

COUNTY CONVENTION.

Delegates Elected to the State and Congressional Conventions.
The delegates to the different townships met in the court house and formed the Cabarrus County Democratic convention to elect delegates to the State convention to meet in Raleigh on the 25th, to nominate State officers and elect delegates to the Chicago National Convention.

WG Means took issue with the motion, and offered as a substitute to the motion of Mr Peck that each delegation from the townships nominate their own choice of delegates. The motion was seconded and discussed, when a motion to table substitute, by WG Means, caused some delay and annoyance. Further complications having arisen as to the proper method of voting, the motions were temporarily withdrawn for the consideration of noon.

Mr. Means offered a motion that with township delegates who will cast its vote. A vote was taken and declared carried. A motion was then offered by Mr. Peck that the nominations be read by such township delegates as are not satisfied with the list from their township. THE WOOD-PAGE MARRIAGE.

The Beautiful and Interesting Event Which Held Statesville's Attention Wednesday Evening.
STATESVILLE, June 10.—This evening Miss Belle M Wood stood in her beautiful bridal array at the altar, a typical daughter of our sunny clime, she was the admiration of all eyes. It was the occasion of her marriage to Mr. Frank J. Page.

The popularity of the couple, the large number of guests, and the Stateville people filled the church to overflowing. At 8 o'clock the Old North State Church, with Miss Mary O. Coates at the organ, began playing. Mrs. Mary Osge Walton sang, "O Promise me." At the first notes of the wedding march from Mendelssohn were the bridesmaids and groomsmen in couples as follows: Miss Carrie S Wood and Thomas C Leas, of Birmingham; Miss Julia Page and W B Cole, of Rockingham; Miss Gtruder Wood and Alex. N Page, of Rockingham; Miss Jessie Page and M C Wood, of Statesville, as a charming circle.

The ceremony was performed by the Rev. Dr. W A Wood and Rev. Jesse Sigo. The ceremony over, the bride and groom, with the bridesmaids and groomsmen, proceeded to the residence of Rev. J. Wood, where an elegant reception was given, lasting beyond this time.
The presents were of dazzling brilliancy, abounding in solid silver, glass and handsome bric-a-brac. The dress worn by the bride was the same worn by her mother at her marriage 38 years ago.—Observer Correspondence.

For Good Cause.
This colored people of the city are to be credited for putting the money made at festivals and entertainments to a good purpose. At their annual on Wednesday night the others and Sisters of Mercy made it. This money was placed in the hands of their treasurer and will be expended in looking after the sick and burying the dead. The order is doing a benevolent work among their race.

For many years the Odell Manufacturing Company have been trying to get the Southern and its predecessors to put in a side track from the main line to their mills in the upper part of the city, but without avail.
Recently civil engineers made a survey and have staked off a line to extend from the Cannon mill direct to the rear of the large Odell plant, and it is said that work will begin on grading the same next week. It is a certainty this time that the race will be put in.

Childer like to make soap bubbles; it is twice as much fun if the bubbles are big ones, strong enough not to break when they are floated to the floor. Bubbles twice as large as your head or as large as the largest kind of football, can be easily blown by any one who knows how to mix up the soap bubble material. To make these large bubbles take a piece of castile soap about as big as a walnut. Cut it up in a cup of water and then add a teaspoonful of glycerine. Stir well and blow from a soap-bubble pipe. To make big bubbles, add a few drops of straw berry juice and to make yellow ones put in a little orange juice.

Senator known in this section of the State, was the orator on Federal decoration day at Hamilton, Ohio, and delivered an address which fills three columns in the *Republican*, a daily paper published at that place. The deceased was a man of family and about 54 years of age.
The progress that has been made at the institutions for the deaf, dumb and blind is remarkable. At the depot last night was little Sadie Herring, of Concord, who has been at the deaf and dumb school in Morganton. When her father, Dr. H C Herring, met her she spoke to him and for quite a while they carried on a conversation on the platform. The little girl understood what her father said from the movement of his lips and while unable to hear his voice or her own she could answer him by word of mouth. One of the teachers of the school was in the party and took part in the conversation and manifested great interest in the accomplishment of her pupil. The care, patience and tact which can take these unfortunate and make them understand conversation is truly marvellous. Such institutions do nerve much of the State and people and should be fostered and maintained at any cost.—Salisbury Herald.

