

DIAGNOSIS OF THEIR CASE.

This item appears in this week's Progressive Farmer:

"After all, the so called political fight in this State next year will simply be 'making stock' by the Democrats. They will not do that to find out whether or not they have enough material left to get up a decent funeral."

The very next item in the same column is as follows:

"England, France, Germany, India, China, Africa, Japan, Holland and several other countries are more densely populated than America, but this country contains more tarantula fools to the square mile than any other country, the heathen lands not excepted."

According to the Progressive Farmer the Democratic party in this country is about dead. Then these "tarantula fools" must belong to either the Republican or Populist parties, or both, if the above statements are true. Which does it mean? It affiliates with both these parties and ought to know. It can speak with authority, and we hope it will take the trouble to inform its readers whether it means Republicans or Populists.—Charlotte News.

AN INFAMOUS SLANDER.

Dr. Cy Thompson, the new president of the "Noble Order," declared in a speech at the State Alliance at Cary that "when the church fully comprehends its mission the men at the altar will crowd the Alliance. The church today stands where it has always stood on the side of human slavery, and not on the side of liberty. I thank God that even the pulpit is learning that we must live now as hereafter."

The character of the men that hold this big position has made a steady decline since the incumbency of Col. Polk. They carried the Alliance into politics, and in turn carried politics into nearly everything else. But it was left to this Doctor, without patients, to carry politics into the church in a formal, positive slander upon this Christian organization. Too bad!

This reminds us of what a gentleman of the county said recently: "Why they have actually run Cold Water creek into politics." The effects thus far have not been very perceptible.

Dr. Thompson got excited and he will, if the excitement dies out, be sorry for making himself appear so bad and mean in the sight of Christian, decent people.

Under a state of excitement, he would doubtless put up an awful prayer—but he can never hope to reach that proficiency as was recently exhibited by one who has put himself in training for a promotion like unto Dr. Thompson.

WOMAN AND WORK.

The Philadelphia Record says: "The new woman is finding a fruitful field in journalism in the South. For several years a young woman has filled with success the position of city editor of the Charlotte Observer, while other women in the capacity of reporters have done acceptable service on the Salisbury Herald, the Hickory Press, the Durham Recorder and the Lincoln-Courier. This is, indeed, significant when one remembers that a few years ago it would have been considered disgraceful for a woman to earn her own living."

The Charlotte Observer takes up the last sentence and reverts it in a courteous but positive manner. Such a condition as the Record speaks of has never existed since the war, at least not since the two women (which Over Sea and Land told about) came "down South some years ago and taught our women how to keep house etc."

The Record doubtless meant well and wanted to be truthful, but it evidently has been reading some of the lying stories that are occasionally being sent up there for unconstructed Yankee stomachs.

No woman fails to receive honor and respect in this section, if she feels called upon from necessity or desire to make her own living.

Joseph Chamberlain, of the present English Cabinet, is a great fancier of orchids. It is estimated that his collection of these exquisite flowers is worth at least \$15,000.

A nut tree at Torworth, the residence of the Earl of Ducie, near Bristol, is probably the oldest tree in England. It is said to be 1,000 years old at least, and measures 50 feet in circumference. One of the limbs is over 10 feet in diameter.

Henry R. Walter, or Walter R. Henry, whichever it is, in joining the Radicals, has created quite a little fun and amusement. Not getting his talents recognized in the Democratic party he thinks it no trouble to have them appear conspicuous among the Radicals.

says the Monroe Enquirer. They are not lazy. Their looks be lie their real merit. Take a lot of boys loafing on the streets, who look like they would fall to pieces, if it required any energy to keep the body from falling apart, and put them on p base ball ground in a hot scorching August sun and they will spend enough hard work to grub, plow, plant and cultivate that ground and never make complaint of being tired. But if you put those same boys in a field and try to get any work out of them you would see at once that they were born tired and never got rested.

The town of Clinton votes school tax of 50 cents on the \$100 valuation of property, and \$1.50 on each poll. This is the heaviest school tax ever voted in North Carolina. The town now applies for aid from the Peabody fund.

It is pretty tough when a fellow has only a vacation to spend. It's tuff!

So Walter R. Henry goes to the Caucasian to publish his grievance. He wanted an appointment, got none, becomes sores-headed, and now jines the Radicals.

A singer's range is like the kitchen range. If it is a good one it will draw well. The latter's product does more good than that of the former.

The Hickory Press and Carolinian is pleased with the re-release of the N. C. Railroad. Patriotism and not selfishness induces some papers, not on the main line, to cry out against it.

With a promised crop of 2,500,000 bushels of corn this year, the outlook for the distiller is not discouraging, and the courts of the land can grind on and the asylums can fill up.

An agricultural exchange asks "How to make hogs pay?" This is a hard question to answer. The best way to avoid the difficulty is not to sell him anything unless he pays for it in advance.

Burlington has passed an ordinance keeping bicycles off the pavements. It is there as here, the many careful and cautious riders have to suffer for the faults of a very few careless riders.

The smartest thing the directors of the Atlanta Exposition have yet done is their determination that the Mexican bull fight shall not be pulled off. An affair like that would have lowered the tone of the whole business.—Charlotte Observer.

White people lynched a white man down in Dixie, (Louisiana) the other day for burning the home of a negro. Ida Wells will hardly mention that to her English admirers. It may make some of her imitators think better of us.

