

THE STANDARD.

THURSDAY. - November 20, 1890.

JAMES P. COOK, EDITOR.

BREVARD E. HARRIS, CORRESPONDING EDITOR.

STANDARD NOTES.

To do unto others as they have done by you: Unsettled Tommy Reed. Everything has its day—the braying of J. J. Ingalls is nearing its chorus.

The Wilkesboro (N. C.) Chronicle announces that Pattison, Democrat, is elected Governor of Pennsylvania.

The Orphan's Friend is out in a new dress. Its editor, Miss Roundtree, has more than average knowledge in fashions. It is a daisy.

The Oxford Day affirms that there is a phrenologist in that city. Editor Kronheimer ought to have his bumps examined, so as to test the phrenologist's ability.

The propriety of women carrying deadly weapons is being discussed in the West. The burden of the argument seems in their favor: as they then can protect themselves against brutes.

Just watch them. Every day a new candidate for some legislative position bobs up serenely. The Standard wonders how many letters Representative Hileman has received asking for his support?

Governor Fowle will hold a new year's reception in the new Governor's mansion.—State Chronicle.

Joe Daniels is mistaken. North Carolina will not have a new Governor until January, 1893.

We didn't say we had the best looking paper in the State, but we are, like old wine, improving with age.—Miss Roundtree in Oxford Friend.

Will the lady please tell us which she means? Is it the paper or herself? In either case, we endorse the statement.

Mr. T. C. Millikan, late editor of the Randolph Herald, has taken charge of the Greensboro North State. The North State is a Republican newspaper, and by pursuing a conservative course has won the good will of many on the opposite side of the political fence.

What young lady is it in Greensboro that has such a pull on our handsome and gifted friend, Cook, of the Concord Standard. He comes up about twice a week and looks awfully ashamed about something.—Southern Democrat.

Col. Tipton ought to know better than to tell tales out of school. Within the last five months the editor has been in Greensboro three times: one time on his way to the great Raleigh Fair, the second time to take some children to see Barnum's animals, and the third time the editor pleads guilty of interviewing, in a business way, one of the brightest women in the State. Here is the evidence, Mr. Democrat, and you and your jury may retire to find a verdict accordingly. A single man has a hard time in this life.

INDIANS ON THE WAR PATH.

The Sioux Indians Arming and Leaving their Reservations—An Outbreak Expected.—The Settlers Alarmed.

Minneapolis, Nov. 17.—The Journal's Mandan, N. D., special says: Superintendent Green, at Riverside Ranch, whose ranch is between Mandan and the Sioux reservation, came in this morning, being alarmed at the behavior and sullenness of the Indians, who are coming north well armed and acting in an unfriendly manner. Today a number of Indians, armed with two guns each, and plenty of ammunition, passed through this town, presumably en route to stir up the Indians on reservations north. People are coming in from the south and begging citizens to stir up the authorities at Washington to act. Enough Indians are now travelling about this section to run off all cattle and kill half the settlers in the country.

A friendly Indian brings warning from the Sioux reservation. He says there is the greatest danger here and that the Indians propose to attack Fort Abraham Lincoln, knowing that there are but fifty soldiers there. Then they propose to capture Mandan and massacre the citizens and burn the town. The greatest alarm prevails among the people here. It is reported that the Indian police at Standing Rock have torn off their badges and revolted.

The Tribune's Mandan, N. D., Special Says:

Settlers living on the Sioux reservation bring stories of arming of Indians which are borne out by Joseph Brickley who speaks their language. Brickley came in today and says every Indian on the reservation will shortly go on the warpath and that they have got possession of Custer's rifles, which the United States army have never found. The local hardware men have, in the last few days, sold their entire stock of ammunition to Indians. The Indians say if they are unsuccessful in their raid they will get double rations and they have nothing to lose. Citizens here and settlers who are unprotected believe that Gen. Ruger and the Indian authorities are harboring a feeling of false security and that, when too late, the number of troops at Fort Lincoln will be increased.

A Close Call for the Messenger.