Found dead!
There is something so shocking about sudden death that the mere mention of it wringes the nerves of sensitive people. Millions of people pray for deliverance from it. Every Sunday in every Episcopal church in the world, those words are said: "From leprosy and murder and sudden death. Good Lord, deliver us."
How deadly sudden death should be shocking and death after lingering disease easy to bear, would puzzle any one to tell. It would seem that it would be more terrible to see some loved one wasting away, daily becoming weaker—daily slipping toward a death no one can prevent because it was slow—than heart disease—more than cholera—other disease—the world has ever known. And yet people are careless about it. A man once said to me: "I have seen a man die in the danger of sudden death, though he was quiet and avoiding excitement. Consumption under what the man does or how he consumes himself. If he doesn't take the right medicine to cure it, Consumption affects the whole body. It is a blood disease. It permeates the whole system. It shows in the lungs because the blood goes to them there to be made pure. If there is too much impurity, the lungs are overworked and die. The impurity stops there. The germs of disease sleep there. They develop and multiply and die. Fisher's Golden Medical Discovery cures 90 per cent. of all cases of consumption, lingering coughs, throat and bronchial diseases. A SAVINGS BANK.
A Movement on Foot Which Assures Concord a Loan and Savings Banks.
For a long time this city and community has felt the need of a savings bank, a place where the working people could make small deposits of their earnings, and THE STANDARD takes great pleasure in announcing to the public that a plan is on foot by which our people are to be accommodated in this line.
Attorney W M Smith is soliciting stock for a new bank, to be known as "The Concord Loan and Savings Bank" with fifty thousand (\$50,000) dollars stock, with Mr. D F Cannon, as president, and Mr. James C Gibson as cashier. The Little Girl was Dressing.
Little 12-year-old Mary Oglesby, at Harrisburg, daughter of Mr. and Mrs. William Oglesby, was recently confined to her bed with typhoid fever and had been sick for several weeks, when one night she became delirious in her dreams and imagined that her father was a tramp, who was lying near by her, and feared he would harm her. It was near one to midnight when her father fell into a sound sleep and it was then that the little girl crawled out of her bed and stole cautiously down stairs, passed on to the front porch, from which she fell. Still imagining a tramp was following her she crawled on her hands and knees to the home of Mr. Les Quay, a distance of about seventy-five yards. She knocked at his door and it was opened unto her. She was there taken care of until morning, when she told the strange story of her imaginations and why she had left her room. The child was too weak to walk. When one fell from the piazza, she fell upon a dog, thus breaking the fall.

THE STANDARD on Tuesday noted Peter Fink's incarceration, but Peter's adventure is a little out of the usual order of every day life and may not be uninteresting.
The said Peter was visiting Mr. Frank Talbert last Sunday. A wagon came along and it seems that Pete has an eye to business in certain lines. After the wagon had passed by Pete fixed up that wagon and forthwith felt an aching void that might be filled from said wagon. He prodded along wistfully after that wagon for about three miles to Mrs. Rey, P B C Smith's, where he applied for a mule to get and some whiskey for Mr. George T Boat, who, he said, was sick and in great need of whiskey. Of course the good lady let him have the mule. He soon overtook the blockader, whom he informed that Dick Harris was almost upon him. Mr. Blockader left the road and went into hiding. Pete was quite helpful in his disinterested way and the whiskey man could do no less than furnish Pete with "red eye" enough that to get on a good "bender." Pete felt quite exhilarated and ripe for some variety to life's humdrum monotony. So he fell upon the idea of whipping his wife. Naturally enough though she did not relish such spice to matrimonial porridge and procured a warrant for assault and required a peace bond. Pete went back on our "Judge Smith" and submitted his case before Eq. D Frank Barbour. Lacking the money to pay cost, and also signers to his bond the Squire turned him over to the tender mercies of the law to sling pick, shovel etc., to the music of the chain.

A Word for a Deserving Democrat.
In looking over the state for the most available candidates to fill our state offices for the next four years we see none who stands higher in public and private life than W B Abernethy of Rutherford College, N. C. He is a bold, fearless supporter of the people's rights; one of the most eloquent orators in the state and in no place is this more effective than on the stump. His private life is above reproach—an earnest Christian gentleman. As a scholar he is known all over the entire Union for his literary attainments. Let such high worth be recognized in our conventions and by supporting such men the victory is assured.
Respectfully,
MOSE NEWELL.

