

VOL. X--N 311.

CONCORD, N. C., THURSDAY, OCTOBER 24, 1897.

WHOLE NO. 448

Sales Talk

With Hood's Sarsaparilla, "Sales Talk," and show that this medicine has enjoyed public confidence and patronage to a greater extent than any other proprietary medicine. This is because it possesses greater medicinal merit and produces greater cures than any other. It is not what we say, but what Hood's Sarsaparilla does, that counts.

Tells the Story. All advertisements of Hood's Sarsaparilla, like Hood's Sarsaparilla itself, are honest, and this with its superlative medicinal merit, is why the people have abiding confidence in it, and buy Hood's Sarsaparilla almost to the exclusion of all others.

Customers Want Hood's. "We order Hood's Sarsaparilla in large quantities and it is the only blood purifier which a druggist can buy in large quantities without risk. It is selling very rapidly and customers who buy it once are sure to call for Hood's the next time. We believe Hood's Sarsaparilla must possess true merit in order to obtain its popularity. It has exceeded all similar preparations and its praises are often heard. L. SOMMER & SON, Springfield, Illinois. Thousands of druggists say the same.

Hood's Sarsaparilla

Is the best - in fact the one True Blood Purifier. Prepared only by C. L. Hood & Co., Lowell, Mass. Hood's Pills with Hood's Sarsaparilla.

THE NEW WAY. WOMEN used to think "female diseases" could only be treated after "medical examinations" by physicians. Dread of such treatment made thousands of modest women silent about their suffering. The introduction of Wine of Cardui... Wine of Cardui has now demonstrated that nine-tenths of all the cases of menstrual disorders do not require a physician's attention at all. The simple, pure... MCELREY'S Wine of Cardui... taken in the privacy of a woman's own home insures quick relief and speedy cure. Women need not hesitate now. Wine of Cardui requires no humiliating examinations for its adoption. It cures any disease that comes under the head of "female troubles" - disorders, menaces, falling of the womb, "whites," change of life. It makes women beautiful by making them well. It keeps them young by keeping them healthy. \$1.00 at the drug store.

D. G. Caldwell, M. D. M. L. Stevens, M. D. DR. CALDWELL & STEVENS. Concord, N. C. Office in old post office building opposite St. Cloud Hotel. MORRISON H. CALDWELL ATTORNEY AT LAW, CONCORD, N. C. Office in Morris building, opposite court house.

L. T. HARTSELL, ATTORNEY-AT-LAW, CONCORD, N. C. Prompt attention given to all business. Office in Morris building opposite court house. M. B. STICKLEY, Attorney at Law, Concord, N. C. SPECIAL ATTENTION GIVEN TO COLLECTIONS. Office upstairs in King building near Postoffice.

Tax Notice! Your town tax for 1897 is now due, and the tax books have been delivered to me with instructions to collect, and for that purpose I am authorized to use all lawful means to collect the same promptly. Pay up your taxes at once and save trouble and costs. You can find me at my office in Jno. L. Miller's store. This 16th Sept., 1897. JNO. B. PATTERSON, Tax Collector for Concord.

Notice of Incorporation. NORTH CAROLINA In Office Clerk Cabarrus County Superior Court. Notice is hereby given of filing of articles of incorporation of "The Concord Telephone Company." The names of the incorporators are N. F. York, D. C. Crum, W. H. Lutz, John P. Allison and W. C. Houston, and such others as they may associate with them; that the principal place of business is in Concord, N. C., and its general purpose and business is the conducting a general telephone business within the State of North Carolina; that at the date of the incorporation thirty years; the capital stock is \$1,500 with privilege to increase to \$10,000 divided in shares of the par value of \$50.00 each. Sept. 18th, 1897. Jas. C. Gibcox, Clerk Superior Court.

A GREAT CONFLAGRATION

Nearly Half a Million Dollar Fire in Durham Thursday - Seven Wooden Frame Houses and Eight Cottages Burned.

Durham was the victim of a disastrous fire Thursday, when flames broke out in the top story of one of the double prize houses, occupied by H. J. Bass. The Durham Sun gives the following account of the great conflagration:

When the firemen reached the scene the top was a seething mass of flames. The fire soon spread to the prize house adjoining, which was separated from the above by an alleyway. This house was also occupied by H. J. Bass.