The Georgia train from Atlanta to Augusta pulled into the latter place Sunday just before the Charlotte train pulled out. The express messenger on the Georgia train got down from his car, and showed the railroad men a bullet hole in his cap, and a scalp wound on his head. It was the work of parties who had tried to rob the express car. The bullet entered the cap in front directly over the hand and plowed around one side of the messenger's head, making a severe wound. The would-be robbers escaped. This is the second attempt made to rob the express car on that road recently.—Charlotte News.

WOMAN'S TEMPLE.

Corner Stone Laid of a Most Noble Structure.

The corner stone of the Woman's Temple, which is being erected by the Woman's Christian Temperance Union, in Chicago, has been laid.

The building, when completed, is to be a superb structure in French Gothic style, costing \$1,100,000. It will be thirteen stories high, and from the center of the Gothic turrets will spring a final gold bronze seventy feet high, surmounted by the figure of a woman that stands with outstretched hands and upturned face as if in prayer. The finances of the undertaking are on a firm basis, as \$600,000 of the stock has been sold, and the remaining amount will be raised by bonds.

Johnstone Jones Elected.

Gen. Johnstone Jones, formerly of Asheville and now living in San Diego, California, has been elected district attorney by the democrats in his district. He received a majority of twenty-six, and the county in which he lives gave a republican majority of 1,000. This is a great victory for Gen. Jones, and his hosts of friends in Asheville will rejoice in it.

The daily San Diegoan, of the city in which he now lives, has the following complimentary paragraph about Gen. Jones:

"Gen. Johnstone Jones, democratic nominee for district attorney, combines every element that could commend one to the voters of the country. An eminent lawyer, a man of mature age and experience, who has all his life taken a prominent part in public affairs, and held such high and responsible positions as to give him a reputation which is national in its character and extent."—Asheville Citizen.

Parnell Guilty.

London, Nov. 17.—The trial of the O'Shea divorce case was resumed in the divorce court this morning before Justice Butt and a special jury.

The petitioner presented further evidence to prove charges that he makes against his wife and Parnell. The first witness called was a servant who had worked at the O'Shea house at Eltham at the time Captain O'Shea charges Mr. Parnell was having clandestine visits to his wife. She testifies that Mrs. O'Shea and Mr. Parnell were on one occasion locked in the drawing room. Mrs. O'Shea afterward explained that the locking of the door was essential to the safety of Mr. Parnell, as a number of members of secret societies were prowling about the vicinity. She also told witness to deny that Mr. Parnell had visited the house.

Another servant testifies that Mrs. O'Shea and Mr. Parnell were locked in a room until after midnight. This closed the evidence, and as neither respondent nor correspondent made defence, the case was given to the jury, who returned a verdict of adultery committed by Mrs. O'Shea and Mr. Parnell, and that there had been no connivance on the part of Captain O'Shea.

The court granted a decree of divorce to the petitioner, and also awarded him the custody of the younger children.

London, Nov. 17.—The O'Shea revelation overpowers all other topics and fully accounts, in public opinion, for the prolonged efforts made to put off the trial. The Daily Telegraph, which is said to have the largest circulation of any English newspaper, says Mr. Parnell must, for the present, at least, cease to lead the Irish national party.

On the other hand, the other Irish leaders are reluctant to depose Mr. Parnell except with his own consent. If he resigns the leadership, a commission headed by Mr. Justin McCarthy will take charge of Irish affairs.

P. T. Barnum III.

Bridgport, Conn., Nov. 17.—P. T. Barnum is believed to be on his death bed. Dr. Hubbard, who is attending Mr. Barnum, says his attack of influenza would be severe for one of the most robust constitutions, and for one of Mr. Barnum's advanced years it will seem marvellous if he recovers. He has not the necessary strength to recuperate, and his illness has certainly exhausted nearly all his remarkable vitality. Mr. Barnum has not been left alone a moment since the beginning of his illness.

Failed for \$1,000,000.

Boston, Nov. 15.—The Kansas City Packing and Chase Refrigerating Company and its two allied companies, the Kansas City Packing Company and the Cold Blast Transportation Company, have failed for \$1,000,000, and have made assignments for the benefit of the creditors to George E. Parker of this city, who is a director in the first named company.