In Greenland the word for love is saventavixilaravwomatak a m p y. Just think of a fellow, by the side of a Greenland beauty saying: "My dear, I saventavixilaravwomatak-ampy you!" It is terrible to contemplate.

A Western editor, says newspaperdom, is said to have hit upon a plan to keep subscriptions paid up, that takes the cake. Every time a delinquent subscriber is mentioned in his paper his name is inverted. For example: "poqn pones and wife are spending a few days in New York." Every other subscriber understands what it means and there is a grand rush to get right side up again.

The Ohio democrats, in convention assembled, thrust the gubernatorial nomination upon ex-Gov. Campbell. While he was in the act of nominating one, the whole convention of 800 rose to their feet in nominating Campbell. The platform is for "sound money," as the boys call it. THE STANDARD rose on Campbell once, because Mr. C W Swink was a better political judge, and we are off now.

That Blackburn will receive the Democratic caucus nomination when the Kentucky Legislature meets is now conceded by the dear money people. He has already carried Legislative districts enough to insure success, and his enemies admit that he will succeed himself in the United States Senate unless the Kentucky Legislature is controlled by the Republicans. But the ardent advocates still insist that Kentucky is sound on the "gold cure."

The Leasing of the N. C. Railroad was no "Snap." It was anticipated ever since the committee meeting in

Raleigh, and on Wednesday before the meeting on Friday, the probable release was published in a number of North Carolina papers. Don't call it a "Snap" or a "Scoop." It was business.

If Stanly keeps on the ratio of silver to gold will be paralyzed. Gold is more plentiful than exported tin in Stanly county.

What's the matter? From the newspaper record of deaths one must conclude that typhoid fever is unusually prevalent this year. The old people say: "Much fruit, much sickness."

The A. & M. College, unlike the Normal, at Greensboro, goes out the State for its professors. In this respect it is not to be commended. North Carolinians, all things being equal, for North Carolina positions. It's time this suicide is stopped.

SHOT BY A TRAIN ROBBER.

A Grand Rapids Detective Wounded. Perhaps Fatally. By One of the Chicago & West Michigan Road Agents.

GRAND RAPIDS, Mich., Aug. 22.—Detective Powers was perhaps fatally shot in the head while arresting two of the train robbers who held up the Chicago and West Michigan passenger train Tuesday night near New Richmond, in a smoker of the north-bound Grand Rapids and Indiana train to-night.

Word was sent to police headquarters tonight that two strangersmen got aboard a Lake Shore train at Dorre station this morning and came to this city. They were spotted on the out-going train this evening, for all trains had been under surveillance for the suspects. As Detective Powers was going through the train, he saw two men in the smoker who tallied with the description given. He grabbed one and at the same time blew his whistle for aid, as other officers were aboard going through the other cars. The moment he blew his whistle one of the men drew a revolver and shot him through the head and he fell to the car floor. As the other officers rushed in, in response to his whistle, the two men fled and jumped from the train, escaping in the darkness. The whole detective force was at once called out and every available policeman was detailed to search the country for the desperadoes. Detective Powers was removed to the hospital. The physicians cannot state whether he will live or not.

Fire at Milwaukee.

MILWAUKEE, Wis., August 23.—At 1 o'clock this afternoon a serious fire broke out in the Union dock and warehouse on the Menominee river. The dock and warehouse are leased by the Chicago, Milwaukee & St. Paul Railway Company. The wind was blowing almost a gale and the fire spread to the Anchor Warehouse and then to the freight house of the company. The wind spread it rapidly to freight cars, loaded and empty, many of which were moved away by engines as soon as they could be reached. All the warehouses for six blocks along the west side of the river which were mostly frame, were burned, with their contents, including much freight.

Before 2 o'clock the fire was under control. The loss will foot up probably \$300,000 to \$500,000. A boy named McManus was run over and killed by a coal supply wagon of the fire department during the progress of the fire.

Old People.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding Nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old People and it just exactly what they need. Price fifty cents per bottle at Fetzler's Drug Store.

If the Democratic Party Doesn't Agree to Wipe Out the Greenbacks He Won't Play.

NEW YORK, August 23.—E C Benedict, well known in Wall street and for years identified with the Chicago Gas Company, is out with a statement in which he announces that unless the Democratic party comes out squarely in favor of the retirement of greenback currency, he will vote against it and in favor of the party which does. The greenback he declares to be valueless in time of need as a circulating medium and serves only as a pump to draw gold from the Treasury. He says: "Silver worth only 62 1/2 cents is bad enough, but bad as it is, it is worth more than greenback because it has some intrinsic value. To provide a better currency it is necessary first to wipe out the worst forms in existence and then put most anything in their place."

Mr Benedict is a personal friend of Mr. Cleveland.

HAW RIVER, N. C., Jan. 8, 1895.

Lyon Mfg. Co., Brooklyn, N. Y.

Gentlemen:—A short time since one of my horses had scratches so very bad that its leg became swollen and very much inflamed. I used a few bottles of Mexican Mustang Liniment and the inflammation and scratches soon disappeared, leaving my horse as good as ever. I find it is the best remedy that can be had for this disease, and I heartily recommend it to all who have horses or stock of any kind.

Truly yours, J. W. B. BASIN.