Then it was seen that the neighboring prize houses situated close by were doomed. The firemen worked manfully, but the water pressure wasn't sufficient to do very effective work. The best that could be done was done under the circumstances. That better work was not done should be ascribed to the dry weather, rather than to the firemen themselves. Everything was as dry as tinder and burned fiercely, and there was hardly any checking it. The flames were so hot nearly all the time that a person could hardly stay near the fire.

Hoghead after hoghead of tobacco was rolled out of the prize houses in the neighborhood, and a good deal was carried to places out of reach of the fire in baskets and in various other ways. A large number of people, both white and colored, worked like Trojans rolling hogheads and carrying out other things from the doomed buildings.

The following are the buildings destroyed: Two prize rooms belonging to B. L. Duke, occupied by H. J. Bass. Two prize rooms belonging to G. W. Watson, on Fuller street, occupied by the American Tobacco Company.

One prize room on Randolph street, owned by Manning and Morgan, occupied by the American Tobacco Company. \$4,000 insurance on the building.

One prize room owned by W. Duke, occupied by the American Tobacco Company.

Two dwellings belonging to Will Newton, occupied by Mr. High and Mr. Maynard.

The red prize room belonging to the Newton estate, occupied by Blackwell's Durham Tobacco Company.

Three dwellings belonging to L. W. Wise, occupied by Chas. Chandler, Whitt Taylor and Chas. Copeland.

Two other dwelling houses owned by B. L. Duke, occupied by Mr. Scott and Mrs. Ramsey.

The American Tobacco Company had about two and a half million pounds of tobacco in its three houses. At this writing it is impossible to say what their loss will be.

The injuries to the electric light wires from the flames is estimated to be about \$50.

The damage to the wires of the Bell Telephone Company and the later-State Telephone Company is estimated at \$150 each.

W. T. Carrington had about five hundred thousand pounds of tobacco; \$20,000 insurance. About 100 hogheads of tobacco were saved.

Several of the firemen came near being overcome by the scorching flames. In fact one or two were compelled to lie down and take some rest, one of them being W. F. Freeman.

Three of Raleigh's fire companies - the Rescue, the Hook and Ladder Company and the Capital Hose Company came up to Durham on a special train consisting of an engine, two flat cars and a coach. About fifty men came up on the special, and they had all necessary apparatus for fighting fire. Their services were not needed, however, as the flames were pretty well under control when they arrived here this afternoon. They were very prompt in responding to the call as soon as they heard of the fire here.

Fears were entertained that Duke's woodyard and the buildings inside of that inclosure would catch, but fortunately these were saved. If these had burned other buildings would likewise have gone, and there is no telling where the fire would have stopped.

At this time, during the excitement, we can give only a partial list of the insurance. The following were insured with W. H. McCabe for the amounts stated: American Tobacco Company, \$46,500; B. L. Duke, \$9,984; George W. Watta, \$8,000; W. Duke, cottage, \$1,000; H. J. Bass & Co., \$3,400.

The total insurance of some of the losers with the firm of J. Southgate & Son amounts to \$55,000. All told, the losses on buildings and tobacco will not miss \$400,000, and may possibly reach half a million.

Gave the Child a Home. Mrs. M. M. Gillon has returned from a visit to her sister, Mrs. H. H. Cochran, at Charlotte. Mrs. Gillon brought with her little Margaret Dorman, from the Thompson Ophanage, and will give the child a home. Mrs. Gillon is an excellent lady and will be a kind, good mother to the little girl.

An Old-Time Darkey.

An interesting visitor to our town is old Uncle Adlia Parks, of Rowan county. He is an ex slave, once belonging to Mr. Hugh Parks and for fifty years the old darkey ran Parks' mill. Adlia is 86 years of age, has been married twice and is the father of eight children. He visits town very seldom and was never in court. He was purchased when 10 years of age by Mr. Hugh Parks and now lives with his young master, Mr. David M. Parks. He came to town last Monday to see the street parade of the circus.