Sam Jones' Brother Kills a Negro.

Chattanooga, Tenn., Nov. 15.—A special to the Times from Cartersville, Ga., says: Charles Jones, brother of Rev. Sam P. Jones, shot Jim Young, colored, three times on Main street this evening. Young died in twenty-five minutes. Jones is in jail.

Death of Mrs. Strong's Sister.

Mrs. Dr. J. P. Strong was called to Washington Wednesday, on account of the death of her sister, Miss Sallie Rixford. Miss Rixford had been an invalid for over two years, and several times during that period was considered in a dying condition. She was buried in Washington.—Charlotte Chronicle.

Elizabeth City Falcon: It is estimated that one hundred white men at this precinct voted for the negro representative. A conservative gentleman of our acquaintance has undertaken to get up a correct list of the names and has obtained the consent of the Falcon to print them on cards for distribution.

STATE NOTES.

Montgomery Vidette: Mr. T. L. Jenkins, through the efforts of our excellent Congressman, Hon. John S. Henderson, has secured an appointment to West Point.

State Chronicle: Dr. F. Searr, of Charlotte, made a very handsome contribution of chrysanthemums to the show, and they arrived and were on exhibition yesterday. The varieties he sent down were among the loveliest of the whole collection.

The Springfield (Mass.) Republican asks: "What has become of Foraker?" Foraker? Foraker? Seems to us we've heard that name before. Oh, yes; he invented a fire alarm system and worked it with his mouth.—Asheville Citizen.

Thomasville Orphanage has an attendance in charge of 127 children, of which 67 are girls and 56 boys. The orphanage is divided into five families of twenty-five children each and each has its own matron and teachers.—Greensboro Workman.

Winston is a live town and no mistake. A boy fell from the fifth story of Coleman Bros. new factory and was slightly injured. Frank Snipes has a three-legged pig. And it is said upon good authority that there will be no less than ten marriages in Winston-Salem before Xmas.—Greensboro Record.

A Weldon special says: Mrs. S. M. Lockhart, of this place, sold her splendid farm in Northampton county, known as the "Bell Place," yesterday to Senator M. W. Ransom for \$9,500. A good many surveys are being made in and around this place, and it is expected that some big deals in real estate will be made in a short time.

Durham Sun: The richest man in the world, if he lives to inherit his patrimony, will be the young Viscount Belgrave, grand-son of the Duke of Westminster. By the time he attains his majority, it is estimated that his income will be between \$10,000 and \$20,000 a day. We invite him to come over and help us run the Sun. With that amount we could get out a very nice little paper.

An old fashioned iron safe which the soldiers rolled out of Col. M. Fain's residence in the year 1865 for the purpose of opening and rifling the same of its contents is yet lying on the edge of the walk where the soldiers placed it. Their most skillful devices failed to effect an opening of the safe, and as it contains only a lot of state bank money, which is of no value, and a few other articles of no special consequence. Col. Fain has never opened since since it is 27 years in the street.—Murphy Bulletin.

Wilmington Messenger: The chrysanthemum show at Fifth and Market streets was again very well attended yesterday, and we are glad to learn that the ladies pronounce it a decided success financially. The show excited very great interest among lovers of flowers, and already there is a movement on foot to hold an annual chrysanthemum show to be open to exhibitors from this and adjoining States. It is proposed to hold the show at the City Hall and to offer prizes for the finest flowers and the best and largest displays, etc.

New Bern Journal: Rough joking which took place yesterday about noon near the foot of Bladen street between Wm. Ward of New Bern, and Wm. Foscoe of James City, led to a loss of temper and Foscoe knocked Ward insensible by a blow on the head with the tiller of the boat. Supposing Ward was dead Foscoe fled rapidly to the railroad bridge, over it and through James City, but partially retraced his steps and went to his home, where deputy Sheriff Barham captured him and he was lodged in jail. Ward recovered consciousness soon after and does not seem to have sustained any great injury.

