### THE GREAT HAIR-RESTORES.

The use of various unguents to dress beautify the hair is a custom as old and universal as the race; but prepara-tions to prevent the hair from falling out, or for restoring it to its original color and fullness, seem to be of modern origin and confined to the limits of the higher civilization. Probably the fatalistic and superstitions ideas of the nuclents and of most barbarous people would forbid their interfering with what seems to be the course of nature, in thinning the locks and sprinkling them with gray, as life advances toward the

The aucient Hebrew poetically termed white hair "a crown of glory," and so it is when it gracefully adorns the brows of the aged. But when a person in the full vigor of life becomes gray, his gray hair, so far from being a crown of glory. is rather an indication of weakness and premature decay. What may be ad-mired in "John Anderson, my Jo, John" at eighty, is to be deploted in John Anderson at thirty or forty. It has been observed that early hald-

J.

ne s is more common now than former-Whatever may be the cause of the early loss of hair, there are few but would avoid it if possible. Some attempt to conceal the loss of their hair by brushing wint is left over the vacant places; others brave out their misfor-taue; as did the fox when he lost his fulness and hide their tell-tale phreno-logical deficiencies. For this purpose, nothing has as yet been discovered that
