The Standard is a hummer.

"THE BEST."

It is easy to say of anything, capacial ly of a medicine, that it is "the best"; but to show the reason of its superiority to the satisfaction of the public, may be quite another matter. When we affirm, however, that Ayer's Sarsaparilla is superior to any other blood medicine, we make no inconsiderate statement, but tell the plain, unvarnished truth. Other so-called blood-purifiers may pro-duce a temporary exhilaration, which is mistaken for cure; but the cures effected by taking Ayer's Sarsaparilla are radical and permanent. It not only purifies the blood, but renews and invigorates that fluid.

Ayer's Sarsaparilla has been in use for the better part of half a century, and has achieved a success which is without parallel in the history of medicine. People early learned to appreciate its value as a purifier of the blood, and the lapse of years has only confirmed and strengthened the popular opinion of its merits.

Only the choicest and most approved ingredients enter into the composition of Ayer's Sarsaparilla, and these are secured regardless of cost. It is on this principle that the Honduras arrasparilla root is exclusively used in this prepara-tion. The domestic variety is cheap and abundant, being indigenous all over the American continent, but it has little medicinal value compared with the richer growth of the tropics. Therefore it is that the extract of the Honduras root, solely, forms the basis of Ayer's preparation, the other ingredients being stillingia, podophyllum, yellow dock, and the iodides of potassiun and iron.

The effect produced by these ingredients depends largely upon the pro-portions used, and it is only by the greatest skill in compounding them that the remarkable alterative and tonic qualities of Ayer's Sarsaparilla are secured. The appliances of Ayar's laboratory are unique and costly, and experience shows that their use results in producing a compound extract of far more curative power than can be obtained by any other methods. This fact, together with the most attractive, liberal, and original methods of advertising, readily accounts for the world-wide reputation and enviable success of Ayer's Sarsaparilla.
