It seems that not only the people of the country are moving to town, but we learn, on good authority, that the coons-including the two-legged variety-and the 'possums and the rabbits are coming too. It is said that more of these animals can be found near town than at a distance, and that their depredations are frequently seen here. We wish we were able to give the percentage of these animals that have moved in from the country, as we did the people recently.

Kind Words for Our Fair. The Cabarrus fair, we take great pleasure in saying, is one of the best held anywhere in the State. The county is one of the finest agricultural communities in North Carolina and the people unite to make their profitable. It is to be held this year October 1, 2, 3 and 4. Premiums are offered for nearly every article of household and mechanical manufacture, as well as agricultural produets, live stock, poultry and fancy work. There will be trotting and running races every day, addresses by prominent speakers, and attractions of various kinds. Special trains will be run from Charlotte on the 2d and 3d. It is to be hoped that Iredell will compete for some of the premiums, and in view of the fact that a special and businesslike invitation to attend the fair is extended to our folks by their Cabarrus neighbors, we trust that many of them will go over .- Statesville