While standing on the streets, his attention was attracted by a canvassed ham suspended to a peg in the front of one of the stores. The old darkey viewed the stange thing with longing curiosity, finally asking: "Master, what is dat sowed up in de bag?" He was told, and when going on his way, he chuckled and remarked that the town people were "so curious now-a-days dat de poor old country nigger couldn't keep up wid 'em."

When You Say Shoot. The time when gunners may again revel in their favorite sports is now nearing, and as the period is often forgotten and information is often called for, THE STANDARD is glad to publish the following, kindly furnished by a member of the bar:

THE GAME LAW. Section 2834 of the Code, as applicable to Cabarrus county, has been amended by Chapter 79, Laws 1891, and Chapters 339 and 361, Laws 1893, so as to read:

No person shall kill or shoot, trap or net any partridge, quail, doves, lark, mocking birds or wild turkeys between the fifteenth day of March and the fifteenth day of November in each year; and the person so offending shall be guilty of a misdemeanor, and fined not exceeding ten dollars for each offense.

Chapter 491, Laws 1897, makes it a misdemeanor to destroy the nest of a mocking bird, or to kill a mocking bird at any time.

Trouble at the Mills. The Odell mills have been running extra at night for more than a month past, having gotten behind in orders for goods, etc., but the mills were necessarily closed Thursday night, on account of a shortage of night hands, that class of labor having been induced by a slick-tongued man to leave their work here and go elsewhere.

There is no little amount of trouble with a certain class of hands at the various mills in the city, caused by persuasion.

The name of the man offering hands Klondike inducements to go with him to a cotton mill in South Carolina, is G. W. Hunter, hailing from Charlotte.

Ex-Governor Boies on Gold and Silver. Ex-Governor Boies has written a letter upon the subject of "The Bullion as a Basis of National Currency." He says: "Gold and silver bullion money; it is practicable. They may be made an invariable double standard for the measurement of values. It is said no plan of that character would be in accord with the Chicago platform. That is true. But the Chicago platform has had its day in court before the tribunal of last resort. Must Democrats to be loyal adhere to it forever? The objection is at variance with the theory of our form of government.

"If it prevailed elections would cease to rule and when a political issue was once joined, the warfare over, it would go on until one or the other of the parties to it was totally annihilated." -Des Moines, Ia., Dispatch, 12th.

A Correction. Wednesday's Daily contained a short item about a certain settlement between Messrs. N. P. Cranford and M. Ogleby, in which it was stated that Mr. Cranford had been in jail. It was Lee Smith who had been in jail and liberated, and not Cranford, as stated. We regret having made the mistake.

Grown 150 Feet This Year. Mr. Victor Caldwell, one of the largest planters in Cabarrus county, was in the city today and when approached by a STANDARD reporter for the neighborhood news, he stated that he had on his place an overbearing mulberry tree that has grown 150 feet this year. The tree did not grow straight up, however, but branched out in the above proportion.

RUMORED CHANGE.

It is said that No. 35, the Southern's Fast Mail, will arrive Three Hours Earlier.

Charlotte News: There is a rumor to the effect that there will soon be a decided change in the schedule of No. 35, the Southern's fast mail from Washington, that arrives in Charlotte at 10 o'clock p. m. A News reporter learns that a marked change of schedule on the Pennsylvania road that puts the train in Washington three hours earlier, is the reason why the Southern will make the change. The train over the Pennsylvania road referred to above connects with the Southern in Washington. All the Southern mail from New York and Northern points is brought to Washington by this train and is then taken up by the Southern. This road having the government contract for carrying southern mails it is natural to suppose that Uncle Sam will see to it that such an important batch of mail is not to be delayed for hours before it begins its journey South. If this be true No. 35 will in all probability reach Charlotte between 7.30 and 8 o'clock.

A News reporter interviewed a prominent Southern official regarding this probable change but he did not know whether or not the matter was under consideration. Mail clerks on the Washington and Charlotte route say that they have heard of the change in Washington but whether or not it will go into effect they did not know.

