

ANOTHER COTTON MILL

For Cottons - Will be built on about 100 acres of land...

It will be remembered that several months ago THE STANDARD announced that a movement was on foot for another cotton mill in Concord...

The following was headed to us by one of the proprietors: "The land trade that has been in contemplation for some time between Mr. Joe Reed and Lippard & Barrie has been satisfactorily closed. This firm is now placing a brick machine on the land with a view to holding a spinning mill in the near future. The land lies on East Depot street just across the street from the Cabarrus Roller Mills."

FROM COPAL GROVE

A Anniversary Festival - Services Two O'clock and Praise - Needs a Horse.

Rev. P. H. E. Dietrich was in the city Monday. He thanked THE STANDARD for notice of the strawberry festival by the ladies of Bethel on the 5th but regretted that he omitted the place. It is to be at the Misenheimer and Lewis Spring Hotel at 7 o'clock in the evening.

He said he married Mr. Henry F. Small, of Randolph, to Miss Mamie Small, of Stanley, Sunday morning, at the passage, then preached at 11 o'clock. After noon he married Rufus A. Wagner and Miss Fannie Barnhardt, at Gladstone, and preached to St. John's, where he preached Sunday night.

Rev. Derrick had his horse recently, which bears heavily upon him. He needs another.

NO WAR YET

The Message to Go in Every War - Armed Interference - Congress May Be and Cause Delay.

The President's message went into Congress today (Wednesday). It is understood to recommend armed intervention and argues against recognition of independence at this time. He thinks the United States should supervise affairs on the island till a substantial form of government can be inaugurated.

There is much speculation as to what Congress will do in the way of sending his plans. It is more than probable that there will be that diversity of plans and clashing of opinions that will stave off any definite action for some days to come. On the whole the prospects are more favorable to no immediate war than on Tuesday.

THE UNITED STATES SENATE

Committee has found, by a vote of 19 to 17, that Senator Hanna is guilty of bribery in obtaining his seat. Let him be ousted as quick as the time can be spared from Cuban affairs.

A NEW CORRESPONDENT

For The Standard - Mr. Matthews himself at Knoxville - Writes Book "Peace and Poetry."

Knoxville, N. C., April 6, '98. - April has come in and with it plenty of fun. On the morning of the first just about daylight all of our towns could be seen trying to escape from the city (or at least from Prof.) About 9 o'clock the night before several girls came in "Noble Franks," and the next morning left the city. They built a fire about a mile from town, where they breakfasted, married a large rock for a table. After a while all of the other boards (or the boys) joined them and they had quite a lively picnic.

The common services are being held at St. Joseph now.

Dr. Wyther's sister, Miss Rose, of Davidson, paid our little town a pleasant visit.

The girls have a telephone but the boy's say it doesn't extend far enough.

We think the "wedding bells" will soon be heard. We are sorry to lose those two girls, but with our hearts will be saddened others will be glad.

Miss Nellie Cowan, Nora Rodgers and Mr. Louis Miller are visiting in Cabarrus at the home of Mr. James Daywalt.

Miss Nellie Goodnight and Gerie Crane have gone to Mill Bridge to spend a few days.

The infants of Mr. and Mrs. Caleb Overman died last Sunday. The people of Knoxville sympathize with them in their loss.

We are going to meet Prof. Matthews in going to Knoxville. He will be in Knoxville on Tuesday. We will meet him in the city of Knoxville and he will be in Knoxville on Tuesday.

Concord for marriage. Ohio Grove for candy; Bechtville a brother; But Treatman's a steady.

"SIN" AND "JOE"

TO CURB A COUNCIL ON ONE DAY

Take Initiative from Quinine Tablets. All druggists refund the money if it fails to cure. 25 cents.

THE QUESTIONS AND THEIR ANSWERS

"Subscriber" asked certain questions of our correspondent who treated Mormonism to a bitter dose a few issues ago. Below we append the questions with Mr. Fisher's answer to each.

We suspect from Mr. Fisher's term, "your creed or society," that he construes subscriber as favorable to Mormonism, which we hardly think, but we leave the matter between them, save that we ask that no effort be made through THE STANDARD to palliate Mormonism, or by the appearance of persecution, to win to it thereby the inconsiderate and the impulsive.

Editor STANDARD - For personal edification "subscriber" would like for your contributor on Mormonism last week to answer the following questions pertaining to our proper attitude:

1. Did Christianity arise and flourish in the face of the bloody cross of Judaism?

Ans. Whether it did or did not, it does not prove anything for Mormonism of the present day.

2. Did civil authority and individual opposition prevent the formation of different denominations?

Ans. In its true sense it never attempted to do so.

3. Has persecution ever eliminated a religious society?

Ans. You have never succeeded to say anything in making intelligent people believe that your society and creed was religion.

4. Is it the object of the Boston Tea party scheme to suppress Mormonism or simply to harass those who promulgate it?

Ans. The Boston Tea party was an act of the people outside of law to correct a wrong.

5. Was the Boston Tea party a measure to secure religious reform?

Ans. It had nothing to do with religion whatever and certainly with Mormonism?

Can civil and religious matters be properly managed by the same methods?

Ans. With the criminal and stained history of the church and its early prophets, would it not be a great stretch of imagination to call the Mormon creed and practice either civil or religious?