Durham Sun: The old accounts kept in 1860 and '61 are peculiar reading to this generation. On Saturday, W. H. Meadows found, on McMannin street, a very delapidated account book, which appears to have been the property of John Groom, who was a harness maker. Many names appear in it which are familiar around Greensboro and Wentworth, and some of the parties have held high places in the affairs of the State. In 1862 we see that he sold beef at 55 cents a pound. On one of the accounts we see flour charged at \$20 a barrel. Other things were equally as high. The book is an interesting document of the past.

Chatham Record: There are no more patriotic or public spirited citizens of our State than the hard working and poorly-paid editors, who are always doing their utmost to promote the prosperity of our people, and in political campaigns and ever foremost in denouncing the people to do their duty. And while they do not engage in the unseemly scramble for office, but leave to others the spoils of the victories won by them, they do deserve and should receive the hearty and substantial support and encouragement of all citizens who desire good government. Is not this true? If it is, then see to it dear reader that you do your duty.

Newton Enterprise: We take our hat to Mecklenburg. Her Democratic majority for the Judicial ticket was an official count 2,380. This beats Calawaba by a considerable majority and entitles her to the banner. We are in favor of shipping it right off. It is true that the Republicans did not try much this year, and the late election was not a very good test of party strength, and furthermore there is some force in the argument of some that only Presidential years are counted in counting for the banner; but on one side of this much prized emblem of victory is inscribed, "Take it from us who can." It is a broad unrestricted challenge and believe we should comply with it without delay. Let the banner go to Mecklenburg, the home of Vance, for the next two years, and we will work all the harder to get it back in '92.

JIM JOHN'S REDDIE.

Of Fun and Common Sense—He Discusses Things in General, and Tells of the Experiences of a Fishing Expedition—The Duke and the Graduate.

Well, the boys just kept on worrying me about going fishing and then Mary's appetite began to crave fish till I concluded I would take the boys and go. It is about thirty miles from where we live to the river and its an awful rough road. Besides taking our fish hooks and something to eat, we took neighbor Smith and Balaam Daniels along, and they each had a wagon and horses and guns and dogs. We could not go all the way the first day, and so we had to camp on the road. We built a big log fire and fried our smoking and eating, and they ate one of the leaves that Mary made, and all of us were happy.— While we were sitting around the fire talking and telling yarns, the dogs began barking down in the woods close by, and we naturally thought they were after a 'possum. So we started down where they were, but before we got there the dogs 'tread,' and then we looked for the 'possum. We built a big log fire and fried our smoking and eating, and they ate one of the leaves that Mary made, and all of us were happy.— While we were sitting around the fire talking and telling yarns, the dogs began barking down in the woods close by, and we naturally thought they were after a 'possum. So we started down where they were, but before we got there the dogs 'tread,' and then we looked for the 'possum. We built a big log fire and fried our smoking and eating, and they ate one of the leaves that Mary made, and all of us were happy.—

Secretary Noble, accompanied by Mrs. Noble, arrived in the city from Lincoln to-day. They were met at the Carolina Central depot by Col. Wm. Johnson, Col. Wm. B. Myers, Postmaster Brady, Mr. J. L. Sims, Mr. Stuart Crum, Mr. Ed. McDonald, and Mr. W. H. Miller. The Secretary was escorted to the Buford Hotel, and left this afternoon for Washington City.

Secretary and Mrs. Noble have been spending a week at Lincolnton, resting and testing the virtues of the Lithia water. The Secretary was accompanied by Mr. Strong, a Washington friend, and the two had some good sport with dog and gun. The Secretary speaks of this section of the country in very favorable terms, and says that he highly enjoyed his stay at Lincolnton. He does not talk much politics, but seemed to be very much interested in Senator Vance's fate. "Senator Vance," he says, "has more influence in Congress than any Democrat in the South. I sincerely hope he will be returned."—Charlotte News.

The Oxford Friend wants some persimmon beer. The gallantry of the press ought to help Miss Roundtree. Don't let her suffer.

OBITUARY.

Died, in Concord, N. C., Sunday, November 10th, 1890, Mat N. V. daughter of Mr. and Mrs. R. Will Johnston, aged nine years.

This dear little girl possessed a very bright mind and lovely disposition. She was a ray of sunshine in that home now so dark without her. It is very hard to see a child die, but we feel sure "Jesus loved her." He has called this little one to His loving arms, and we know it is well with the child. God send the comfort to the sadly afflicted family, and bless this affliction to the good of every one of us.