The Missionary Ship. The Missionary Ship now being organized under the management of Mrs. W. R. Harris and Mrs. H. M. Barrow will be presented at Central Methodist Church on Friday night, Oct. 23, and also at Forest Hill Methodist church on Saturday night, Oct. 23. No admission fee will be charged, but all are earnestly requested to come prepared for a contribution to a worthy cause.

For this entertainment there will be a practice on Saturday afternoon, Oct. 16, at Forest Hill Methodist Church at 4 o'clock, and at Central church on Sunday afternoon, Oct. 17, at 4 o'clock. All taking part will please attend the practice at both places.

This entertainment promises to be unique, and when it is known that music will be freely interspersed under the excellent training of Mrs. Barrow, fresh interest is added.

Our Convict Farms. The State now has four farms cultivated by convicts. They are the Wadesboro farm with 1,000 acres of cotton and 450 acres of corn, with 150 convicts working there. The big Caladonia farm on the Roanoke in Halifax county. The farm consists of 2,000 acres in cotton and 2,500 in corn. This farm works 300 convicts. The farm known as alfalfa farm in the same county consists of 500 acres in cotton and 1,000 in corn with 130 convicts. At the Northampton farm there are 10 acres in cotton and 1,300 acres in corn. There are 160 convicts. The crops are all good and a fine yield is expected. All the convicts are picking cotton, getting out about sixty bales a day. -Greenville Reflector.

What is the Value of Life? The following contribution was sent THE STANDARD by a lady friend of the county, which we publish for the benefit of all concerned: Nothing to breathe but air, Nothing to eat but food, Nothing to wear but clothes To keep us from going nude. Nothing to do but things, Quick as a flash they're gone. Nowhere to fall but off, Nowhere to sit but on. Nothing to quench but a thirst; Nowhere to sleep but in bed, Nothing to have but what we've got, Nothing to bury but dead. Nothing to weep but tears. Ah me! Alas and alack! Nowhere to go but out, Nowhere to come but back.

What is the value of life? Hello Althamar. The telephone line from Albemarle to this city, will be in working order soon. The large force of hands engaged in placing the poles, have reached Mt. Pleasant, and will strike this city in a few days. Mr. J. M. Russell has the work in charge and as soon as all the poles are set, the linemen will put up the wire and phones.

A GRAND SUCCESS.

Mite Meeting Largely Attended - Prizes Awarded the Young Men.

The meeting of the Mite Society, held at the hospitable home of Mr. and Mrs. Elam King on South Main street Friday night, was a grand success. Its special features have no equal, and the large number in attendance were amused in various interesting ways.

Contests were had on the most expert at sewing, darning, measuring, receipts and sweeping, and the prizes were awarded to the following young gentlemen: The first prize was awarded to Mr. R. L. Kessler for the best sewing. It was a Bachelor's Button.

Mr. A. Jones Yorkie was given a tape measure for the best and latest style ladies sleeve pattern.

Mr. Chas. White won the darning egg for being the most proficient at darning.

A broom was won by Mr. Aubrey Hoover, who handled the broom in sweeping as gracefully as almost any woman.

For the best cake receipt Mr. Bernard Feizer was awarded a pie. Misses Lucy Lore, Mary Skinner, Belle Means, Miss Savage and Mrs. S. J. Lowe were the judges, and the prizes were presented by Miss Belle Moser.

The "Coming Woman" and the "Going Man" were very much in evidence and the evening, with its novel and entertaining programme, was something new and very much enjoyed.

The Mite Society will hold its meeting next Friday night at the home of Mr. and Mrs. S. J. Lowe, on West Dept. street.

The financial feature was not neglected in the least and the mites collected netted several dollars for the society.

The Big Warehouse. The material for the construction of the large cotton warehouse for the Odell manufacturing company is being placed on the ground.

The warehouse will be built in the rear of No. 2 mill, and will be located in a position that will cut off Forest Hill street at the big well, somewhat changing the course of the street, which will bend and come out into Church street just above the Walker store room. Several of the old houses that stood on Forest Hill street, facing the factory, have been torn away to make room for the new building.

