liberal sums.

The Rocky Mountain Methodist analyzes habit in a very practical way. It says: "Habit" is hard to overcome. If you take off the first letter it does not change a bit.

We pile up words, words, words! We select extravagant nouns, modify them with extravagant adjectives; bolster these up with extravagant adverbs, until the thought fabric groans under the weight of a strained diction—our meaning is obscured in the weeds of rhetoric, and the point, if there is any, is "too utterly utter" and "excessively beyond" to be distinguishable among so much rubbish.—Oxford Orphan's Friend.

The idea that the child of labor should be educated only for labor may do for Europe, but it is a doctrine which every American should be slow to accept.

HORSEMEN!

Parker's Horse Detacher!

In offering to the public Parker's Detacher, we present an article that is good and durable, and which will be appreciated for the convenience and safety it furnishes all who drive. With the use of this detacher, labor is saved in hooking and unhooking horses besides the safety and assurance it gives against accidents and runaways and smash-ups, as the horse can be released from the vehicle instantly without the occupants moving out of their seats, and with no more effort than would be employed in lifting a two-pound weight.

SOME POINTS OF EXCELLENCE

It is invaluable in breaking young horses, or horses that are in the habit of running away, or horses that are usually kind and tractable under ordinary circumstances but nervous and excitable in noisy, crowded thoroughfares.

It is a saving of time and labor, and in many instances will save life and property. It invites inspection and investigation of this tree, and a practical test of all I claim for it.

CLIPPING FROM THE PRESS.

The Parker Manufacturing Company promises to be the biggest enterprise in Glasgow, and deservedly so, for their whiffletree is decidedly ahead of anything of the kind ever introduced in Glasgow (Ky.) Herald. For safety and convenience it surpasses anything we have yet seen.—Cave City (Ky.) Herald.

The following dialogue was overheard a few days ago: Little Boy—"Mamma, do good little boys go to heaven when they die?" Mamma—"Yes, my son." Little Boy—"Is there any candy in heaven?" Mamma—"Oh, no, my son." Little Boy—"Then I'm glad we've got such a good doctor."

Speaking of the doctor, our thoughts, by a very simple and easy transition, turn to the

DRUGGIST

The latter is frequently accused of charging too much. Like many other popular prejudices this one, as I shall now endeavor to show you, has very little foundation in fact. A man is suddenly, in the dead of night, attacked with hydrophobia, and his son gallops thirteen miles to the nearest drug store for an ounce of bromide of potash. In the hurry and excitement he forgets to bring his pocket-book, and he must either go back without the medicine or the druggist will have to CHARGE it. Again: William K. Vanderbilt stops over a day in our booming little town and, just before supper, walks into my store and, calling for a box of Rough on Rats, tenders a fifty thousand dollar check in payment therefor. It is past 4 o'clock and our bank is closed. What am I to do? Of course I have to CHARGE it, and yet I am blamed for charging too much! I write this in the interest of the drug trade of the whole country, and hope this injustice will never be done us again. In closing permit me to call your earnest and undivided attention to my stock of ELY'S TURN IP SEEDS and SCARR'S FRUIT POWDERS.