Should civil law be encouraged?

Ans. Not if it could be safely avoided. But when crime and criminals flourish in defiance of law to the great injury and detriment of innocent and good people and the law does not, or cannot reach them, then the people have a duty to perform and they have generally done it.

REAR EDITOR, WILMINGTON

Nov. J. T. Gibbons, the editor of the negro paper at Winston, was assaulted this morning by Mal. Seales, a negro noted for fighting. Gibbons came out second best. He had a pistol on him and Seales allowed him to get up after the editor gave up the shooting iron. - Greensboro Record.

THIS FOLLOW US NOTICE

is cutting a figure. We append a clipping of his hot stuff without intending any special humiliation for our white friends, but we confess that it would seem rather a humiliating dose:

"In these days of political degeneracy it has become a custom in politics to fight from behind masked batteries and we want to tear all masks and subterfuges from the political arena, and clear up the political atmosphere."

"We desire to be plain, and we want to be understood."

"The negro being the major part of the Republican party in North Carolina and the Herald being the organ of the negro race, it at once becomes the organ of the Republican party. No white man has any interest in the conduct of this paper personally, further than it may be acquired by his loyalty to the Republican party and to the people composing that party. The man who is true to these principles will find this paper true to him. In the same proportion as he is untrue to these principles will this paper be untrue to him."

"If we, as negroes, give up our rights and duties any longer, we give ourselves up. So, without drifting, we come to destroy our party, which is left alone, have a tendency to destroy our organization and to make us a nation at the same time."

"We are the only true Republicans and we are the people who must purge the party in order to keep it alive and make it fruitful."

"We have today a series of domestic difficulties existing in nearly every county. Fourth county has its little bitter factions and we are disgusted with them and we are going to destroy them."

THE EDITOR'S ANSWER

IT DESTROY THE MEN WHO LEAD THEM

"Outlaw you can save yourselves only by leaving down your arms and by treating the negro fairly, and you will not soon be intimidated any one by crying 'Democratic sheet!'"

"He that says this is a democratic sheet is a malicious liar."

"You saddle this horse, but the negro proposes to ride it."

MONTHLY WEATHER REPORT

The following is the weather report for the month of March as furnished us by Prof. H. T. J. Ludwig's weather observatory:

Highest temperature 85° on 21st.

Lowest temperature 23° on 6th.

Average temperature 55.7° Normal average 48.9°.

Total 3.77 inches.

Normal 3.87 inches.

Highest Rain 2.71 inches on 23rd and 30th.

Number clear days 8; partly cloudy 3; cloudy 30.

Rain fell on 11 days.

Prevailing direction of wind southwest.

Light frost on the 8, 9, 11, and 21st.

Hottest frost on the 7th.

Thunder shower on the 24th.

Light hail on 4th and 5th.

Fog on 11; Smoky on 2, 20, 21, 22, 23.

Plum blossoms 12th; peach blossoms 13th; cherry and pear blossoms 23rd; apple blossoms 25th.

GETTING READY FOR THE WORST

Anderson Intelligencer: Four carloads of ammunition for use in the defense on Sullivan's Island have been received and another supply is expected soon. At Charleston arrangements are being made to sink torpedo mines in Charleston harbor. Some of the material needed has already been received. Work on the fortifications being rushed. Many of the heavy guns have been mounted and are ready for action. It is said that orders have been received from Washington to make in time to getting the forts in shape for emergency. More troops have also been ordered there.

SOUTHPORT STANDARD: NEAR BY

has Fort Caswell presented such a busy scene as is now going on. It appears that nearly the entire government forces of the War Department of the State have been ordered to the fort and are now pushing the work all day, and since the electric plant has been completed, work will continue night.

The department is rushing the completion of the new emplacement for the new gun on the west end of the battery, and if necessary it will be mounted temporarily on a wood structure. It is also learned that mortars will be placed on the fortification as soon as possible.

It is learned that a telegraph line will be put across the marsh and around to the island, connecting the fort with Southport, thus establishing communication with Wilmington.

Tuesday night was an unusually busy time, as a steamer was unloaded in 100 barrels of cement at the wharf. The cement is now being transferred to the work where the mixer is last preparing the concrete for the emplacement.

The steam whistles from the locomotive and the tug belonging to the government are heard day and night.

The Easton is kept very active in transferring machinery, lumber, rock and other material to the fort and it is likely that Captain Craig will soon have the work completed from the vigorous efforts he is now putting forth.

BEACH THROUGH THE TROOPERS

The late editor, W. C. Branch, of the Waco Texas Iconoclast, played his game too far for once and was killed on the streets Friday by Capt. M. T. Davis, whose character together with that of his daughters the editor in his mania of abuse reflected on. Capt. Davis was also fatally wounded and has since died and several bystanders received slight wounds from the flying missiles in the feud.

FOR SEVERAL MONTHS THE

which is on exhibition at the St. Cloud hotel, of the large gold nugget found at the Red mine several years ago has been in the hands of a New Yorker, who, by persuasion, had taken it home with him to show to some of his mining friends. The nugget should have been taken home some time ago and so Mrs. Duval had some one to look after the matter and it arrived today (Monday). This nugget attracts the attention of quite a number of travelers coming to our town.