North Carolina Cotton Mills. Official reports to the labor commission show that the capital of North Carolina mills which spin and weave cotton is \$17,242,950. The reports show that one-third of the mills are operated night and day. Thirteen woolen mills which spin and weave report, and also 32 wool and carding mills, some of which also spin. Twenty-five cotton hosiery mills make reports. The labor commission said: "You can now say that North Carolina mills will this year spin all the cotton we make. The reports show this. They now run both day and night work, while the old figures were only for day work." -Raleigh Press-Visitor.

A Bad Venture. From the Salisbury Sun we learn that a party going home from the show at Salisbury, Tuesday evening, attempted to cross the river at Trading Ford and the two mules and wagon with women and men were drifted down the river. One mule was drowned and the other was found the next day and rescued from a kind of raft by which it kept its head above the water. The wagon's lodging on each rock saved the people from drowning and all were rescued. It seems that the calamity was caused by the persistence of John Wood, who said he would cross or die, while others plead against the venture.

A Remarkable Baby. Among the many remarkable things in and around this city is the three weeks old child of Mrs. Kate Sherrill, at Forest Hill. The actual weight of the baby is 26 pounds, and it seems to realize when a stranger calls to see it. The infant will laugh and notice things in a like manner to a child ten months old.

Death of the Man Who Killed General Sedgwick. Abraham Crabill, an old Confederate soldier of the Stonewall Brigade, died at his home in Shenandoah county last Saturday. It was a well established fact that during an interval between the hard fighting, he had shot and killed Gen. Sedgwick, near Spottsylvania Court House. Mr. Crabill was a sharp shooter at the time. -Norfolk Landmark.

Sure He Has Found a Cure.

Buenos Ayres, Brigentina, Oct. 13. -A telegram from Montevideo, Uruguay states that Dr. Sanarelli, who a few months ago announced his discovery of the yellow fever germ, and who announced a few days ago, the discovery of a curative serum, encountered great difficulties before he perfected the serum. He made experiments on many animals, including horses and oxen, which had been inoculated with fever virus. After hard work he finally succeeded in producing a serum which he found would immunize inoculated animals.

After a conference with leading members of the Medical Society of Uruguay, Dr. Sanarelli will go to Rio Janeiro, where he will test his serum on a fever patient. He expressed himself as absolutely confident of the curative powers of the fluid.

Life and Death. When we walk near powerful machinery we know that one single misstep and those mighty engines would tear us to pieces with their flying wheels or grind us to powder in their ponderous jaws. So when we are thundering across the land in a rail-car, and there is nothing but half an inch flange to hold us upon the track. So when we are in a ship at sea, and there is nothing but the thickness of a plank between us and eternity.

We imagine then that we see how close we are to the edge of this precipice. But we do not see it. Whether on sea or land the partition that divides us from eternity is something thinner than an oak plank or half an inch of iron flange. The machinery of life and death is within us. The tissues that hold these beating powers in their place are often not thicker than a piece of paper and if that thin partition were ruptured it would be just the same to us as if a cannon ball had struck us. Death is inseparably bound up with life in the very structure of our bodies. Struggle as we will to widen this space, no man can at any time go farther from death than the thickness of a sheet of paper. -Selected.

Odd Facts. The California walnut crop probably will be about this season. It is estimated that it amounts to only 175 ten-ton carloads, or 3,500,000 pounds.

Vegetables are being dried now like apples and other fruit. Seven pounds of potatoes weigh one pound when dried, and other vegetables shrink in weight correspondingly. Onions, carrots and potatoes are the vegetables used most now, but the industry will, it is expected, develop greatly.

Chicago experts, after a few years' experience with vitrified brick pavement, say it is equal to granite and much better than asphalt or cedar block paving. It is cheaper, too.

Native and foreign investors now are studying the oil wells of Japan. The field is considered promising.

Bottles now are being made of paper under a German patent. They are for use particularly on shipsboard, where heavy weather works havoc among glass receptacles.

A scientific farmer fed his herd of cows one winter on a scientific ration with remarkably satisfactory results. To give his unscientific neighbors an object lesson, he fed them the next winter on an unscientific ration. The cows, possibly to spite him, produced just as much butter as they had given in the year before. The scientific farmer was mad about it, but he isn't discouraged.

On the west coast of Africa there is a slight local demand for stovopolish. The native ladies use it as cosmetics.