The colored population were in their glory at Armory Hall Wednesday night, where they had gathered to participate in a grand festival, having secured the Bellefonte band, which played.
At an early hour the hall was packed like so many sardines in a can, while the band played.
Three colored policemen were put on duty to keep order, but the band played.
One Thomas Canady went into the hall, holding a cigar in his hand when special policeman Aaron Russell ordered him to put it out, while the band played "Maggie." About that time Tom made a break at Aaron and took his billet from him, some one yelled "fight," and at the instance the band ceased to play. Every man, woman and child in the hall made a rush for the door, falling and tumbling out, the band being in the lead. There was no fight, however, but the band couldn't be induced to remain longer. The last seen of the band was the man carrying the base drum going towards the depot at a double quick pace, singing, "No More, My Lord; I Never Will Come Back No More."

Caused a Stampede.
The colored population were in their glory at Armory Hall Wednesday night, where they had gathered to participate in a grand festival, having secured the Bellefonte band, which played.
At an early hour the hall was packed like so many sardines in a can, while the band played.
Three colored policemen were put on duty to keep order, but the band played.
One Thomas Canady went into the hall, holding a cigar in his hand when special policeman Aaron Russell ordered him to put it out, while the band played "Maggie." About that time Tom made a break at Aaron and took his billet from him, some one yelled "fight," and at the instance the band ceased to play. Every man, woman and child in the hall made a rush for the door, falling and tumbling out, the band being in the lead. There was no fight, however, but the band couldn't be induced to remain longer. The last seen of the band was the man carrying the base drum going towards the depot at a double quick pace, singing, "No More, My Lord; I Never Will Come Back No More."

POPULIST REPUBLICAN DEAL
Guthrie is to succeed Russell.—The latter and Butler fixed up the Trade Law Week by which Russell is to retire in Guthrie's favor.
WASHINGTON, June 10.—Without revealing any confidence I am able specifically to confirm, with important additions, information recently received. Butler and other Populists have arranged a program with the Republicans, or a part of them, about as follows: Guthrie to take Russell's place as head of the joint ticket; vacancies in the Republican State ticket to be filled to suit the Populists, and possibly other changes to be made; the Republicans to support the Teller electoral ticket to be nominated by the Silver party at St. Louis. One of the McKinley delegates, at least, from North Carolina will walk out of the convention. It is said by a man who says he knows the programme that nearly all the Republicans are expected to vote this morning concern, thus abandoning Republicanism but entertaining lively hopes of spoils to come when Teller is President. The latter event is expected either by a landslide fall or coercion of Democrats into voting for Teller in the present Congress; if the election goes into the House of Representatives through failure of the people to elect in November.

The schemers, Butler and Russell, who made the arrangement last week, rely on a solid negro vote except a few educated ones. They also rely on the gold Democrats voting for McKinley in preference to the regular Democratic nominee. The rosate schedule was Butler's, into which Pritchard and Russell are forced by the silver Democratic boom. It is the second or reserved card of the foxy Sampsonian, played after his preferred move of absorbing the silver Democracy had failed. Butler is mad with the true Democrats. He would rather associate with Democrats than with Republicans but is bound to accept Republican companionship if Democratic championship is spurned. Seeing what the Democrats are going to do at Raleigh and Chicago, he turns to his former allies. They, fearing like Butler fears, the silver movement in the Democratic party, are willing to hush their reproaches and rush with tears of reconciliation into the arms of "Mary Ann."

The best opinion here is that Boies will be the nominee at Chicago. As Senator Berry and others say, the Democrats will not go outside the party for a nominee.—Charlotte Observer special.

THE STANDARD on Tuesday noted Peter Fink's incarceration, but Peter's adventure is a little out of the usual order of every day life and may not be uninteresting.
The said Peter was visiting Mr. Frank Talbert last Sunday. A wagon came along and it seems that Pete has an eye to business in certain lines. After the wagon had passed by Pete fixed up that wagon and forthwith felt an aching void that might be filled from said wagon. He prodded along wistfully after that wagon for about three miles to Mrs. Rey, P B C Smith's, where he applied for a mule to get and some whiskey for Mr. George T Boat, who, he said, was sick and in great need of whiskey. Of course the good lady let him have the mule. He soon overtook the blockader, whom he informed that Dick Harris was almost upon him. Mr. Blockader left the road and went into hiding. Pete was quite helpful in his disinterested way and the whiskey man could do no less than furnish Pete with "red eye" enough that to get on a good "bender." Pete felt quite exhilarated and ripe for some variety to life's humdrum monotony. So he fell upon the idea of whipping his wife. Naturally enough though she did not relish such spice to matrimonial porridge and procured a warrant for assault and required a peace bond. Pete went back on our "Judge Smith" and submitted his case before Eq. D Frank Barbour. Lacking the money to pay cost, and also signers to his bond the Squire turned him over to the tender mercies of the law to sling pick, shovel etc., to the music of the chain.