From the group of little faces One is gone: In the old familiar places, Sad and lone, Father, mother, sister, brother, Sit and moan. Weep not when you tell the story Of the dead; 'Tis a sunbeam joined the glory Overhead! "For of such sweet ones is heaven," "Jesus said." Pastor.

You Are in a Bad Fix.

But we will cure you if you will pay us Our message is to the Weak, Nervous and Debilitated, who by Early Evil Habits, or Later Indiscretions, have tried every other remedy, and who suffer all those effects which lead to Premature Decay, Consumption, Epilepsy, etc. If this means you, send for and read our Book or LIVE, written by the greatest Specialist of the day, and sent, sealed, by addressing Dr. Parker's Medical and Surgical Institute, 153 North Spruce St., Nashville, Tenn.

THE BLOOD IS THE LIFE.

No portion of the human organism has, within the past few years, been subjected to more thorough and intelligent examination, by medical scientists, than the blood. The result of these investigations has been to clearly demonstrate that the general health is more dependent upon the condition of the blood than upon any other thing.

In making a diagnosis, some modern practitioners are not satisfied with merely determining the temperature of the blood; they test it by means of the microscope and other appliances, to ascertain if any foreign bodies have entered the system, and its minute corpuscles. Thus, for example, it has been found that in persons affected with gout, uric acid may always be detected in the blood; while the cause of other disorders has been traced to the presence of germs, or microbes.

GOULD IN CONTROL.

Of the Richmond Terminal by indicate of Roads.

New York, Nov. 17.—The Commercial Advertiser this afternoon says: "Among the changes going on in railway control, the latest that is clearly discernible, is the passing of the control of the Richmond Terminal to Jay Gould. He is understood to have said to some of his friends today, that he has secured enough of the stock of that company to control it.

The Richmond Terminal people were very reticent about the matter this morning. President Ulman declined to confirm the story, but refused to deny it. Others who know what is going on were less reserved, and while they refused to be quoted, said the fact was undeniable, and that Jay Gould had secured control of the Richmond Terminal.

Secretary Noble.

Secretary Noble, accompanied by Mrs. Noble, arrived in the city from Lincoln to-day. They were met at the Carolina Central depot by Col. Wm. Johnson, Col. Wm. B. Myers, Postmaster Brady, Mr. J. L. BAGGING AND TIES,

AND WE ARE DAILY RECEIVING MANY OTHER GOODS WHICH WE HAVE NOT THE SPACE TO MENTION.

Call and see us. We will take pleasure in showing you our goods and quoting you prices.

SWINK'S TARIFF LECTURE.

The sectional discrimination of the McKinley bill, as it now stands, is even more marked than was that of the Mills bill, to which we called attention in 1888. The three most important staples that are peculiarly Southern are cotton, sugar and rice. On the staples such as wool and iron, which are Northern as well as Southern, additional "protection is given by an increase of rates." We believe there is no decrease in rate on any important staples, other than rice and sugar. Cotton is on the free list, of course, as before, but the rate on cotton ties, made in and used in the South, is increased from 35 to 105 per cent, so that, in fact, each of these great staples of the South are discriminated against by the bill. They have agreed that machinery for the manufacture of beet sugar may be imported one year free of duty. When asked to admit machinery for the manufacture of cane into sugar and into molasses on same terms, they refused to do it. Clipping from The Voice.

Suppose you are able to elect a majority of the House of Representative who are in favor of a just tariff bill. It will take ten years to change the Senate, and you may never elect a President.

What must we do to get even in dollars and cents with the unjust discrimination of the tariff?

Encourage the manufacturers at home by buying their goods, the manufacture of which gives employment to the labor that buys the products of your farm.

I have just received a large lot of

Home-Made Pants and Home-Made Shoes,

made within 25 miles of Concord. Now, brethren, I beg of you to call and examine above goods, that you may see the products of our own manufactures, that you may reap some of the benefits and that I may reap some of the profits that accrue therefrom. Respectfully,

W. J. SWINK.