While the tea growing industry of Ceylon is at its best, the coffee planters are near ruin. Disease is carrying off the plants rapidly.

Mr. Wincoff Improving. Mr. A. J. Wincoff, who fell from the roof of his house in No. 4 township about two weeks ago and received what was thought to be fatal injuries, is slowly improving and chances are good for his recovery, we are informed. Mr. Wincoff has been taken to his home near Salisbury.

Attention Farmers. I will begin Concord on Saturday, October 23rd, at Conit's livery and feed stables, with a car load of horses and mules that I will sell cheap. Remember the date and be present. R. A. DODD.

Notice of Dissolution. The firm of M. F. Nesbit & Co., has been this day dissolved by mutual consent, T. B. Smith having withdrawn from said firm. The firm will hereafter be known as Nesbit & Presley. M. F. NESBIT & CO. Coddie, N. C., Oct. 1st, '97.

All claims due the firm of M. F. Nesbit & Co., are payable to Nesbit & Presley, I having conveyed to the firm my interest in the same together with my good will and wishes to the new firm. T. B. SMITH.

ACCIDENTAL SHOOTING.

Clark Atwell, White Loading a Pistol. Shoots His Six-Year-Old Brother, Fred - Probably Fatally Injured.

A very serious, and probably fatal shooting affair occurred at Cannonville this morning a few minutes after 10 o'clock.

Mr. R. O. A. well lives in New Town, house No. 87. While his 15-year-old son, Clark Atwell, was loading a pistol, the dangerous fire arm accidentally discharged and the ball took effect in the abdomen of his little six year brother, Fred.

Little Fred was standing in the kitchen, with his elbows resting upon the dining table, watching with great interest his older brother clean and load the pistol. Clark was sitting on a board in the kitchen door, and not until after the pistol had discharged and done its fearful work, did the young man realize the dangers of a pistol. Clark could not tell exactly what made the pistol go off. He was not snapping it or handling it carelessly. It was a 32 calibre rim fire pistol.

The child who was shot is a bright looking little fellow. The ball entered just below the breast bone and, it is thought, penetrated the pancreas.

Dr. Young and Smoot were called to attend the child and dressed the wound. They did not probe for the bullet, which lodged in the child's stomach.

The accident is a very distressing one and may prove fatal. -Daily 16th, inst.

Horse's Body - Boy's Head. Dr. G. W. Barlow, a veterinary surgeon of Ashland, Wis. is here with what is termed "the modern lensar," which is to be kept on exhibition for a time. The freak stands about 18 inches high, and has the body of a colt and the head of a human. The freak was born at Ashland, Wis. January 25, 1895 and lived two hours. It has been in Dr. Barrow's possession ever since its birth. He has a certificate signed by a number of business and professional men of Ashland testifying to its genuineness. -Asheville Citizen.

Adjourned Court "Upside Down." Last Saturday, the last day of court, Sheriff Haynes was called home on account of illness in his family. All the deputies except Columbus Henson, the junior deputy, had gone home, so he was left in full charge as officer of the court.

When the session was about over Judge Norwood said: "Mr. Sheriff, adjourn this court 'side die'."

The young sheriff didn't quite catch those two Latin words but was determined to proceed with his duties and said in loud, bold tones: "Oh, yes! oh, yes! this honorable Superior Court now stands adjourned 'upside down'."

Attorney J. M. Moody says that above is an actual occurrence. -Waynesville Courier.

Ignored Charlotte. A Charlotte man who was in Greensboro last night tells a News reporter that he had to laugh at a porter calling to the passengers to get aboard. When the train was about to pull out for the South a black, greasy porter yelled out "All aboard for Spencer, Salisbury, Concord and Atlanta!" "It is an actual fact," said this gentleman, "that there were more passengers on this train for Charlotte than for all the rest of the stations between Greensboro and this place." -Charlotte News.

No More Temple Cup. The Temple cup series in the National League may be contested no more. W. C. Temple, of Pittsburgh, who presented the magnificent silver trophy to the league, is dissatisfied with this year's contest. He declares with the league meeting in November and forest that the cup be returned to its donor. "I will do," said Mr. Temple, "ask that the league investigate the charges that the Baltimore and Boston players this year agreed to an equal division of the receipts, in face of the league's explicit conditions about 60 per cent. to the loser."

Needs No Explanation. Madison, N. C., Aug. 4, 1897. Goose Grease: Linnmont Co., Greensboro, N. C. Dear Sirs: -Please ship us at once one gross Goose Grease Linnmont, we are entirely out. Don't fail to ship at once. Please give us jobbers prices. It is the best thing we have ever seen. W. C. JONES & CO.

Royal makes the food pure, wholesome and delicious. ROYAL BAKING POWDER Absolutely Pure. Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., New York.

SCHEDULE SOUTHERN RAILWAY. In Effect Jan. 18, 1897. This condensed schedule is published as information, and is subject to change without notice to the public. Trains Leave Concord, N. C. 9:27 P. M. - No. 35 daily for Atlanta and Charlotte Air 35, a division, and all points South and Southwest. Carries through Pullman drawing room buffet sleepers between New York, Washington, Atlanta, Birmingham, Galveston, Savannah and Jacksonville. Also Pullman sleeper Charlotte to Augusta. 8:45 A. M. - No. 37, daily, Washington and Southwest, vestibuled limited for Atlanta, Birmingham, Memphis, Montgomery, Mobile and New Orleans, and all points South and Southwest. Through Pullman sleeper New York to New Orleans and New York to Memphis. Dining car, vestibuled coach, Pullman tourist car for San Francisco, Sundays. 9:30 P. M. - No. 2, daily, from Richmond, Washington, Goldsboro, Norfolk, Selma, Raleigh, Greensboro, Knoxville and Asheville to Charlotte, N. C. 10:30 A. M. - No. 11, daily, for Atlanta and all points South. Solid train, Richmond to Atlanta; Pullman sleeping car, Richmond to Greensboro. 10:57 A. M. - No. 36, daily, for Washington, Richmond, Raleigh and all points North. Carries Pullman drawing-room, buffet sleeper, Salveston to New York, Jacksonville to New York; Birmingham to New York. Pullman tourist cars from San Francisco Thursdays. 9:02 P. M. - No. 38, daily, Washington and Southwest, vestibuled limited, for Washington and all points North. Through Pullman car Memphis to New York; New Orleans to New York; Tampa, P. F. A. G. Also carries vestibuled coach and dining car. 7:22 P. M. - No. 12, daily, for Richmond, Asheville, Chatham, Raleigh, Goldsboro, and all points North. Carries Pullman sleeping car from Greensboro to Richmond. Connects at Greensboro with train carrying Pullman car for Raleigh. 6:15 P. M. - No. 10, daily, for Richmond; connects at Greensboro for Raleigh and Norfolk; at Danville for Washington and points North; at Salisbury for Washington, Knoxville and points West. All freight trains carry passengers. JOHN M. CULP, M. A. TUCK, Traffic Mgr. Gen'l Pass. Ag't, W. H. GREEN, Washington, D. C. Gen'l Superintendent. Washington, D. C. S. H. HARDWICK, Ass't Gen'l P. Ag't, Atlanta, Ga. W. H. TAYLOR, Ass't Gen'l P. Ag't, Louisville, Ky. GOWAN DOBENEK, Local Ag't, Concord, N. C.

Railroad Engineer Testifies to Benefits Received From Dr. Miles' Remedies. THERE is no more responsible position on earth than that of a railroad engineer. On his steady nerves, clear brain, bright eye and perfect self command, depend the safety of the train and the lives of its passengers. Dr. Miles' Nervine and other remedies are especially adapted to keeping the nerves steady, the brain clear and the mental faculties unimpaired. Engineer F. W. West, conductor of #222 Broadway, Council Bluffs, but now residing at 3411 Humboldt St., Denver, writes that he "suffered for years from constipation, causing sick, nervous and listless headaches and was fully restored to health by Dr. Miles' Nerve & Liver Pills. I heartily recommend Dr. Miles' Remedies." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle free, if you do not get benefits or money refunded. Book on the diseases of the heart and nerves free. Address DR. MILES MEDICAL CO., Elkhart, Ind.
